VISIT US

Open Days

Joining us for one of our Open Days is a fantastic way to discover more about our University and picture yourself studying and living here!

You'll have the chance to explore our campuses, facilities and student halls, meet some of our current students and staff, ask your questions, and enjoy your time in Southampton.

For dates and booking details, visit our website.

Visit Days

Once you apply to study with us, you may also be invited to an offer holder Visit Day (in-person and online), where you can get a more in-depth insight into your chosen course.

Some funding is available to help UK students access in-person Open Days and Visit Days. Find out more on our website.

Virtual events

Don't worry if you can't meet us in person: you can also attend a virtual Open Day, Visit Day or taster session to explore the University of Southampton from the comfort of your own home.

International events

If you're based outside of the UK, we host events around the world. Plus, you can chat with our staff and students at any time on our website.

All photos and case studies in this prospectus are from our University of Southampton staff, students and alumni communities.

---------------------------	----

“I’m very proud to be a part of this community; there’s endless support from every department and society. My tutor and all of my lecturers genuinely care about my wellbeing and my studies. The community is like no other, and I’m learning so much from being around people from different cultures and backgrounds.”

Pietro Andreotti (he/him/his)

BA English Language and Linguistics
(with a year abroad), third year. Currently studying abroad in Groningen, The Netherlands.

Find out more about what Southampton has to offer you by watching our city video

OUR COMMUNITY

We can't wait to welcome you.

Southampton is not only a place where you'll achieve exciting things and learn from leading minds; it's a place where you can truly belong.

Meet and connect with people who will help you see the world differently. Campaign for causes you're passionate about, educate yourself on important topics, and inspire social change.

Making a positive difference to the world is only possible when we all come together, bringing our unique experiences, skills and perspectives.

Your voice matters

There are lots of ways to make your mark and influence how the University is run while you study with us.

Get involved in surveys, committees and feedback schemes. Eligible students from underrepresented backgrounds are also invited to join our Student Advisory Board.

“I've spent lots of time with the LGBTQ+ society, attending Pride and going out clubbing for the first time, and also with the Student Christian Movement, sitting in the Faith and Reflection Centre with like-minded people discussing our faiths. Joining these societies has helped me to form a group of friends I can rely on, helping to make my five years in Southampton more comfortable and to really feel like home. Having a good group of friends and plenty of support from the University has made moving to a big city much easier.”

Lux Williams (they/them/theirs)

MEng Aeronautics and Astronautics/Spacecraft Engineering, final year (centre left)

**University
of Sanctuary**

“Ask the students studying the course how they actually feel about it now that they’ve started studying. Getting feedback from someone who is doing your course is much better than reading about it online.”

Noble Elsa Sam (she/her/hers)
BSc Marketing, 2024;
MSc Business Strategy and
Innovation Management

“Budgeting is so important so that you know your exact incomings and outgoings. You can try local shops, supermarkets, or even the weekly fruit and veg market on Highfield Campus to see where you can bag the cheapest weekly shop.”

Dominic Mulcahy-Vince (he/him/his)
BSc Zoology, 2024

“Speak to student ambassadors online or at events. They’ll have the best knowledge of what your course, halls and student life will be like, and they’ll always give honest advice.”

Iona Bateman (she/her/hers)
BSc Physiotherapy, final year

“Make sure to go to all the Freshers’ events you can and make the effort to do stuff in the evenings. Whether that’s going out, attending events and activities with societies, or even just going to The Stag’s to have a chat with some friends!”

Samarth Basavapatna (he/him/his)
MEng Aerospace Electronic Engineering,
fourth year

“At an Open Day, definitely walk all around the city – the campuses, the halls and the city centre. You need to envision yourself living here.”

Habibah Miah (she/her/hers)
BM6 Medicine, fourth year

“Check out what societies are on offer. You could try something new or continue something you were passionate about before coming to university. From dance to swimming to chess, there’s something for everyone!”

Christianah Obembe (she/her/hers)
BM5 Medicine with integrated MMedSc,
fourth year

Over
230
accredited degrees
to fast-track your career

YOUR EDUCATION EXPERIENCE

Expand your horizons, explore new ideas, challenge yourself and collaborate with experts. Studying at Southampton means you'll be immersed in our thriving, imaginative academic community.

Why study at a research-intensive university?

As a founding member of the Russell Group, we're renowned for our research excellence. But what does this mean for you and your studies?

Research-led teaching

You'll learn from innovative leaders and experts who use their latest research to inform their teaching.

This means you'll be taught by, and working alongside, academics at the forefront of their field; the very people making change happen.

Many of our courses and modules are shaped around the latest discoveries and areas of interest, so you can keep up with academic developments.

Specialist facilities

Our campuses are home to specialist facilities, which are used by industry leaders as well as our researchers.

Depending on your chosen subject, you'll have the opportunity to use them too, preparing you for your future career and giving you stand-out experience.

Our cutting-edge facilities include:

- + anechoic chambers
- + 138-metre towing tank
- + Bloomberg terminals
- + multisensory rooms
- + specialist laboratories
- + art and design studios
- + wind tunnels
- + VR (Virtual Reality) technology
- + simulated courtrooms

Our libraries are home to specialist collections of national and international importance, and you'll also have access to unique, off-site resources, such as the nearby Chawton House Library.

6 libraries
containing millions of books, journals, and other resources

Learn beyond the lecture theatre

We offer many opportunities for you to enhance your degree and get ahead. While studying with us, you can:

- + get hands-on experience with field trips, laboratory sessions, group projects, excavations, and more
- + personalise your learning with interdisciplinary modules, combining your passions with your ambitions
- + explore the world with opportunities to study abroad
- + join pioneering businesses and organisations through our placement schemes
- + learn how to turn an idea into a business with our enterprise expertise

Work your way

Whether you prefer to work in groups or independently, there are plenty of places across our campuses to focus and learn your way.

We're investing in our learning and study spaces across our campuses to ensure everyone has an environment to suit them.

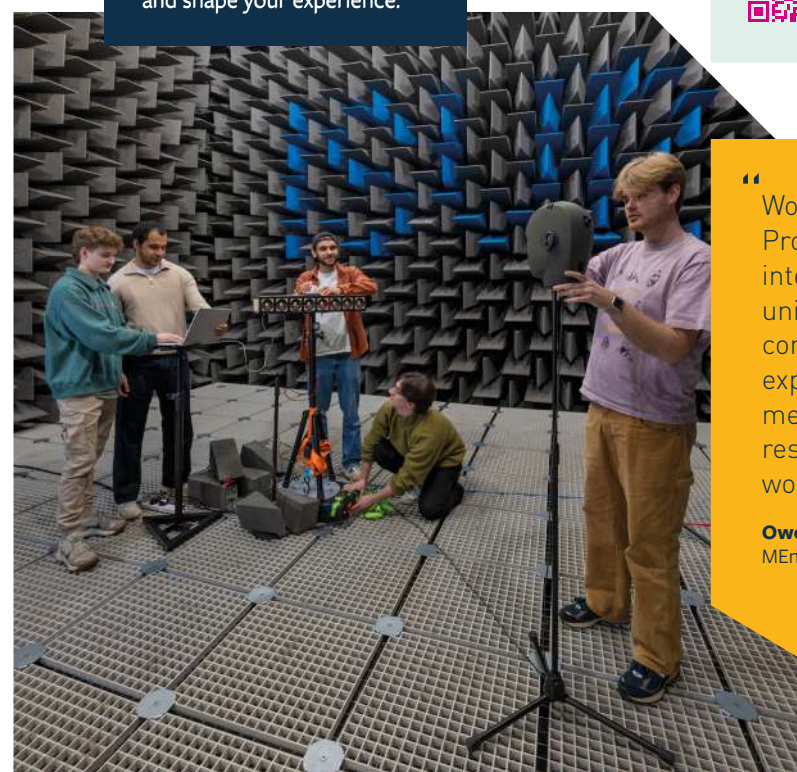

Our experts are harnessing the immune system to fight cancer, unearthing prehistoric mysteries, working on responsible and human-centred AI, and repurposing waste CO₂ to tackle the climate crisis.

