Keywords:

KISDI, Government-affiliated, Information and Communication Technology, Policy Research Institute, Associate Fellow

The Korea Information Society Development Institute (KISDI) is a leading government-affiliated policy research institute in broadcasting, telecommunications, and ICT industry. We are seeking highly-skilled and articulate economists for the full-time associate fellow positions. The successful candidate will provide policy recommendations and creative perspectives in carrying out researches on media & telecommunications policy, fair competition & regulatory measures, analysis & forecasting of ICT industry, and their influence on society.

Applicants must submit (1) curriculum vitae, (2) one research paper to present, (3) transcript from the last school attended (an unofficial one is acceptable) and (4) three letters of recommendation through the online service at the JOE network(https://www.aeaweb.org/joe/listings) by November 30, 2026. Candidates should have, or expect to complete, a Ph.D. in economics or related fields by August 2027. Fluency in Korean is required. We will interview selected candidates through online video platform in January, 2027.
