Summary

Job title	Research Assistant
Division	Social Sciences Division
Department	Department of Social Policy and Intervention
Location	Department of Social Policy & Intervention, 32 Wellington Square, Oxford, OX1 2ER
Grade and salary	Grade 6: £35,681-£41,636 per annum pro rata, inclusive of the Oxford Weighting Allowance
Hours	Part time (15 hours / 40%FTE)
Contract type	Fixed-term until 9 April 2027
Reporting to	Departmental Lecturer
Vacancy reference	189382

The role

Reporting to the Principal Investigator, Dr Jessica Lorimer, the post is part of a John Fell Funded project examining how secondary schools make decisions about the adoption and use of digital mental health tools. The research will primarily involve qualitative data collection and analysis, including school visits, interviews with key stakeholders, and supporting a participatory workshop with young people. The post holder will provide research and coordination support across the project.

Flexible working

Although the role is based in Oxford, there will be opportunities for flexible working, subject to agreement with the line manager. The role may also involve some travel to schools across the country.

Responsibilities

- Manage own research and administrative activities, within guidelines provided by senior colleagues
- Contribute to wider project planning, including ideas for new research projects
- Select, follow, and adapt specialist methodologies to confirm or refute theories, and identify suitable alternatives where information or research material is restricted

- Contribute to the design of research materials and make arrangements for data gathering. This includes assisting with the recruitment and coordination of schools and research participants
- Gather, analyse, and present qualitative and/or quantitative data from a variety of sources, this includes undertaking school visits and conducting semi-structured interviews with school staff and other relevant stakeholders
- Support the organisation, management and secure storage of research data, in accordance with ethical and data protection requirements
- Support the planning and delivery of a participatory workshop with young people
- Undertake comprehensive and systematic literature reviews and write up the results for publication in peer-reviewed journals or for presentation at conferences or public meetings
- Contribute to research publications, book chapters and reviews
- Responsible for the day-to-day administration of the research project
- Represent the research group at external meetings/seminars, either with other members of the group or alone
- Contribute to discussions and share research findings with colleagues in partner institutions, and research group

Selection criteria

Essential selection criteria

- Hold a first degree in psychology, education, or a related field, together with some relevant experience
- Experience with qualitative data analysis
- Possess sufficient specialist knowledge in the discipline to work within established research programmes
- Ability to manage own research and administrative activities
- Excellent communication skills, including the ability to write text that can be published, present data at conferences, and represent the research group at meetings
- Experience of following and adapting methodologies
- Experience of working in a team

Desirable selection criteria

- Working toward a masters or doctorate in a specialist discipline
- Experience working in schools and/or with adolescents
- Experience with case study development
- Experience of contributing to research publications

Professional Development

Researchers are encouraged to:

- Take responsibility for their career development, including taking up a minimum of ten days of professional development time (pro rata) per year, to develop professional competencies and gain experience to support their future career.

- Lead their annual Career Development Review (or equivalent) conversations with their line manager or another experienced member of the University.

Pre-employment screening

Standard checks

If you are offered the post, the offer will be subject to standard pre-employment checks. You will be asked to provide: proof of your right-to-work in the UK; proof of your identity; and (if we haven't done so already) we will contact the referees you have nominated. If you have previously worked for the University we will also verify key information such as your dates of employment and reason for leaving your previous role with the department/unit where you worked. You will also be asked to complete a health declaration so that you can tell us about any health conditions or disabilities for which you may need us to make appropriate adjustments.

Please read the candidate notes on the University's pre-employment screening procedures at: https://www.jobs.ox.ac.uk/pre-employment-checks

About the University of Oxford

Welcome to the University of Oxford. We aim to lead the world in research and education for the benefit of society both in the UK and globally. Oxford's researchers engage with academic, commercial and cultural partners across the world to stimulate high-quality research and enable innovation through a broad range of social, policy and economic impacts.

We believe our strengths lie both in empowering individuals and teams to address fundamental questions of global significance, while providing all our staff with a welcoming and inclusive workplace that enables everyone to develop and do their best work. Recognising that diversity is our strength, vital for innovation and creativity, we aspire to build a truly diverse community which values and respects every individual's unique contribution.

While we have long traditions of scholarship, we are also forward-looking, creative and cutting-edge. Oxford is one of Europe's most entrepreneurial universities and we rank first in the UK for university spin-outs, and in recent years we have spun out 15-20 new companies every year. We are also recognised as leaders in support for social enterprise.

Join us and you will find a unique, democratic and international community, a great range of staff benefits and access to a vibrant array of cultural activities in the beautiful city of Oxford.