Curious? Learn more about how our research is solving some of the world's greatest global challenges.

We learn from you, too.
While you're here, you'll be encouraged to share feedback and shape your experience.

"Working on the Group Design Project has been really interesting. Studying at the university has allowed me to connect with so many world experts, whilst also allowing me to be part of cutting-edge research into improving the world around us.

Owen McLain (he/him/his)
MEng Acoustical Engineering, final year

STUDY ABROAD

Are you feeling adventurous? Explore the world, enhance your CV, connect with culture and make unforgettable memories by choosing to study abroad.

Opportunities include:

- + integrated year abroad programmes
- + a semester abroad
- + summer schools
- + international work placements

Boost your employability and social skills, as well as your knowledge. Our long-established networks with partner institutions worldwide mean you can study at world-renowned universities around the globe.

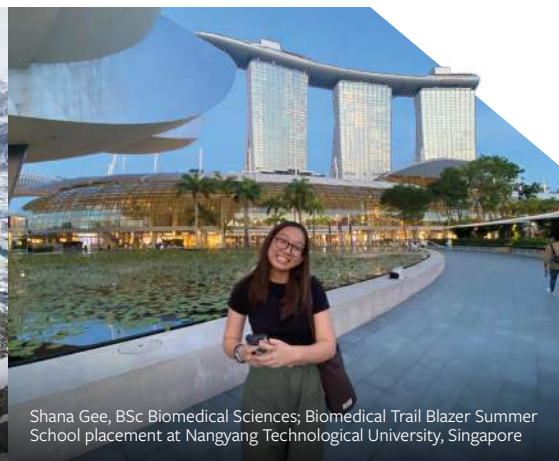

Destinations include:

- + Europe
- + USA
- + Hong Kong
- + Australia
- + New Zealand
- + Japan
- + Fiji

Erin Deane, LLB Law year abroad in Bergen, Norway.

Shana Gee, BSc Biomedical Sciences; Biomedical Trail Blazer Summer School placement at Nanyang Technological University, Singapore

Callie Stegall, BSc Geography; Summer Project with Think Pacific, Fiji

“There have been so many benefits to doing a semester abroad, from creating global professional connections and making friends from all over the world, to experiencing the very different university culture in the US.

Highlights of my time at Penn State include watching American football games, travelling to a friend's house for Thanksgiving in Florida, and exploring the East Coast on the weekends. I've met so many new people and experienced so many amazing new things that I never would have done if I hadn't taken part in the study abroad programme.”

Samuel Hinchcliffe (he/him/his)

MEng Aeronautics and Astronautics with a Semester Abroad, final year

We'll give you all the support you need to make your journey as easy as possible, including a designated academic exchange coordinator, financial support, and useful pre-departure information.

You don't need to worry about language barriers, either. Free or subsidised language courses will give you a head start, and many of our partner institutions teach in English.

You can also learn a language alongside your studies – whether you study abroad or not – thanks to modules and courses available via the Centre for Language Study or the Southampton Language Opportunity.

There may also be some additional funding to help you access study abroad opportunities.

You can apply to study abroad directly through UCAS, or make your decision once you've started studying with us.

Whether you want to fully immerse yourself for a year, or get a taste of life in a different country over the summer, the world is ready and waiting for you.

YEAR IN EMPLOYMENT, PLACEMENTS AND INTERNSHIPS

Get hands-on experience through a range of work experience opportunities that can help you get ahead, stand out and develop important life skills.

These opportunities will help you to boost your CV, prepare for your future, and grow personally as well as professionally. Here are some examples of what we have on offer.

Year in Employment

We offer Year in Employment placements across many of our courses. This means you can apply to work for a year in an organisation of your choice following your second year of study. You could even work abroad depending on where your placement is based.

UoS Internships

UoS Internships are paid, University-approved, short-term roles with local and national startups, small to medium-sized enterprises (SMEs), large corporations and public and third-sector organisations.

Each opportunity is carefully selected by our Careers, Employability and Student Enterprise team to give you the most exciting and valuable experience.

UoS Internships are exclusive to University of Southampton students too, so you'll be getting access to unique opportunities.

Student Innovation Projects and Challenges

Build your commercial awareness and develop your problem-solving skills with our Student Innovation Projects and Challenges.

You'll work in a small student team, acting as a consultant for a local business or non-profit organisation to create innovative solutions for their business needs.

Placement support

Whichever route you take, you'll receive the guidance you need from our Careers, Employability and Student Enterprise team every step of the way.

We also offer advice and support in sourcing, applying and preparing for other work experience opportunities beyond these initiatives, so you have the freedom to choose your own journey.

“Last year, I had the amazing opportunity to undertake a Year in Employment at Warner Bros. My position as a Marketing and Communications Intern gave me lots of hands-on experience in the industry, allowing me to stand out when applying for future jobs.

The University careers website was incredibly helpful when looking for placements as it showed the vast selection available. I had meetings with excellent careers coordinators who guided me through my application and even came and visited once I started.”

Florence Ensor-Dean (she/her/hers)
BSc Psychology, final year

CAREERS, EMPLOYABILITY AND STUDENT ENTERPRISE

It's never too early to think about what comes next. Whether you have a plan, or you're working out what you want to do, we can guide and support you at every stage.

Our Careers, Employability and Student Enterprise service will help you explore your options, develop yourself, stand out in the jobs market, and find your path.

We can offer you:

- + work placements
- + personalised career coaching for first-generation students
- + internships
- + volunteering opportunities
- + careers fairs
- + one-to-one guidance
- + employer-led events
- + tools and workshops via our online Career Hub
- + established connections with business and industry
- + interview, CV and cover letter support
- + easy-to-access online resources
- + tailored support for navigating the UK job market and finding opportunities internationally
- + regular workshops
- + mentoring and e-mentoring arrangements

Student enterprise

Turn your big ideas into reality. The Student Enterprise Team offers everything you need to start a business and achieve your entrepreneurial goals, including:

- + funding
- + skills-development workshops
- + a community of experts and mentors
- + creative co-working spaces

Our on-campus startup accelerator, Future Worlds, can help you create and develop your startup so you can change the world with your ideas. The Social Impact Lab can also support you in becoming a future social impact leader.

Part-time work

- + PwC
- + Red Bull Racing F1 Team
- + Rolls-Royce
- + Sky
- + Tata Consultancy Services

“Throughout my final year, I was supported very well by my project leaders, as well as the Southampton Careers Hub. My third-year project in Science Communication provided valuable knowledge, that continues to help me in my professional life. I learnt how to tell engaging science stories to a wide audience, as well as in a broad range of formats.

STUDENTS' UNION

5th

best students' union in the UK*

As soon as you arrive, you automatically become a member of the University of Southampton Students' Union (SUSU), which is independent of the University and run for students, by students.

SUSU offers extra support, gives you a voice in the University and the wider community, helps you to make friends, and runs all kinds of great activities and events to get involved with.

Representation

Make a difference, and make yourself heard. You can run for one of the positions in the SUSU elections and represent students across the University, taking the lead on subjects that matter to you.

You can also influence big decisions and hold the University to account through joining committees and advisory groups.

Activities

SUSU has approximately 370 clubs and societies for you to get involved in. It's a great way to meet new people, have fun, and explore your interests.

