Department of Psychiatry
Medical Sciences Division

Job Description

UNIVERSITY OF OXFORD

Summary

Job title	Clinical Researcher: Experimental Medicine in Psychosis
Division	Medical Sciences
Department	Psychiatry
Location	Warneford Hospital, Oxford
Grade and salary	Clinical scale E63: £40,190–£54,499 per annum
Hours	Full-time (1.0 FTE)
Contract type	Fixed-term for 6 months (from 1 February 2027)
Reporting to	Dr Rob McCutcheon, Associate Professor
Vacancy reference	189919
Additional Information	This post is available from 1 February 2027

The role

An opportunity is available for a medically qualified clinical researcher to support a Wellcome-funded programme investigating the neural and cognitive mechanisms of psychosis. The programme uses experimental medicine, clinical phenotyping and multimodal neuroimaging to understand abnormalities in brain function and assess the effects of pharmacological interventions. The work includes a placebo-controlled pharmacological study involving people with psychosis and healthy volunteers.

The post holder will contribute to timely recruitment and completion of clinical research visits, including participant screening, informed consent, clinical and cognitive assessments, research medication procedures where authorised, and multimodal data acquisition. They will work closely with research staff, clinical teams, and imaging colleagues and have opportunities to contribute to analysis, scientific presentations and publications.

Flexible working

The clinical assessment and imaging components of this position require regular on-site attendance. Some administrative and analytical work may be undertaken flexibly, by agreement and subject to study delivery.

Responsibilities

- Support timely recruitment and retention of participants in Wellcome-funded clinical experimental medicine studies of psychosis.
- Recruit and screen people with psychotic disorders and healthy volunteers; undertake eligibility and risk assessments within the study protocol.
- Obtain informed consent and undertake structured clinical, cognitive and behavioural assessments.
- Assist with planning and acquisition of neuroimaging and neurophysiology data, including MRI and MEG where relevant.

- Support placebo-controlled pharmacological research procedures, including safety monitoring and adverse-event documentation as required by delegated responsibilities.
- Ensure accurate source data, study records and data entry in line with protocol, ethics approvals and Good Clinical Practice.
- Coordinate research visits and communicate effectively with collaborating clinical teams and research participants.
- Contribute to study quality assurance, protocol adherence, and timely resolution of recruitment or data-collection issues.
- Manage own research, clinical-research and associated administrative activities under appropriate supervision.
- Contribute to analysis of clinical, behavioural and neuroimaging datasets.
- Participate in preparation of scientific publications and other research outputs.
- Contribute to research presentations and dissemination.
- Support junior research staff and students where appropriate.

Selection criteria

Essential selection criteria

- Medical degree (MBBS or equivalent)
- Full General Medical Council Registration with a Licence to Practice
- Knowledge of Good Clinical Practice and experience working in governed clinical research settings.
- Clinical experience assessing patients with psychotic disorders or other severe mental illness.
- Ability to organise complex study visits, maintain accurate records and meet deadlines.
- Sound clinical judgement and capacity to escalate participant safety concerns promptly.
- Excellent communication and interpersonal skills, including rapport with participants who may be difficult to engage.
- Ability to work collaboratively across research, psychiatry, neuroimaging and trial teams.
- Willingness to travel between local study sites where required.*

*Study sites within Oxfordshire during normal working hours

Desirable selection criteria

- Experience of recruiting participants to clinical trials or experimental medicine studies.
- Experience with neuroimaging and/or neurophysiology (MRI, MEG or EEG).
- Experience in research publication and scientific communication.
- Programming or statistical analysis experience (e.g., Python, MATLAB, R or similar).

Pre-employment screening

Standard checks

If you are offered the post, the offer will be subject to standard pre-employment checks. You will be asked to provide: proof of your right-to-work in the UK; proof of your identity; and (if we haven't done so already) we will contact the referees you have nominated. If you have previously worked for the University we will also verify key information such as your dates of employment and reason for leaving your previous role with the department/unit where you worked. You will also be asked to complete a health declaration so that you can tell us about any health conditions or disabilities for which you may need us to make appropriate adjustments.

