Bondy

[bond-ee]

noun

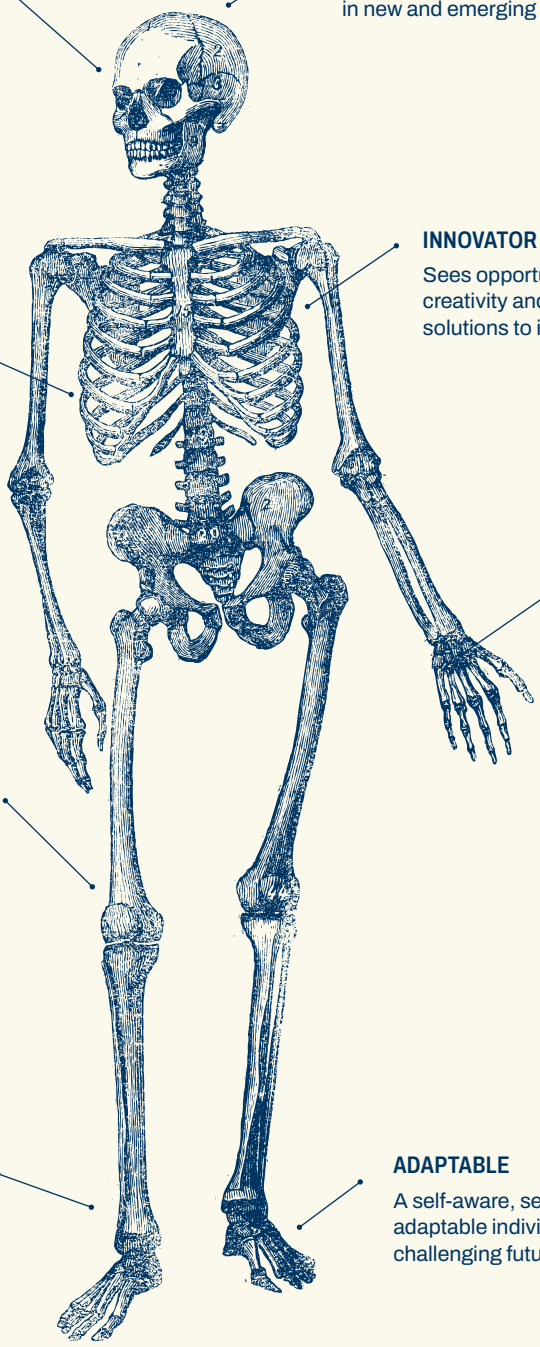

1. A student or graduate of Bond University.
2. Ambitious and driven.
3. A member of a global, lifelong community.

GLOBAL VIEW

Open minded, inclusive and prepared to succeed in new and emerging careers around the world.

AMBITIOUS

A big thinker with big ideas and bigger ambitions. Knows that being challenged is the key to growth.

INNOVATOR

Sees opportunity in complexity. Uses creativity and critical thinking to develop solutions to issues.

LEADER

Displays exceptional leadership skills. Engages positively and constructively in debate.

GOOD CHARACTER

Employs integrity, accountability, professionalism, and ethical decision-making.

EXPERT COLLABORATOR

Possesses strong interpersonal skills and fosters productive relationships.

CONNECTED VISIONARY

Highly employable and ready to step confidently into future opportunities. Has a strong, international network.

ADAPTABLE

A self-aware, self-directed, resilient, and adaptable individual, enabling success in a challenging future.