Volunteer your time and give back to the community with RAG (Raise and Give), a student group that organises fundraising events to benefit local, national and international charities.

Become a radio DJ, TV presenter or podcaster with SURGE, or try out journalism with our student magazines, *Wessex Scene* and *The Edge*.

Try a new sport, join in with the performing arts, pursue your favourite hobby, or celebrate your culture and faith with others.

You can also catch recent films at SUSU's very own 250-seat cinema, and there are lots of events like gigs, student balls, quizzes, karaoke and more, running throughout the year.

Go green

Sustainability is a key focus for SUSU, and it supports many initiatives and activities to help you live a planet-friendly lifestyle. Join one of the conservation and sustainability societies where you can meet new people and take action to make a difference.

SUSU is proud to partner with the University to deliver the Sustainability Strategic Plan, ensuring we develop ambitious commitments, which reflect our students' concerns and interests.

Support

SUSU offers a range of support for all students. You can get free, independent and confidential advice and wellbeing guidance from The Advice Centre. There are lots of other initiatives too, like SUSU Safe and the Housemate Finder.

Food, drink and social spaces

Feeling hungry? Grab a coffee with friends at The Bridge, visit The Plant Pot for tasty plant-based food, or hang out at The Stag's – our on-campus pub and sports bar.

Top up on treats and essentials at The Shop, and visit markets, local food stalls and more, which pop up across Highfield Campus throughout the week.

Freshers'

Start your University experience with Freshers': a full programme of activities and events from the Union during your first few weeks at Southampton, designed to help you settle in, meet new people and learn about student life.

SUSU in Winchester

SUSU can be found on our Winchester School of Arts (WSA) campus too, with staff available to help and events run throughout the year.

WSA students can also access SUSU events in Southampton thanks to our great transport links. Find out more about travelling between cities on page 34.

*StudentCrowd University Students' Unions League Table, 2024

SPORTS

Whatever your goals and experience, we have plenty of ways to move more, meet new people, have fun, and look after your physical and mental health.

Over
140
sports
clubs

We're redeveloping our
Watersports Centre
on the banks of the River Itchen

Our recently upgraded £34m Jubilee Sport and Recreation Centre extension combines with the rest of our facilities to offer you a huge range of ways to keep fit, have fun, and take care of your body and mind.

Across all our sites, you can access:

- + a 25-metre, six-lane swimming pool
- + over 200 new exercise stations with Technogym and IFI inclusive equipment
- + five brand new sports studios with a dedicated spin studio
- + three squash courts
- + two sports halls
- + a new climbing and bouldering wall with speed climbing and top rope
- + new and improved watersports facilities
- + an on-campus Performance Sport Gym
- + cafe and social spaces
- + 18 grass and synthetic pitches

**Hear more about
how our new sports
facilities will
benefit you**

Active for all

From complete beginners to national competitors, everyone can join in.

Southampton Sport is proud to be an inclusive and welcoming sports environment. Our facilities are open to everyone, support is always available, and our sports clubs are led by students for students.

Flexible options

Choose from a range of flexible memberships to suit you, including monthly rolling memberships, annual memberships and pay-as-you-go options.

Be Active

Our unique Be Active programme offers free, year-round recreational sporting activities. Try something different and meet new people in a non-competitive environment, with all equipment provided.

Proud winners of the
**UK Active Physical
Activity Excellence
Award 2023**

“When I started working at the University pool as a lifeguard alongside my studies, some of my coworkers encouraged me to come along to the swimming team taster session and the first social. Doing this made me realise how much I missed swimming competitively and being part of a team, so I decided to join the society. I’ve met so many great friends on the weekly socials and feel like I’ve fully embraced student life by joining a sports society.”

Rachel Richards (she/her/hers)

BSc Marketing with a Placement Year, third year;
Marketing Placement at Arla Foods, Cravendale
Brand Team

Staying active can help
**improve your academic
performance** and gives
you a chance to **meet
new people**.

COST OF LIVING

Rising everyday living costs are affecting everyone, but for students they can be particularly tough to manage. We have lots of support available here at Southampton to help you manage your money and enjoy University life.

Financial support

We have bursaries, scholarships and funding options available to help with living and course costs*. Find out more about these on pages 49 and 50.

We also have targeted funds available*, including:

- + a technology grant to help if you are unable to access the kit you need to study
- + a health and wellbeing fund to help with health costs like dentists, counselling and prescriptions
- + a commuter fund to help fund daily travel costs if you're living at home
- + a Student Support Fund to help if you find yourself in unexpected financial hardship

Advisors from the Financial Support Team are available to guide you and can be reached via our Student Hub. Advice can also be found at SUSU. See more about our support options on page 52.

Part-time work

Many students take on part-time jobs around their studies.

There are lots of places to work in the city, and you can also find work on campus, such as:

- + becoming a paid Student Ambassador
- + casual, part-time work via SUSU, UniWorkforce, and the UoS Job Shop
- + paid internships via our Careers and Employability team

Read more on pages 14 and 16. Remember: you'll need to check your eligibility to work in the UK.

Don't forget, you'll qualify for **student discounts** with your student ID, and you can also sign up for **national student discount schemes** for deals and low prices in the city and online.

Wellbeing

If you find yourself feeling stressed or anxious about money, there's no need to be embarrassed. You're not alone, and there's lots of support available.

For example, our Student Hub's wellbeing team is available 24/7 to help you with practical concerns, plus other problems that can be triggered by financial worries, such as stress and lack of sleep. The Wellbeing Cafe also offers a safe space to relax with refreshments.

Read more about support on page 52.

Food

We can help make eating well more affordable. Our catering packages can be used to pre-pay for food every week on campus and in part-catered halls, there's a student cookbook in every halls kitchen, and we offer budget-friendly, student-specific prices across our campus catering spaces.

Leisure

Being on a budget doesn't have to be boring. There are many ways to enjoy yourself without overspending, including on our campuses!

There are free and low-cost events on campus and in halls from the moment you arrive, and Union Films screens some of the latest films for just £4 a ticket on Highfield Campus.

Did you know?

We offer travel bursaries of up to £100 to help UK students cover the cost of attending our Open Days. Find out more on our Open Day web pages.

“In my second year, I took on the role of Student Money Champion with the University's Financial Support Team. This peer-to-peer initiative involves raising awareness about financial support options and helping students manage their finances effectively.

Being a Student Money Champion has helped break down the walls when it comes to talking about money and made me more aware of the diverse financial circumstances students face. We offer a welcoming environment where students feel comfortable asking for help and accessing the resources they need.”

Maya Noureldin (she/her/hers)
BSc Economics and Finance, second year

ACCOMMODATION

Welcome to your home from home. Make new friends, grow in confidence and live independently in a safe space.

Over
6,000
student rooms*

Why live in University halls?

- + Meet fellow University of Southampton students and build your own community.
- + A guaranteed offer of accommodation in your first year.
- + All-inclusive rents.
- + 24-hour receptions at all sites.
- + En suite rooms and shared bathroom flats available.
- + Choose between part-catered or self-catered accommodation.
- + 24-hour welfare support, security and CCTV.
- + On-site University staff and access to halls events.
- + LGBTQ+ flats available.
- + All sites within easy reach of the city and our campuses by foot, bus, bike or rental e-scooter.
- + Accessible and adapted rooms, and space for couples.
- + Modern social and study spaces on site.

STUDYING IN THE UK

Living and learning in a different country can be a big step. From application support to meeting you on arrival, we can help you settle into your new life in Southampton.

Before you apply

Our friendly International Office staff are based around the world. We regularly travel to meet potential students at exhibitions and events.

We're always happy to meet remotely or face-to-face and answer any questions you may have about living and studying here in Southampton.

