HellermannTyton

Part No. 164-21108
Article No. 164-21108
Type HelaDuct Flex20SK

HelaDuct Flex provides an extremely flexible method of routing wires in restricted-space applications. Smooth, overlapping, circular finger pattern reduces wire abrasion and eliminates the need for a separate cover in order to maintain wires when installed at angles greater than 90 degrees. Quick and easy inspection, access and removal of wires reduces installation and maintenance time. Available with adhesive foam strip for temporary positioning or non-adhesive back.
