II. Organizational Context and Purpose for the job

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programmes, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favoritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfill their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

Job organizational context: The Child Protection Specialist GJP is established within the Angola Country Office (CO) where Child Protection Programme is a key component of the UNICEF Country Programme and United Nations Sustainable Development Cooperation Framework (UNSDCF)). The Specialist reports to the Chief of Chief Child Protection, who is at Level 4 and provides technical and programmatic support to advance UNICEF's child protection agenda.

Purpose for the job: The Child Protection Specialist reports to the Chief Child Protection

for guidance and general supervision.

The Specialist supports the design, implementation, monitoring, reporting, and evaluation of Child Protection programmes, with a strong emphasis on child protection systems strengthening as a strategic priority. The role provides technical leadership and management support throughout the programme cycle, ensuring the delivery of sustainable, scalable, and evidence-based results for children.

The Specialist leads and supports efforts to strengthen national and subnational child protection systems, including coordination mechanisms for the prevention of and response to violence against children. This includes advancing the establishment and institutionalization of child protection information management systems to support case management, monitoring, evidence generation, and accountability; strengthening social welfare and child protection services, including referral pathways and case management systems; and reinforcing justice for children through more accessible, effective, and child-friendly justice mechanisms. Particular attention is given to the development and professionalization of the social welfare workforce, recognizing that workforce strengthening represents a critical prerequisite for the scale, quality, and sustainability of child protection services.

The Specialist also supports efforts to strengthen public financing for child protection, promote more effective budgeting and resource allocation, and ensure the sustainability of child protection services.

In alignment with the Convention on the Rights of the Child, international standards, and relevant UN frameworks, the Specialist contributes to national and international efforts to create a protective environment for children, safeguarding them from violence, abuse, exploitation, and neglect, and promoting their rights to survival, development, protection, and well-being. The Specialist also supports UNICEF's efforts to sustain Angola's leadership and commitments under the Global Pathfinding Alliance, including strengthening coordination, accountability, justice for children, and public investment to accelerate progress towards ending violence against children.

The Specialist contributes to the achievement of results according to plans, allocation, results based-management approaches and methodology (RBM), and UNICEF’s Strategic Plans, standards of performance and accountability framework.