We also work with several overseas agencies who support students with applications to the UK.

There is no obligation for you to use one of these agencies to apply to the University. A full list is available on our website.

Before you arrive

English language requirements

You'll need to show that you have sufficient knowledge of the English language before arriving at Southampton.

Applicants who require a visa to study in the UK will additionally need to satisfy the University's English language requirements in order to be 'sponsored' by the University.

Find out more on page 47.

Visas

You will need to find out about the UK's immigration procedures well in advance of your arrival.

Our specialist Visa and Immigration Student Advice Service (VISAS) can help advise and support you. You can find out more on our website.

Fees

We make it easy for you to pay your fees directly to us online*. See page 48 for more fees information.

Support upon your arrival

Welcome Programme

Our free Welcome Programme will help you settle into life in the UK and at the University before your studies begin. Meet other undergraduate students, attend talks, socialise and explore our campuses and the city.

Meet and Greet

Your warm welcome will begin as soon as you arrive in the UK with our Meet and Greet airport collection service. For students who have signed up for the service, and are staying in residences managed by the University, we will meet you at London Heathrow or London Gatwick and transport you to your halls directly by coach.

You can book a space on our Meet and Greet service a few weeks before our Welcome Programme begins. Spaces fill up quickly, so be sure to reserve your place as soon as possible.

Alumni support

Benefit from our global alumni network offering you support during your studies, community meet-up and networking events, and career guidance after graduation.

More than
10,000
international students
from over 130 countries**

*online payments not available for use by sponsors or funding bodies
**undergraduate and postgraduate students

“Many international students may have worries about communicating with fellow students and making friends. This is something I have found really easy at Southampton – the people here are really friendly!”

You will have different experiences here, which will help with your studies and future work. Being in a new country allows you to not only explore different courses but also learn about other cultures and enjoy travelling around a new country.”

Yiming Zhang (he/him/his)
BSc Biomedical Sciences, second year

OUR LOCATION

With fast rail links with London and across the UK, an airport and a world-famous port, plus great public transport, you can stay well connected with friends, family, and the rest of the world.

Join Eniola and Nyasha on a tour of Southampton

Travel from Southampton to **London Waterloo** by train in **80 minutes**

Coach services connect Southampton and Winchester to **London Victoria** and **London Heathrow Airport**

Winchester is about **an hour** from **London** by train

Explore Winchester with Sophia and Lavanya

Explore more

Southampton and Winchester are great bases for exploring new places; we've got some of the south's most scenic spaces on our doorstep.

The beautiful New Forest National Park is just 10 minutes from Southampton by train, and you can hop over to the Isle of Wight for the day via ferry.

If you want to go a little further, make the most of our great rail connections and enjoy day trips to stunning cities like Bath, Salisbury and Oxford.

Directly connected by train with the north, south east and south west of the UK

Fly from Southampton Airport to **countries across Europe** and cities in the UK and Ireland

FINDING YOUR WAY AROUND

Our **Unilink bus service** connects Highfield Campus with our Winchester Campus during term time, taking around 30 minutes

Travel between Southampton and Winchester by **direct train** in just **under 20 minutes**

Southampton Central Station is around **25 minutes** from Highfield Campus by bus

Travel from **Highfield Campus to Southampton Airport** in around **15 minutes** by bus

Getting around the city

- Our award-winning Unilink bus service connects our campuses in Southampton with the city, halls, and with WSA.
- A free Unilink bus pass is included in your fees for halls in Southampton.
- Secure cycle storage is available on our campuses.
- There are 45 miles of dedicated cycle routes around Southampton.
- E-scooters and e-bikes are available to rent in the city.

MALAYSIA

CAMPUSES

We have six campuses in Southampton, one in Winchester, one in Malaysia and one in India.

Watch our
Highfield
Campus Tour
video on
YouTube

Our latest building project on Highfield Campus, opening in 2027, will create more cutting-edge teaching, learning and support spaces.

Highfield Campus

Highfield is our main campus for all subjects. It's likely you'll have lectures on Highfield Campus as well as on the campus dedicated to your subject of study.

This is where you'll find:

- + Hartley Library
- + Jubilee Sport and Recreation Centre
- + The Students' Union (SUSU)
- + The Student Hub
- + cafes, bars, shops and markets
- + healthcare sites
- + Turner Sims concert hall
- + specialist research and study facilities across many subject areas
- + Early Years Centre
- + Faith and Reflection Centre and Muslim prayer room

Distance from Southampton city centre:

40 minutes 30 minutes 15 minutes

Campus
security
operates
**24 hours
a day**

Boldrewood Innovation Campus

Boldrewood is our base for Southampton Business School (SBS) and engineering.

This is where you'll find our:

- + Jaguar Land Rover driving simulator
- + Boeing flight simulators
- + 138m towing tank
- + £48m UKCRIC National Infrastructure Laboratory
- + cafe and study spaces
- + SBS Student Advisors, and Careers, Employability, Placements and Alumni Relations team

Distance from Highfield Campus:

10 minutes 5 minutes 5 minutes

Avenue Campus

Avenue is home to our humanities subjects.*

This is where you'll find:

- + our Digital Humanities Hub
- + the Avenue Film Theatre and Video Editing Suite
- + a cafe and a variety of study spaces
- + a student common room
- + the archaeology bones laboratory
- + our language learning resources
- + The Student Hub
- + tennis courts

Distance from Highfield Campus:

15 minutes 12 minutes 7 minutes

University Hospital Campus

University Hospital Campus is the main place of study for medical students.

This is where you'll find:

- + the Health Services Library
- + clinical skills rooms
- + the Centre for Learning Anatomical Science (CLAS)
- + lecture theatres and research labs
- + a Major Trauma Centre (MTC)
- + our Centre for Cancer Immunology

Distance from Highfield Campus:

45 minutes 30 minutes 15 minutes

City Centre Campus

In the heart of Southampton's Cultural Quarter, our City Centre Campus offers updated teaching, learning and study areas, library facilities, our Student Enterprise Junction and Student Hub support, surrounded by exciting arts spaces, cafes, eateries and parks.

It's also home to our dedicated learning space for students taking a foundation programme with OnCampus.

Distance from Highfield Campus:

🚶 45 mins 🚌 22 mins 🚲 12 mins

Waterfront Campus

Based at the National Oceanography Centre Southampton (NOCS), our Waterfront Campus is the base for the study of Ocean and Earth Sciences (OES).

This is where you'll find:

- + environmental geochemistry and radiochemistry laboratories
- + palaeomagnetism and coastal laboratories
- + *RV Callista*, our 20m teaching and research catamaran
- + a multi-purpose research aquarium
- + the coral reef laboratory
- + the National Oceanographic Library
- + modern study spaces, lecture theatres and teaching laboratories
- + a cafe with views over Southampton Water

Distance from Highfield Campus:

🚶 70 mins 🚌 40 mins 🚲 25 mins

We aim to reach

net zero

across our sites by 2030*

* for Scope 1 and 2 emissions specifically, with a reduction for Scope 3; University of Southampton Sustainability Strategy, 2020-2025

** Direct Unilink U7 service during term time only

Winchester Campus

Winchester Campus is home to our art and design courses.

This is where you'll find:

- + The Winchester Gallery
- + Students' Union and Student Hub
- + a specialist art and design library and collections
- + study spaces and a cafe
- + cutting-edge workshops, computer suites and large studios
- + industry standard equipment across Fashion and Textiles, Design, Art and Media
- + Winchester West Wing: a dedicated space for Fashion Management and Leadership students in the city centre

Located in Winchester.

- 🚆 20-minute train journey from Winchester to Southampton.
- 🚌 Around 30 minutes from Highfield Campus via direct bus.**
- 🚶 5-minute walk from Winchester city centre.

