Academic Development

Throughout the LSI programme, we monitor the academic development and well-being of each and every student carefully. We ensure that every student progresses quickly and is supported in reaching their learning goals.

The level reached after studying at LSI depends on a variety of factors:

- Duration of the course – the longer the course, the better the results
- Number of lessons – a more intensive course helps you progress faster
- The language level of the student at entry

Active participation in afternoon social activities, making new friends from all over the world, immersing yourself in the local culture, as well as speaking the target language as much as possible, will greatly affect your achievements.

"LSI truly feels like home. I came here for TOEFL preparation and ended up gaining so much more: confidence, career, direction, and real support from amazing teachers."

LSI Language Learning System

We're passionate about language learning. That's why we're constantly reviewing the latest trends and methodology in the field.

Academic staff from every LSI school participate in the research and development of our programmes. We ensure that the latest theories of language learning are considered and evaluated throughout our centres. That's why every one of our schools is a healthy environment for learning. The following points are fundamental to our language learning system:

Language Immersion

At LSI we believe that the best way to learn a language is to study in the country where the language is spoken. We want you to immerse yourself in the culture and truly 'live the language'.

LSI Levels

Upon arrival at any LSI school, we'll give you a comprehensive language level test so we ensure you go straight into the right class for you. LSI levels have been closely matched to the Common European Framework, TOEFL iBT, IELTS and Cambridge English language assessment examinations. To move up to the next LSI level you need to master our specific 'level objectives', which you can demonstrate by test scores and class participation.

At LSI we understand that some students learn faster than others, so our course is tailored for you as the individual. There are regular opportunities to discuss your progress with your teacher.

Through systematic testing, monitoring your class performance and constant teacher appraisal, the school academic director will track your progress and identify exactly when you have mastered the level objectives and are ready to move up to the next level. This monitoring and testing allows us to grade between and within levels, allowing you to spend more time studying with the students and materials at the level which is right for you.

Latest Materials

We're constantly reviewing the latest materials available for language learning. We provide you with what our academic team have identified as being the very best materials currently available for your level. We are also committed to providing the latest technology, utilising the most cutting edge audio, video and web based resources to bring modern, real world language into the classroom.

Cultural Exchange

As you 'learn and live the language' you will gain a greater understanding of the country in which you are studying. And as our students come from all over the world, our centres are not just places to learn languages, but are also places to meet and share experiences with people from a huge range of backgrounds and cultures.

Quality Teachers

We understand that our students' single most identifiable measure of programme quality is the teacher. That's why at LSI we only work with dedicated, highly motivated teachers, qualified with country specific teaching credentials.

As such we have a systematic programme of teacher development and performance evaluation. All of our students are regularly invited to provide feedback so that we can ensure that your teacher meets your expectations.

E-LSI (E-Learning from LSI)

Our custom built on line learning system works alongside our classes to help you maximise your time with us. Through your unique log in, you can access your test scores, prepare for and record your 1-2-1 tutorials with your teacher, and access a wealth of further learning resources to supplement and extend your in class learning.†

Your test results can also be analysed to provide unique learning objectives for you, giving you the chance to study exactly what you need in order to progress.

Fluency / Academic Skills

This is a 12-module, topic-based course in which students can rapidly improve their speaking, listening, reading and writing skills. Each week students focus on vocabulary and grammatical structures related to a specific topic and perform practice exercises related to the four skills. The classes are level based so students can move to higher levels as their skills improve. This means students who wish to study longer and consolidate and expand their knowledge of a particular area, can do so without repeating any material.

Motivating materials and imaginative, knowledgeable teachers ensure that students will find the course highly rewarding.

Afternoon 10

For those who are short of time or may be working, Afternoon 10 gives you the perfect opportunity to brush up on your conversation skills, Business English or prepare for a range of examinations.

Evening Courses

LSI's evening courses (Auckland only), have been designed to cater for students who, due to work or study commitments, are unable to enrol on one of our daytime courses. All evening courses offer structured language classes that cover grammar, vocabulary and pronunciation, as well as developing the four key skills (reading, writing, speaking and listening).

Contact our school directly or visit our website for full course details and dates.

Plus Courses – One-to-one

The combination of group and One-to-One learning is ideal when you want extra help with general skills or more specialised topics. Plus courses are 5 or 10 individual lessons. Our teachers work with you to develop your study plan. This course can supplement a General 20 (Intensive English) or Intensive courses.

One-to-one is the fastest way to improve your language skills is through individual lessons. Individual lessons are ideal if you prefer a very personal focus on your own aims (see page 30).

English For 30+

The English for 30+ programme is a topic-based programme tailored for students aged 30 and above. Each week, students will delve into a distinct topic area with a corresponding grammatical focus. The learning journey encompasses a comprehensive approach where vocabulary and grammar are systematically developed, revisited, strengthened, and interwoven, aligning seamlessly with the intended design of the course materials.

The English for 30+ programme is ideal for students who prefer learning alongside peers of a similar age group, with classes that explore cultural themes, practical communication strategies, and contemporary topics. Available in Central London and Auckland, offering a welcoming and engaging environment for adult learners, along with the opportunity to study in vibrant, international cities where English can be applied in real-life contexts.

These field trips ensure the application of the language skills and topics being covered that week in the class. They give students the opportunity to practice their new communication skills in and around the city while discovering its history, and its way of life.

Students will visit: popular tourist attractions, as well as hidden gems of the city that most tourists wouldn't get to see; major museums and exhibitions; and civic projects that promote Sustainable Development Goals (SDGs).

Future Leaders

As well as General English courses for juniors, LSI offers a Future Leaders programme where students develop transferable skills crucial to succeed in later life. These are life and career skills including: leadership, responsibility, initiative, and resilience; as well as critical thinking, collaboration and communication skills.