Please read the candidate notes on the University's pre-employment screening procedures at: https://www.jobs.ox.ac.uk/pre-employment-checks

Hazard-specific / Safety-critical duties

This job includes hazards or safety-critical activities. If you are offered the post, you will be asked to complete a health questionnaire which will be assessed by our Occupational Health Service, and the offer of employment will be subject a successful outcome of this assessment.

The hazards or safety-critical duties involved are as follows:

- Work in clinical areas with direct contact with patients (NOT administrative roles)

Additional security pre-employment checks

This job includes duties that will require additional security pre-employment checks:

- A satisfactory enhanced Disclosure and Barring Service check due to regulated activity involving 'at risk' adults

About the University of Oxford

Welcome to the University of Oxford. We aim to lead the world in research and education for the benefit of society both in the UK and globally. Oxford's researchers engage with academic, commercial and cultural partners across the world to stimulate high-quality research and enable innovation through a broad range of social, policy and economic impacts.

We believe our strengths lie both in empowering individuals and teams to address fundamental questions of global significance, while providing all our staff with a welcoming and inclusive workplace that enables everyone to develop and do their best work. Recognising that diversity is our strength, vital for innovation and creativity, we aspire to build a truly diverse community which values and respects every individual's unique contribution.

While we have long traditions of scholarship, we are also forward-looking, creative and cutting-edge. Oxford is one of Europe's most entrepreneurial universities and we rank first in the UK for university spin-outs, and in recent years we have spun out 15-20 new companies every year. We are also recognised as leaders in support for social enterprise.

Join us and you will find a unique, democratic and international community, a great range of staff benefits and access to a vibrant array of cultural activities in the beautiful city of Oxford.

Department of Psychiatry

The Department of Psychiatry based on the Warneford Hospital site in Oxford has an international reputation for excellence. The Head of Department is Professor Belinda Lennox. The Department has a substantial research programme, with major funding from Medical Research Council (MRC), Wellcome Trust and National Institute for Health Research (NIHR) and provides highly rated medical training in psychiatry. There are approximately 250 staff including 41 principal investigators leading research groups investigating applying a wide range of approaches from translational neuroscience, experimental medicine, epidemiology, clinical trials and health services research to developmental disorders, mood disorders, cognitive disorders and self-harm and suicide. There are strong links with other departments and institutes both within and outside Oxford: these links ensure that we can apply the best scientific methods to psychiatric and cognitive disorders. The Department has an annual turnover of over £10 million with more than 130 research grants.

Our active Psychiatry People and Culture teams and initiatives, including our values and behaviours framework, work to make the Department of Psychiatry as supportive, welcoming and inclusive as possible.

For more information please visit: http://www.psych.ox.ac.uk

The Department of Psychiatry holds a silver Athena Swan award to recognise advancement of gender equality: representation, progression and success for all.

How to apply

Applications are made through our online recruitment portal. Information about how to apply is available on our Jobs website https://www.ox.ac.uk/about/jobs/explore-our-careers/applications-process/how-to-apply

Your application will be judged solely on the basis of how you demonstrate that you meet the selection criteria stated in the job description.

As part of your application you will be asked to provide details of two referees and indicate whether we can contact them now.

You will be asked to upload a CV and a supporting statement. The supporting statement must explain how you meet each of the selection criteria for the post using examples of your skills and experience. This may include experience gained in employment, education, or during career breaks (such as time out to care for dependants)

Please upload all documents **as PDF files** with your name and the document type in the filename.

All applications must be received by **midday** UK time on the closing date stated in the online advertisement.