University of Southampton Malaysia (UoSM)

UoSM is focused on engineering, business, and computer science.

This is where you'll find:

- + options to study in both Malaysia and the UK
- + our aerospace lab
- + a design studio
- + business experimental labs
- + our 12-terminal Bloomberg Suite
- + state-of-the-art recreational spaces
- + a range of open learning spaces

Located in Eco Botanic City in Iskandar Puteri, Johor.

- 🚗 20-minute drive from Johor Bahru city centre.
- 🚗 15-minute drive to Singapore via Second Link bridge.
- 🚗 30-minute drive to Johor Bahru Senai International Airport.

University of Southampton Delhi

Opening in August 2025, our latest international home makes us the first global top 100 University to have a campus in India.

Our Delhi Campus provides a new site for the study of subjects including Business, Finance and Computer Science.

Located in Gurugram, Delhi.

CITY LIFE

Live, study and socialise in one of the most varied and exciting cities on the south coast.

Life in Southampton

Art and theatre

- + Visit the largest theatre outside of London to enjoy touring West End productions at Mayflower Theatre, like *Hamilton*, *Matilda* and *Wicked*.
- + Experience free art at Southampton City Art Gallery and John Hansard Gallery, plus other smaller galleries and exhibition spaces.

Live music

- + Enjoy a great mix of established and up-and-coming musicians at popular venues like The Joiners, The 1865 and O2 Guildhall.
- + There are also plenty of open mic nights and small gigs throughout the year.

History

- + Explore our ancient city walls and connections with history. Take a tour of our medieval underground vaults, or visit the Sea City Museum to learn about our links with the *Titanic*.

Sport

- + Watch local, national, and international sports teams play at St Mary's Stadium and the Utilita Bowl.

Celebrations and events

- + Join in with annual celebrations across the city including Southampton Pride, Mela, Christmas markets, cultural festivals, and exciting outdoor performances.

Food and drink

- + Taste global flavours at independent eateries, markets and popular chain restaurants across the city.
- + There are plenty of cafes, bakeries and bars to enjoy a coffee or a drink with friends, too, and you might even stumble across a food festival!

Shopping

- + Relax and have fun with shopping, dining, leisure and entertainment at Westquay shopping centre, which has over 80 stores.
- + You can also support small businesses, the planet and our community with local makers' markets and vintage and second-hand stores.

Nightlife

- + Our city is a great place for a night out, with regular student nights and deals. Whether you're looking to dance the night away, enjoy a cocktail with friends, or chill out at a cosy pub, Southampton has something for everyone.
- + Why not try something different, and head out for a game of digital darts, shuffleboard or bowling?

*PWC Good Growth for Cities, 2024

**The Sunday Times Best Places to Live list, 2024

***The Green Flag Award® scheme

Life in Winchester

Just 15 minutes from Southampton by train, the city of Winchester is the ideal home for our students at Winchester School of Art (WSA), and a great place to visit, too!

In England's ancient capital, you can enjoy:

- + beautiful, camera-ready city spaces
- + quality bars and restaurants
- + independent cafes, boutiques and bookshops
- + picturesque walks and countryside spaces on your doorstep
- + historic sites, including Winchester Cathedral and King Arthur's Round Table
- + arts festivals and cultural events, such as Hat Fair and the popular Winchester Christmas market
- + drama, comedy, and dance at Theatre Royal Winchester
- + local open mic, music and poetry nights
- + regular art workshops, including life drawing and pottery

Southampton's Purple Flag Status recognises its safe and thriving nightlife

HOW TO APPLY

Application timeline

These application dates were being reviewed by UCAS at the time of print. For the latest deadline dates and information, visit www.ucas.com

Before you apply

- + Check our website for the latest course options and up-to-date entry requirements.
- + Familiarise yourself with the application timeline.
- + Read our Admissions Policy on our website.

How and when to apply

- + Applications should be submitted via UCAS (www.ucas.com).
- + Our institution code is S27 and our code name is SOTON.
- + Applications can be submitted from early September.
- + The application deadline for medicine is expected to be 15 October 2025.
- + The Equal Consideration Deadline for all other programmes is 14 January 2026.
- + The deadline for applications is 30 June 2026, although we strongly advise you to apply as early as possible as some courses may no longer have vacancies after the January equal consideration date.

How we assess your application

When we receive your application, we look at:

- + your qualifications
- + your actual and/or predicted exam grades
- + your personal statement
- + your reference

Deferred entry

If you want to postpone your studies by a year, you could apply for deferred entry. We accept deferred entry for most courses, and you must satisfy any offer conditions by early September of the application year. For example, if you would like to commence your studies in September 2027, you need to satisfy any offer conditions by early September 2026.

Contextual admissions

If you are eligible, you may receive an offer with a lower grade requirement than the one published.

Contextual offers can be up to two grades lower than our standard offer, and are made to ensure everybody with the potential to succeed, regardless of background, can apply to study with us.

We consider your potential, and other factors including where you live and Free School Meals status.

To see your eligibility, visit our website.

Likely offers are included in the course table from page 60.

Entry qualifications

We carefully and fairly consider all relevant qualifications, including a broad range of Level 3 qualifications.

These include:

- + GCE A levels and AS levels
- + Scottish Highers and Advanced Highers
- + Welsh Baccalaureate
- + T levels
- + the International Baccalaureate Diploma
- + Access to HE Diplomas
- + BTECs
- + many European and international qualifications

We also accept the Extended Project Qualification (EPQ). We were the first university to formally recognise the EPQ, which gives you important research and academic skills that will support your success at University. If you're studying an EPQ, you'll receive a reduced offer alongside your typical offer. See page 58 for more information.

You'll need to satisfy our general entry requirements (currently a GCSE in both English and mathematics at grade 4 or C) or a University-recognised equivalent qualification, in addition to the specific requirements for your chosen course.

For specific entry requirements, including international qualifications, visit our course web pages.

Inclusive applications

- + We welcome applications from people under 18 and mature applicants (aged 21 and over).
- + We have a designated point of contact for care-experienced and estranged students, as well as a bespoke financial support offer.
- + Our Student Disability and Inclusion team provides a variety of services, including learning support, assistive technology facilities, mentoring and help with funding applications.

English language requirements

- + All our programmes (other than those in modern foreign languages) are taught in English.
- + You must demonstrate your ability to understand, and express yourself in, the English language to a sufficient standard.
- + You must hold a GCSE in English at grade 4 or C, or another qualification approved by the University. If you don't, you may take one of our approved English language tests.
- + If you've narrowly missed our English language requirements, you may be able to attend one of our Pre-sessional programmes. You can also access academic English language support during your studies.
- + View our specific requirements in the course listings table and online.

Foundation years

A foundation year helps you get onto your chosen course if you don't meet our requirements for direct entry. Find out more online.

We have specific foundation programmes designed to support international students. See page 56 for more information.

More information

See our website for further details about how to apply, as well as information about:

- + international application support
- + applications to study at our Malaysia and Delhi campuses

Find out
more

FEES AND FUNDING

Going to university is a significant investment, so it's important you have all the information you need to make the right choice.

Fees

As an undergraduate student, you'll need to pay an annual tuition fee to the University for your programme of study. This varies depending on whether your fee status is classed as 'home' or 'overseas'.

Home student fees

The University will set fees subject to any conditions imposed by the government*.

The latest fees information is available online.

Overseas student fees

The latest fee information is available online.

For programmes where a combination of clinical and non-clinical fees applies, the non-clinical fee will apply for years one and two, and the clinical fee rates will apply for the remainder of the programme.

As with other UK medical courses, the tuition fees may be subject to an additional charge for clinical placement in the NHS, decided by the UK government.