Core English lessons improve students' receptive and productive language skills and develop their ability to communicate effectively in English. But as well as refining and deepening the students' knowledge and application of the English language, this course looks ahead to their adult life. Three carefully designed workshops per week develop the leadership skills considered to be important not only for business managers but also for any role that require working in a team &/or managing other people. This is a course designed to prepare ambitious, more mature teens for a global, competitive and fast-changing world.

In addition, students participate in a varied cultural and social activity programme appropriate to their age. These activities improve knowledge of the local way of life, encourage the respect of other people's cultures, and help to motivate students to carry on studying English after they leave the course. Activities are organised and supervised by LSI staff and allow students to enjoy and strengthen their new friendships in a more informal, relaxed and sociable setting.

Ultimately, the aim of the course is to help our students reach their full potential in their personal, social, academic and professional lives, while having fun in a safe environment. We want our students to have experiences that they will always cherish, to improve their self-confidence, to be happier, and more successful citizens.

Student Welfare

The safety and well-being of students in our care is our top priority. All LSI centres work with local and national agencies to ensure that we maintain the highest industry standards in safeguarding and child safety.

Students are supervised both in the classroom and on social activities. School staff are available to both students and parents at all times. LSI also provides trained welfare officers in all our schools to offer any additional support required by the students.

Security is also a priority when selecting the right kind of accommodation for our Junior students. LSI homestays are carefully selected and regularly visited by a trained member of staff, while our student residences provide 24 hour supervision.

In Canada, for students under the age of 18 travelling without a parent or guardian and coming from countries requiring visas to enter Canada, Canadian embassies may require custodianship forms. LSI offers custodianship services.

To ensure student welfare there is a 10pm* curfew, unless students are on a supervised LSI activity. Valuables such as passports and airline tickets may be left with the centre manager on the student's first morning, to be kept securely locked in the school.

Student Welfare & Safeguarding

- School Student Welfare & Safeguarding policies and procedures are evaluated by local accreditation agencies
- Each school has dedicated Student Welfare & Safeguarding Officers
- LSI homestays and staff are subject to background checks
- Students have strict curfew times
- The school has a 24 hour emergency telephone number
- Students must sign a code of conduct. This ensures safety, enjoyment of the course for all participants and protects against bullying, both in school and on-line

Please note, students are not supervised by LSI staff on journeys to and from school and on journeys home from activities.

LSI Family Programme for Younger Juniors

AGES 6–11 YEARS

For our youngest students (6-11 years), LSI runs a summer family programme in San Diego, Toronto, Brighton and London Hampstead. A winter family programme is also available in San Diego. In most locations, the family programme is offered on a course only basis, except in London Hampstead where it is offered with three optional afternoon activities per week. Please contact us if you would like to add an activity package in other locations.

Depending on the family size and availability, LSI can organise accommodation in a homestay or in apartments. The younger children may also accompany their siblings and parents on activities and excursions, such as the San Diego Children's Museum, Balboa Park, and San Diego Zoo.

HLI
Home Language International

A sister company of LSI Education

Live and Study in Your Private Teacher's Home

For more than 40 years Home Language International (HLI) has been offering language immersion programmes in over 20 languages and 30 countries worldwide. You live and study in your teacher's home, receive private language lessons, share 3 meals a day with your host family, and continue to use the language during the rest of your stay as you share the daily life of the family.

Why Live and Study in Your Teacher's Home?

Fast progress

Going on a homestay with one-to-one lessons is the fastest way to learn a language. You are the only student and you cannot speak any other language than the one you are learning, this is a natural and efficient way to learn a language.

Full-immersion

On a full-immersion programme you're learning not only during lessons but also by practising the language during meals, activities or during the daily family life. One big advantage of this language programme is that you live in the home of your teacher, so that learning doesn't stop at the end of the lesson.

Personal

Another advantage of a one-to-one homestay is that you can choose your dates (from Sunday to Sunday) any time of the year and for the duration you want (minimum one week).

Private language lessons

Your teacher prepares the course for you alone. The lessons are completely personalised so your teacher will focus exactly on your needs and objectives. You can choose 10h (combined with activities or cultural excursions), 15h, 20h, 25h or 30h per week of one-to-one lessons and stay the number of weeks you wish. Whether you are a complete beginner or highly advanced, the lessons are adapted to your level and your requirements.

Our host teachers

All of our teachers have either a recognised teaching certificate and/or a university degree (or equivalent). They have been visited by our Local Organisers which means that their qualifications have been verified and their homes thoroughly inspected.

We have more than 2,000 experienced teachers worldwide. Special attention is given to match your interests with those of the host family.

Our Local Organisers

Every destination we offer is supervised by a resident Local Organiser whose job is to monitor the progress of each student and to make sure their experience with us is both enjoyable and successful. A phone call to our Local Organiser brings an immediate response and expert help and advice are given readily for even the smallest problem.

Destinations

Choose from over 30 countries worldwide. Visit www.hli.co.uk for a full list of destinations.

Adults and Professionals

Our Classic programme is perfectly suited for adults and professionals looking for a fast and efficient way of learning a language in a comfortable and welcoming environment. Whether you wish to improve your fluency or learn a new language, our programmes are adapted to your needs. Some of our teachers have knowledge of subjects such as business, computing, engineering, tourism, etc. They are able to offer specialised courses using the vocabulary of these subjects on request.

Children and Teenagers

Children and teenagers are placed with carefully selected friendly host families who are experienced in teaching young students. Our programmes with activities, sports, cultural excursions, and farmstays are highly popular with teenagers and children who can learn whilst having fun. We also offer a "cocooning" (closer supervision) option specially designed for up to 12 year olds, and students who are scared of leaving home for the first time can choose to share with a friend or parent.
