Message from the President

Urban International School firmly believe that nurturing well-rounded, talented individuals requires more than academic excellence.

Instilling self-esteem and self-respect to become a positive member of the society demands a foundation rooted in genuine care and guidance. With this philosophy at heart, we engage with students to ensure they cultivate a healthy, balanced lifestyle while pursuing their educational goals.

To increase their self-awareness and independence, we engage them on various levels.
We provide them with everything from police safety seminars to CPR trainings, and university seminars which educate students on the safety, wellness and independence, while providing them with future possibilities.

At UIS, we focus on nurturing international students with pride. Raising the awareness of their potential and different ways they can contribute to society, we empower them to become confident individuals, to achieve the higher goals and to become a positive competent member of society. With this in mind, we manage to send over hundreds students every year to prestigious universities all around the world.

"Educate with Passion, Care with Love"

Tony H. Kim

UIS President

UIS History

2009

Urban international School was founded in 2009. The original location was in the heart of downtown Toronto. Since opening its door, UIS has been working with a diverse set of students to develop lifelong learning skills to be successful in their life.

2017

UIS was relocated to Mid-town area in 2017 as its first expansion strategy.

2019

UIS successfully opened its second campus in more suburban neighbourhood for high school ESL programs.

2020

With the unexpected outbreak of COVID in March 2020, UIS quickly adapted the online learning module to continue educating UIS students.

2023

Relocation to a larger facility to accommodate larger student body and to offer variety of facilities for student growth.

2024-25

UIS expanded its wings to meet the demands of the growing student body. UIS is now equipped with two gym facilities, an auditorium theatre, as well as a lab facility where students can conduct experiment for hands-on-learning and more classrooms!

2030

UIS will continue to look forward to the future. UIS is planning to establish an international boarding school for closer student-care and support. UIS will become one and only of its kind.

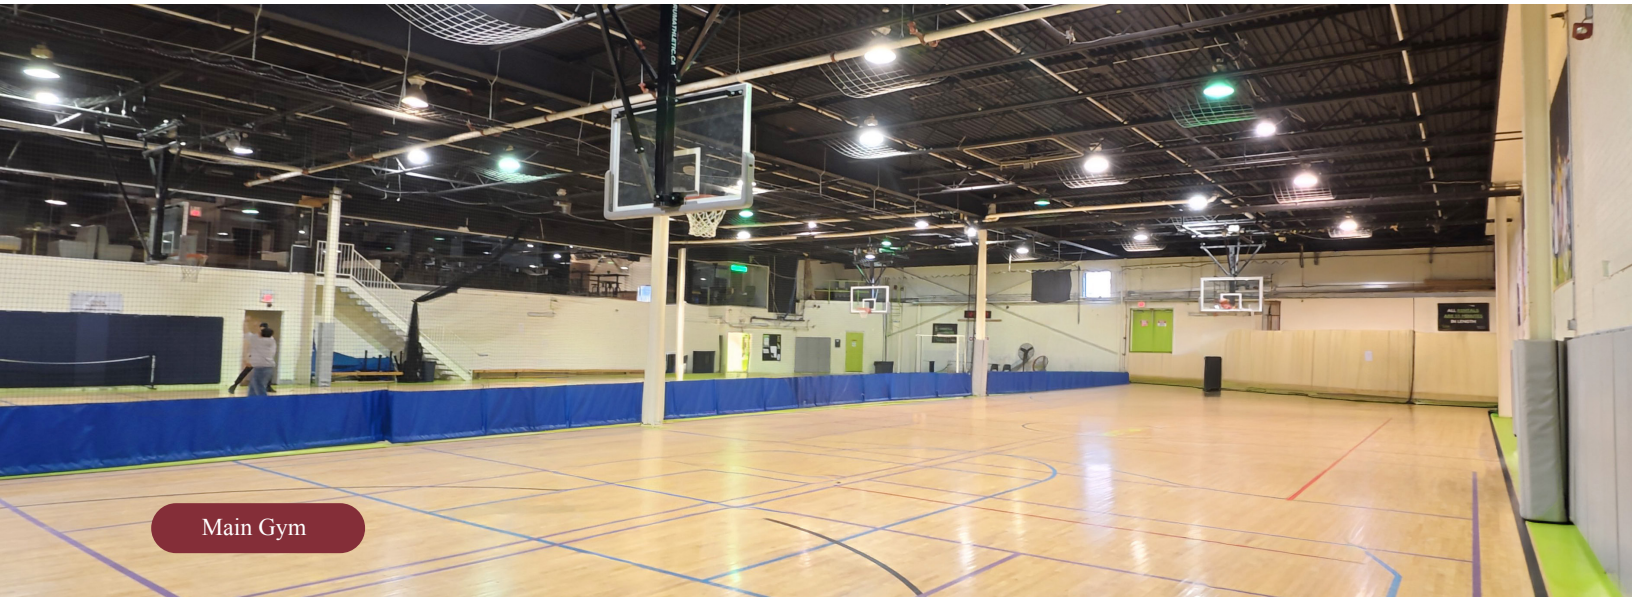

UIS Facilities

Urban International School upgraded facilities include a state-of-the-art theatre/auditorium, a versatile multi-purpose gymnasium, advanced media and broadcasting equipment, and a cutting-edge science laboratory.

These facilities were added to support students of diverse academic streams and to meet their academic needs. Other facilities available for our students include a futsal court, ice rinks, and a swimming pool, which are available upon request.

Available extracurricular activities to access these facilities are hockey, figure skating, swimming, basketball, and volleyball! The UIS Village is an extended part of our school: a pharmacy, a walk-in clinic, an X-ray/Ultra-sound Clinic, an optometrist, and a dentist and chiropractor clinic! Students can receive immediate medical care from the pharmacy and the walk-in. We always have care and safety in mind!