If you are starting any University-run Foundation Year, you will pay a different fee for your Foundation Year than for the fees for your integrated degree.

What's included in my fees?

Depending on your chosen course, your tuition fees may cover compulsory costs such as field trips and laboratory clothing.

However, you may still need to fund certain course costs yourself such as books, studying abroad and any extra materials and equipment.

Please check with the Admissions team for more details about what's included for specific courses.

How do I pay my fees?

Tuition fees are charged annually in October each year.

If you've been approved for a tuition fee loan from the UK government, the Student Loans Company will pay your fees to us and you won't have to do anything.

If you're funding your own studies, you'll need to pay your fees to us directly. You can choose to spread the cost and pay in three handy instalments, and you can easily pay online.

If a sponsor or other funder will be paying your fees, you must let us know. More information is available on our website.

What if I defer my place?

If you defer your place, you will pay the tuition fees set for the academic year you start your studies.

Funding

Student loans

If you are a UK student starting a higher education course, you can apply for loans to help pay for both fees and living costs.

Tuition Fee Loan

If you're a UK student, you can take out a student loan for tuition fees.

You can borrow the full cost of the tuition fee charged for your programme of study. The amount you receive does not depend on your financial circumstances, and currently the loan is only repayable once you are earning over a specific amount per year.

Maintenance Loan

If you're a UK student, you can also take out a student loan to help with living costs. The amount you borrow depends on your circumstances and, like the Tuition Fee Loan, is only repayable once you earn over a specific amount per year.

Student loans are issued by Student Finance on behalf of the UK government – they are not commercial loans. Interest is charged on a student loan from the date you receive it to the date you pay it off.

Scholarships, bursaries and funding

Our scholarships and bursaries ensure that we can welcome exceptional students with varied experiences and perspectives from across the world.

We provide a range of financial support to open opportunities and to help ease concerns of funding your studies. We work with our students to ensure the financial support we provide is as valuable and reactive as possible.

Scholarships

We offer a variety of scholarships to both international and UK students. Some scholarships require you to complete a specific scholarship application, and for others an automatic decision will be made by the University based on your programme application and qualifications.

We also work with many prestigious international organisations who offer scholarships for which you may be eligible.

Find out more about our scholarships, eligibility and how to apply

Some examples of the scholarships on offer:

Ignite Your Success

Our Ignite Your Success programme offers bursaries, scholarships and awards to undergraduate students from underrepresented backgrounds. This opportunity has been made possible by the generous support of our alumni community. See page 53 to find out more about what the Ignite Your Success programme offers.

Sanctuary Scholarship

Our Sanctuary Scholarship currently supports one undergraduate student per year seeking sanctuary in the UK. This opportunity covers tuition fees, a bursary, and additional support with accommodation where needed*.

Southampton Sport Scholarship

The Southampton Sport Scholarship programme supports elite athletes who wish to progress with a formal academic course and maintain involvement in performance sports. It includes strength and conditioning support, academic flexibility, biomechanical testing, monetary rewards and a complementary gym membership.

Bursaries

We offer a range of bursaries designed to help UK undergraduate students in the most financial need. These include:

- + the Southampton Undergraduate Bursary
- + Care Leaver and Estranged Student Bursaries

Additional support

We provide financial support for students who can show they are in unexpected financial hardship. This comes from the Student Support Fund.

There may also be some extra, non-repayable help available if you're disabled, or have any dependants.