Information for internal candidates

If you currently work at the University please note that:

- as part of the referencing process, we will contact your current department to confirm basic employment details including reason for leaving and information about your performance.
- although employees may hold multiple part-time posts, they may not hold more than the equivalent of a full time post. If you are offered this post, and accepting it would take you over the equivalent of full-time hours, you will be expected to resign from, or reduce hours in, your other posts(s) before starting work in the new post.

Information for priority candidates

A priority candidate is a University employee who is seeking redeployment because they have been advised that they are at risk of redundancy, or on grounds of ill-health/disability. Priority candidates are issued with a redeployment letter by their employing department(s).

If you are a priority candidate, please ensure that you attach your redeployment letter to your application (or email it to the contact address on the advert if the application form used for the vacancy does not allow attachments).

If you need help

Application FAQs, including technical troubleshooting advice is available at:
https://www.ox.ac.uk/about/jobs/explore-our-careers/applications-process/support-with-online-applications

Non-technical questions about this job should be addressed to the recruiting department directly
vacancies@psych.ox.ac.uk

To return to the online application at any stage, please go to: https://www.ox.ac.uk/about/jobs/explore-our-careers/applications-process/how-to-apply

Please note that you will receive an automated email from our online recruitment portal to confirm receipt of your application. **Please check your spam/junk mail** if you do not receive this email.

Important information for candidates

Data Privacy

Please note that any personal data submitted to the University as part of the job application process will be processed in accordance with the GDPR and related UK data protection legislation. For further information, please see the University's Privacy Notice for Job Applicants at: https://compliance.admin.ox.ac.uk/job-applicant-privacy-policy. The University's Policy on Data Protection is available at: https://compliance.admin.ox.ac.uk/data-protection-policy.

The University's policy on retirement

The University operates an Employer Justified Retirement Age (EJRA) for very senior research posts at **grade RSIV/D35 and clinical equivalents E62 and E82** of 30 September before the 70th birthday.

For **existing** employees on these grades, any employment beyond the retirement age is subject to approval through the procedures: https://unioxfordnexus.sharepoint.com/sites/OXINTRANET-working-here/SitePages/the-ejra.aspx

There is no normal or fixed age at which staff in posts at other grades have to retire. Staff at these grades may elect to retire in accordance with the rules of the applicable pension scheme, as may be amended from time to time.

Equal Opportunity

The University of Oxford is committed to equal opportunity, and to being a place where everyone belongs and is supported to succeed. We recognise how the diversity of our community enriches our ability to deliver on our academic mission.

We welcome applications from individuals from all backgrounds, including those under-represented within higher education. No applicant or members of staff shall be unlawfully discriminated against on the basis of age, disability, gender reassignment, marriage or civil partnership, pregnancy or maternity, race, religion or belief, sex, or sexual orientation.

Employment with the University and progression within employment will be determined according to personal merit and the application of criteria related to the duties and conditions of the post. In all cases, the primary consideration will be the ability to perform the job.

As stated in the University's Equality Policy and Equality, Diversity and Inclusion Strategic Plan, our commitment to equality and diversity goes hand in hand with our commitment to academic freedom and free speech.

Benefits of working at the University

Employee benefits

University employees enjoy 38 days' paid holiday, generous pension schemes, flexible working options, support for sustainable travel and other discounts. Staff can also access a huge range of personal and professional development opportunities. See https://www.ox.ac.uk/about/jobs/working-here .

Employee Assistance Programme

As part of our wellbeing offering staff get free access to a confidential employee assistance programme, available 24/7 for 365 days a year. Find out more at https://www.ox.ac.uk/about/jobs/life-in-oxford/healthcare-and-wellbeing

University Club and sports facilities

Membership of the University Club is free for University staff. It offers social, sporting, and hospitality facilities. Staff can also use the University Sports Centre on Iffley Road at discounted rates, including a fitness centre, powerlifting room, and swimming pool. See www.club.ox.ac.uk and https://www.sport.ox.ac.uk/.
