“Mathematical Theory, Methods and its applications for Industry“

■ 저널소개
- 2019 Impact Factor: 2.645 (Multidisciplinary Sciences-SCIE)
- JCR rank 29/71 = 41% (Multidisciplinary Sciences)
- A special issue of Symmetry (ISSN 2073-8994). This special issue belongs to the section "Mathematics and Symmetry".
- Regarding the number of published papers
  - We expect to publish at least 10 papers in this Special Issue; however, we do not have a limit for the number of papers. We encourage if more authors want to publish high-quality papers in the Special Issue.
  - If 10 or more papers are collected, we will consider printing this Special Issue into a book. The book can be made available on Amazon, eBookMall, Apple books, etc.

Keywords

- Artificial intelligence and manufacturing
- Mathematical modelling
- Numerical analysis for industrial mathematics
- Optimization
- ODE and PDE for Industrial Mathematics
- Applied and industrial mathematics
- Prediction modeling
- Medical data analysis
- Machine learning and deep learning
- Data analytics
- Infectious disease
- Pharmacokinetic/pharmacodynamic modeling