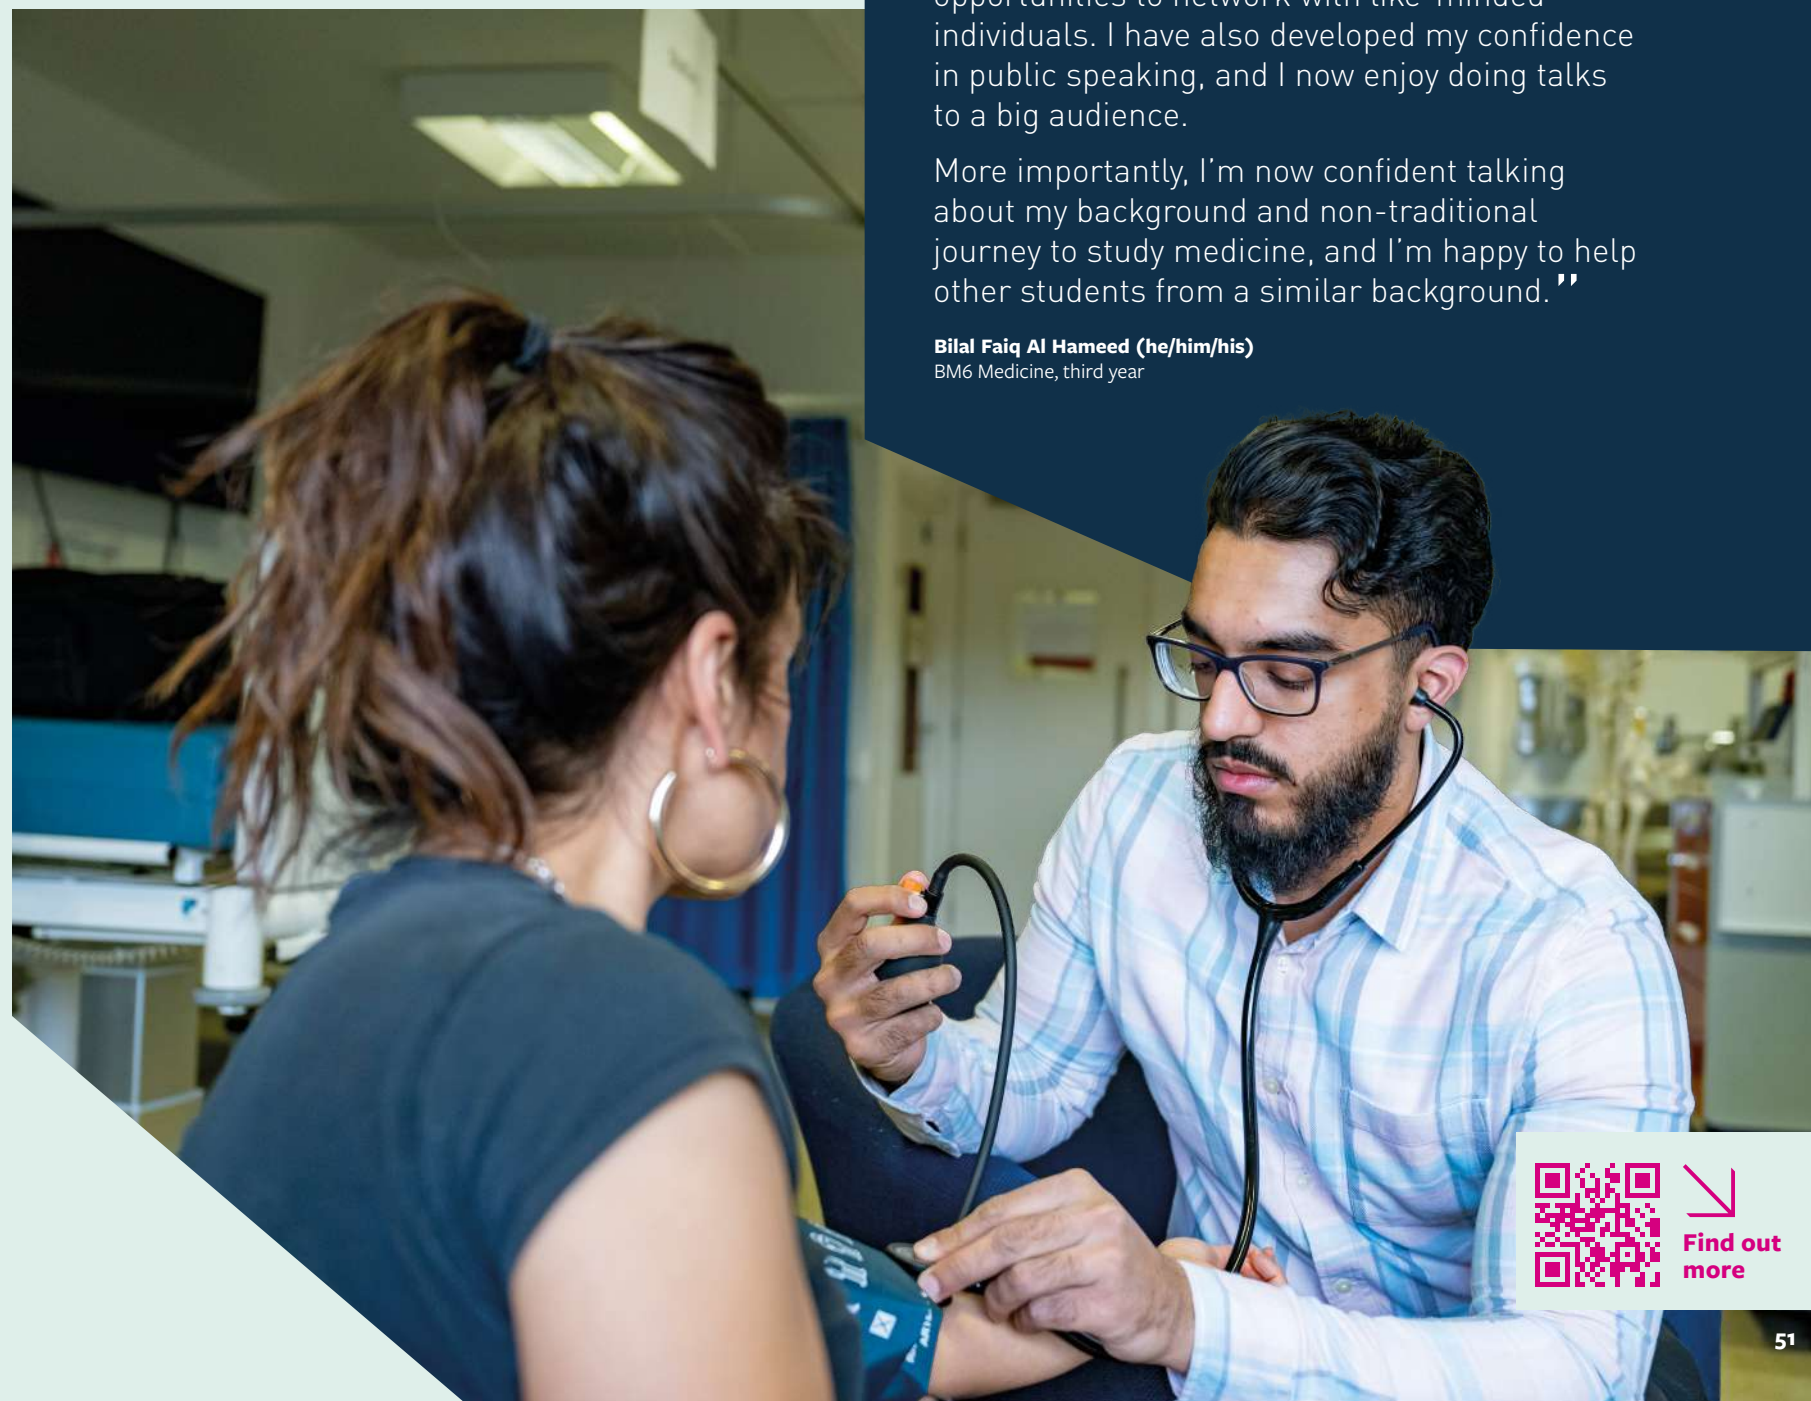

We offer many generous fee waivers and bursaries for eligible students. For students from lower income families, these financial packages will be based on household income supplied to us by the Student Loans Company.

Cost of living

We know the cost of living may be a concern when starting university.

Alongside the financial support outlined on these pages, we have many other initiatives and options available to help you in small ways throughout your time with us.

Read more on page 24.

“I chose to study at Southampton as its Widening Access to Medicine programme is one of the best in the country for medical students coming from traditionally underrepresented backgrounds.

Through the Ignite Programme, I've had various opportunities to network with like-minded individuals. I have also developed my confidence in public speaking, and I now enjoy doing talks to a big audience.

More importantly, I'm now confident talking about my background and non-traditional journey to study medicine, and I'm happy to help other students from a similar background.”

Bilal Faiq Al Hameed (he/him/his)
BM6 Medicine, third year

SUPPORT

Our support networks and teams are ready to help you, from before you even apply until you graduate, and beyond.

24-hour support
and advice for
all students

The Student Hub

The Student Hub is your first stop for any questions and concerns you may have about university life. We offer 24/7 assistance, 365 days a year and work closely with a range of support services across the University, helping you find the information you need.

Access programmes

Our Access and Outreach programmes, such as Ignite Your Journey, can help you to prepare for your application, strengthen your skills and learn more about your chosen subject.

Wellbeing and disability support

We offer specialist assistance for students with disabilities, mental health conditions and specific learning differences. Our expert practitioners, trained peer supporters and 24/7 Wellbeing Team work with you to get you the help you need.

The Students' Union Advice Centre

The Students' Union (SUSU) advisers offer free, confidential and independent advice on matters including student finance, housing and academic issues.

Personal Academic Tutors

During your studies, you'll be assigned a Personal Academic Tutor (PAT); an academic staff member who can help you with both course-related and personal issues throughout your time at Southampton.

Ignite Your Success

This programme is available to students from underrepresented backgrounds. We offer a blend of financial, academic, career, and personal opportunities, including workshops, tailored mentoring schemes, guaranteed internships, and international study and work opportunities.

Find out the support available to help with cost of living concerns on page 24.

Early Years Centre

Located on our Highfield Campus, our Early Years Centre offers a caring and stimulating environment for children from three months to five years of age.

Academic Centre for International Students (ACIS)

We offer a wide range of academic English language, study skills and other courses to help international students and non-native speakers who live in the UK to achieve their full potential.

Academic Skills Service

Studying at university is different to school or college. Our Academic Skills Service is available to help you adapt to this change, supporting your development of study skills, writing proficiency and mathematics and statistics competency.

COURSES

With over 400 courses on offer, many of which also provide work placements or opportunities to study abroad, you'll find the right option to set you on the right path for your future career.

There are lots of ways you can study for a degree with us. We offer multiple study options to help you get the knowledge, skills and experience you need.

Three-year degrees

Most undergraduate degree courses in England take three years to complete. At Southampton, all our three-year degrees are bachelor's awards, and if you pass with a second-class grade or above, your award will include honours.

Integrated master's degree

An integrated master's degree is a four-year programme, which combines undergraduate and postgraduate study into a single course. Many of our subject areas give you this study option, and it means that you will graduate with a master's degree.

Integrated master's degrees have their own UCAS code and can be applied for in the same way as our three-year degrees. However, it may also be possible to transfer to an integrated master's programme once you have started a three-year course.

Studying abroad

We offer some of our undergraduate courses with up to a year abroad. These opportunities allow you to enrich your learning by experiencing a different academic and cultural environment, while developing your language and communication skills.

Studying abroad for a full year will usually take place in your third year of a four-year integrated degree programme. In most cases, these degrees will have their own UCAS code and have been highlighted in a separate row in the courses table.

For more information about studying abroad for a period during your chosen degree, please see page 12 and the relevant course page on our website.