Department of Social Policy and Intervention

The Department of Social Policy and Intervention is a multidisciplinary, social science centre of excellence for research and teaching in comparative social policy and evidence-based social intervention and policy evaluation. In the UK-wide 2021 Research Excellence Framework (REF), it was a top-five scoring department in the country, across all subjects and universities, with 62 per cent of the Department's research activity classified as 'world leading' (4*) with a further 30 per cent classed as 'internationally excellent' (3*). In the most recent QS World University Rankings by Subject (2022) the Department ranked second in Social Policy and Administration globally.

The Department has undergone substantial transformation in recent years. This renewal includes the expansion of graduate teaching and supervision in policy evaluation and comparative social policy; significant expansion in research income; and the creation of new research groups and areas of research expertise.

The Department's teaching is largely devoted to graduate students. It offers master's degrees in Comparative Social Policy (CSP) and in Evidence-Based Social Intervention and Policy Evaluation (EBSIPE). Students may study for either a one-year MSc or a two-year MPhil. The Department also offers supervision for doctoral degrees in Social Policy or in Social Intervention and Policy Evaluation. The graduate intake is highly international with students drawn from the United Kingdom, EU member states, and many countries across the world.

Research within the Department is largely organised under the auspices of two main research groups:

- The Centre for Evidence-Based Intervention (CEBI)
- The Oxford Institute of Social Policy (OISP)

More information about the department can be found at www.spi.ox.ac.uk.

The Department of Social Policy and Intervention holds a bronze Athena Swan award to recognise advancement of gender equality: representation, progression and success for all.

Social Sciences Division

The University's academic departments and faculties are organised into four large groups known as Academic Divisions (Social Sciences, Mathematical, Physical and Life Sciences (MPLS), Medical Sciences, and Humanities). The divisions are responsible for academic strategy and operational planning, oversight of the teaching and research of their constituent departments and faculties, and for personnel and resource management. The social sciences at Oxford are distinctive for both their depth and breadth, with over 1,100 academic and research staff working across fifteen departments, faculties and schools. The Head of the Social Sciences Division is Professor Timothy Power.

The Division is a world-leading centre of research and education in the social sciences. The Times Higher Education (THE) University Rankings returned the University of Oxford to the number one spot in the world for Social Sciences in 2024. We have placed first in four of the last five years (2019, 2021, 2022 & 2023).

More than 800 researchers were returned to Main Panel C (Social Sciences) for REF 2021 across a diverse range of subject area 'units of assessment' – from geography and business to archaeology and law. Over 55% of the research submitted from the Division was judged to be world-leading (4*, the highest score available). More than two-thirds (69%) of the research's impact was also recognised as world-leading (4*). Research from across the Division was also submitted to subject areas across Panels A (Medicine, health and life sciences), B (Physical sciences, engineering and mathematics), and D (Arts and Humanities), highlighting the enormous breadth and diversity of research expertise across the Division.

Our academic and research staff and students are international thought leaders, generating new evidence, insights and policy tools with which to address some of the major global challenges facing humanity, such as sustainable resource management, poverty and forced migration, effective governance and justice. Particular research highlights in recent years have included COVID-19 and Climate Change. As well as active interdisciplinary links with researchers in other divisions at Oxford, we engage and collaborate extensively with other universities and a wide range of governmental and non-governmental practitioner communities such as law, business, public health and welfare, international development and education around the world. The Division has an extensive portfolio of external funders, partners and supporters, with competitively-awarded external research income exceeding £50 million per year and philanthropic income over £25 million a year.

As part of our commitment to equality of opportunity, thirteen of our departments have achieved Bronze awards under the Athena Swan Charter (a UK accreditation scheme recognising organisations' commitment to equality and diversity, particularly in gender). Our School of Geography and the Environment holds an Athena Swan Silver award. In February 2023, for the first time, the University as a whole was awarded an institutional Athena Swan Silver award, acknowledging the progress that has been made in addressing a number of gender gaps across the University over the last five years.

The Division delivers an exceptional range of high-quality educational programmes all underpinned by the innovative research being undertaken by our academics. The student body is made up of over 2,000 undergraduate students, nearly 3,000 students studying postgraduate taught programmes and 1,200 postgraduate research students. The programmes we offer are wide-ranging, often interdisciplinary and include professionally-oriented provision in areas such as business, law and education. The Division is home to several of Oxford's most widely recognised teaching programmes, such as Philosophy, Politics and Economics (PPE) at undergraduate level; and at the Masters level programmes such as the Bachelor in Civil Law (BCL), Environmental Change and Management, International Relations, and Social Data Science.