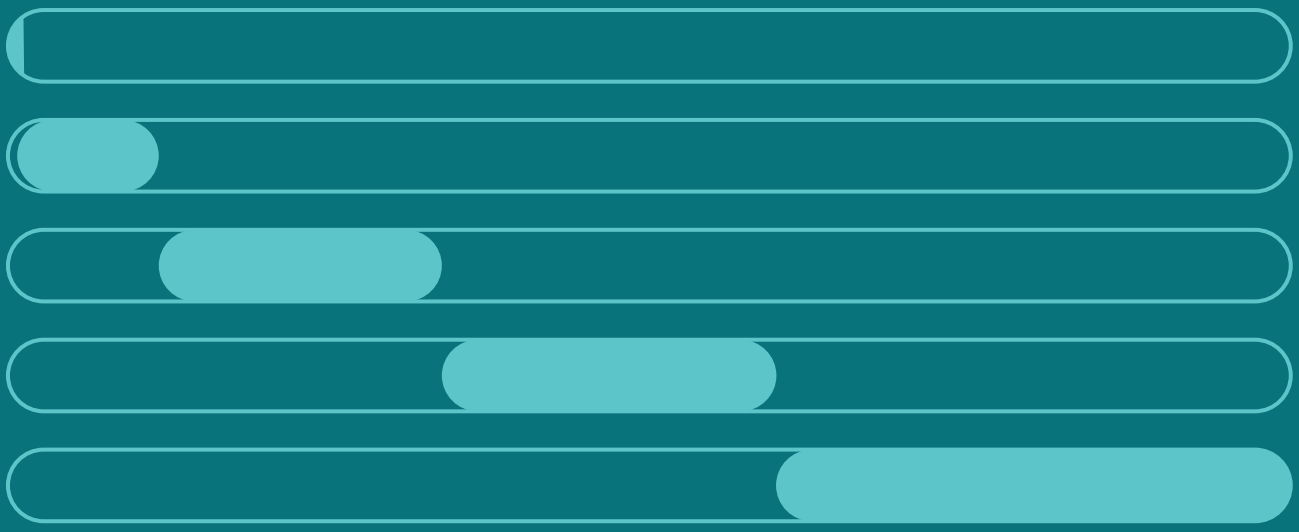

Bond by the numbers

Nº 1

Bond is Australia's top university for teaching

According to the 2025 Australian Financial Review's Best Universities Ranking

Undergraduate students at Bond are completing a range of degrees across our faculties and study areas

1% COLAB 11% LAW 23% BUSINESS 27% SOCIETY AND DESIGN 38% HEALTH SCIENCES & MEDICINE

Bond graduates live and work in more than 130 countries

Australia's best student-to-teacher ratio of 11:1

YOUR HOME

Ask any Bondy and they'll tell you that Bond is their second home.

Bond is located on Kombumerri country

The Kombumerri ‘Salt Water’ peoples’ traditional boundaries stretch from the Coomera River down to the Tweed River, and the foothills of the mountains.

As the first people of the region, the Kombumerri people lived off the land and the water, with several dialects spoken in this region.

The Kombumerri people and their descendants have looked after this land and its wildlife for more than 20,000 years, and continue to maintain their spiritual connections and traditions today.

Bond University acknowledges the Kombumerri people, the Traditional Owners and Custodians of the land on which the University now stands. We pay our respect to Elders past, present and emerging.

Your ambition belongs here

In addition to making friends in our small, personalised classes, you will also build networks and unique experiences through our active on-campus sporting, cultural, academic, recreational and social impact clubs and societies.

Our campus, and the Bond Institute of Health & Sport, are based in Robina, the geographical heart of the city. Public transport links campus with everything the city has to offer, including shopping, dining and entertainment, as well as study and career opportunities.

From world-famous beaches to hinterland rainforest, a vibrant coastal city lifestyle, and abundance of career opportunities, the Gold Coast is the perfect place to blend work, study and leisure.

See the world while you study

From international industry partnerships and placements to exchange programs, study tours and international competitions, there are a breadth of opportunities to explore the world while you study at Bond.

TAKE A STUDY TOUR

From Hong Kong to Japan to the Solomon Islands, many programs include study tour opportunities to develop real-world global experience.

GO ON EXCHANGE

Take advantage of more than 80 exchange partnerships in 24 countries, from Western University in Canada, to the University of Loughborough in the United Kingdom, O.P. Jindal Global University in India and the University of Oslo in Norway.