Degrees with an industrial placement

We offer some of our undergraduate courses with an industrial placement. These opportunities will help you develop your professional skills and workplace experience in an industry of your choice, while also allowing you to 'test-drive' a career and make a more informed decision about what you want to do after you graduate.

In most cases, these degrees will have their own UCAS code and have been highlighted in a separate row in our courses table. For more information on these courses, please see individual course pages online.

Degrees with a year in employment

Once you are studying your degree course at Southampton, you may be eligible to apply to undertake the University's Year in Employment (YiE). This offers you another great opportunity to complete a work placement and will help you develop work-based skills. You will be able to choose a placement in any sector you like, whether it is aligned to your degree or in a completely new area of interest.

Degrees with a foundation year

We offer some of our undergraduate courses with a foundation year of study. This additional year is designed to give you extra skills and knowledge to support your learning before you progress on to degree-level studies.

Courses with an integrated foundation year can offer an alternative entry route to your chosen undergraduate course. Students coming to the University from outside of the UK may also be able to study our degrees with a foundation year as long as they meet the entry requirements.

Find out more:
www.southampton.ac.uk/ug/courses

Foundation programmes for international students

Some of our foundation programmes are specifically designed for international students who do not meet the entry requirements for direct entry. A foundation programme enables you to increase your knowledge in your chosen subject area and improve your English and study skills.

Successful completion of your OnCampus programme guarantees you entry to a Southampton undergraduate degree, subject to meeting the specified progression criteria.

You will study at the OnCampus Southampton Centre, based at our City Centre Campus.

Apply to study on a foundation programme directly through OnCampus Southampton. There are multiple pathways to choose from. For more information about the programme and the University's progression degrees, see the courses table on page 79 or visit www.oncampus.global/southampton

Programme Approval and Review

Programme Approval is the process by which the University checks its programmes of study against academic quality and standards expectations. Any taught programme leading to a University of Southampton award is required to go through this process. Programmes that are under approval are highlighted in the courses table. Where UCAS codes or entry requirements are not yet known, TBC (to be confirmed) will be displayed.

Programme Review occurs every five years and is the process the University undertakes to reflect on the delivery and student experience of existing taught programmes and plan for the next cycle of programme enhancement. Programmes that are under review are highlighted in the courses table.

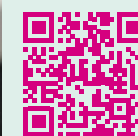

The full Programme Approval and Review process can be found in the University's Quality Handbook on our website.

Accreditation

Many of our courses are accredited, which means they have been approved by external professional organisations as a sign of our high-quality teaching. Some accredited courses count towards professional qualifications or registration with a professional body, which can accelerate your career journey.

Please see the courses table and individual course pages on our website for more information.

Our **Southampton Sustainability Solutions online module** is part of your induction to the University and includes how you can get involved in sustainability activities here

Find out more:
www.southampton.ac.uk/ug/courses

Application process

Your application for undergraduate study should be submitted directly to UCAS. Any additional requirements can be found on the relevant course pages online.

For more information on how to apply to Southampton, see page 44.

Typical offer

Our standard offer is usually expressed using our A level grade requirements. We also include details of our International Baccalaureate (IB) offer. However, we do accept a wider variety of equivalent qualifications. Please check individual course pages on our website for full details of our entry requirements.

Required subjects

Some courses have specific subject requirements. For example, all of our engineering courses require you to have studied maths. If the courses table has a tick in the required subjects column, refer to the relevant course page online to ensure you meet the specific subject requirements. Required subjects apply to all qualifications, including the IB.

Extended Project Qualification (EPQ) offer

EPQs aid the transition in learning styles to university level and encourage the research and academic skills that you will be using in your degree. EPQ students also tend to achieve better degree outcomes compared to non-EPQ students.

For most of our courses, applicants studying an EPQ will be made two offers: our typical offer based on three A levels, and an alternative where, in exchange for an A or A* in the EPQ, we will reduce the A level requirements by one grade. For more information about our EPQ offers, please check individual course pages on our website.

Contextual offer

For more information on our contextual offers, please see page 45.

English language requirements

For more information on English language requirements, please see page 47 or individual course pages online.

Other qualifications

Although not detailed in our courses table, many of our courses accept other UK qualification such as Access to HE, BTEC or T levels, as well as a large number of equivalent international qualifications. Please see individual course pages on our website for more details.

“Before coming to University, I was worried about the level of academic skills I would need to do well in my Law degree. However, doing the EPQ made me more comfortable in my abilities to write long essays and carry out lengthy research. It also sharpened my critical thinking and presentation skills as I had to deliver a presentation of my project evaluating it and explaining the topic I was discussing.”

Nora Belkhiter (she/her/hers)
LLB Law, third year

ONCAMPUS FOUNDATION YEAR PROGRAMMES

Pathway	Duration (semesters)	Foundation Year Entry Requirements	Pass mark for guaranteed progression	Start dates
Undergraduate Foundation Programme				
Art and Design	2	5.0 IELTS or equivalent (min 5.0 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025 or 12 January 2026
Business, Economics, Finance and Management	2	5.0 IELTS or equivalent (min 5.0 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025 or 12 January 2026
Humanities and Social Sciences	2	5.0 IELTS or equivalent (min 5.0 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025 or 12 January 2026
Engineering and Physical Sciences	2	5.0 IELTS or equivalent (min 5.0 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025 or 12 January 2026
Life Sciences	2	5.0 IELTS or equivalent (min 5.0 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025 or 12 January 2026

Extended Undergraduate Foundation Programme

Art and Design	3	4.5 IELTS or equivalent (min 4.5 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025
Business, Economics, Finance and Management	3	4.5 IELTS or equivalent (min 4.5 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025
Humanities and Social Sciences	3	4.5 IELTS or equivalent (min 4.5 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025
Engineering and Physical Sciences	3	4.5 IELTS or equivalent (min 4.5 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025
Life Sciences	3	4.5 IELTS or equivalent (min 4.5 in each element) Min age 17+	60% overall IELTS 6.5	22 September 2025

NEXT STEPS TO SOUTHAMPTON

So, what's next? Here are some key steps for you to follow on your university application journey.

- ✓ **Visit us!** Attend an Open Day or virtual event to see Southampton for yourself.
 - ✓ **Apply via UCAS:** check the UCAS website for key application deadlines.
 - ✓ If you receive an offer from us, you'll be invited to a subject-specific Visit Day. We also offer virtual offer holder events.
 - ✓ Make your decision and accept your University place.
 - ✓ Apply for accommodation. See page 26 for more details.
 - ✓ Apply for financial support and start creating a budget.
 - ✓ Sit your exams. **Good luck!**
 - ✓ Receive your exam results. **Congratulations!**
 - ✓ If you're an international student, make sure you apply for your student visa in plenty of time.
 - ✓ It's time to get ready for student life. If you've been accepted into Southampton, watch out for our handy welcome emails for more details.
 - ✓ If you're moving to the UK, remember to register for our International Welcome Programme and Meet and Greet services.
 - ✓ Move into halls and enjoy Freshers' and the welcome weekend.
 - ✓ Student life starts now. **Welcome to Southampton!**
- +** **If your exams don't go to plan,** remember that we will always give priority to applicants who make us their firm choice, but who narrowly miss the strict terms of their conditional offer.

For key dates, application timelines and more essential information, visit the UCAS website.

At the University of Southampton, we embed sustainability in everything we do.

We've used Carbon Balanced Paper for this prospectus, which has balanced the equivalent of 6818kg of CO₂ through World Land Trust and will help to protect around 1302m² of critically threatened tropical forest.

This prospectus is 100% recyclable, and we also provide an online PDF as an alternative to a printed copy.