PARTICIPATE IN INTERNATIONAL COMPETITIONS

From participating in Model United Nations conferences in Japan or New York, to mooting at the International Criminal Court in The Hague.

JOIN A GLOBAL ALUMNI NETWORK

Bond has an active alumni network of more than 33,000 graduates across 130 countries.

The global stage

MODEL UNITED NATIONS CONFERENCES OFFER ‘GATEWAY TO THE WORLD’

As part of Bond University’s overseas study tour offerings, international relations, politics and arts students have the opportunity to travel overseas to immerse themselves in diplomacy through Model United Nations (UN) conferences around the globe, from Japan to New York.

In 2025, six Bond students stepped into the heart of global diplomacy at the WFUNA International Model UN in New York. Saxon McGregor rehearsed his speech in a Times Square snowstorm before delivering it at the UN General Assembly. Sienna Grubb led negotiations on humanitarian aid, navigating complex debates with poise. The group met with diplomats and policy advisors, including Bond alumna and Austrade’s Trade and Investment Commissioner Rachel Howard, gaining insights that textbooks could never offer.

Meanwhile, Erika Carroll joined the Japan English Model United Nations (JEMUN) tour, a 16-day cultural and diplomatic immersion across Japan. Erika reflected on the value of stepping outside her comfort zone and forming strong connections with students from Komatsu University. The experience allowed her to apply classroom theory in an international context, deepening her understanding of diplomacy and global collaboration.

Bond’s students returned not only with accolades, but with stories and skills that will shape their futures.

READ MORE ON THE THINKING STEPS

Supporting your ambition

As an independent, not-for-profit university, all tuition fees are reinvested into our students' education, opportunities and experiences. It's why Bond is able to provide dedicated services and initiatives to provide you with every opportunity to succeed and thrive. At Bond, supporting your wellbeing and success is our highest priority.

CAREER

You will have lifelong access to career advice and employability services through Bond's dedicated Career Development Centre (CDC).

STUDY

Our small class sizes ensure personal mentorship from your academics and our Academic Skills Advisors offer personalised help, with one-on-one sessions, small group workshops, and online resources to improve your academic skills. Our Students Helping Students program is a peer-assisted learning program designed specifically for new students offering friendly, informal support from trained student tutors who've been where you are.

WELLBEING

We offer an onsite bulk-billed medical, pathology and counselling service to support your physical, mental and emotional health. You will also have access to the on-campus Bond University Health and Wellness Clinic and Bond Law Clinic.

ACCESSIBILITY

We provide students who identify with a disability or medical condition with support to facilitate reasonable adjustments to assist them in their studies.

INCLUSION

You will be part of a friendly, diverse and inclusive community. We are committed to the principles of gender equality, equity, diversity and Indigenous participation in education, employment and research.

FIRST NATIONS

Bond's Nyombil Centre is the cultural heart of the University, providing a place where connection to Country, community, and cultural identity is supported and respected. The Centre provides dedicated support for our First Nations students while nurturing their sense of belonging and wellbeing throughout their journey.

TRANSFORMER

Bond's unique, fee-free entrepreneurship program Transformer is open to all students, supporting them to turn their ideas into action. Through Transformer, students can access personal coaching and mentorship from industry leaders, academics and alumni, as well as complimentary masterclasses, workshops and showcases providing networking opportunities, and financial support through seed grant funding.

Architecture student Senlina Mayer with internationally recognised architect, researcher and Head of the Abedian School of Architecture, Professor Paul Loh.

Sport at Bond

Sport at Bond is more than competition, it's part of who we are. Whether you're here to play, compete, or coach, we offer development opportunities at every level through world-class coaches and partnerships in sports academia and research. Unlock your potential and join Bond's sporting legacy.

LEARN FROM THE BEST

Our elite coaching team features Olympic champions, national award-winners, and All Blacks. Chris Mooney, a dual Swimming Australia Coach of the Year, leads our swimming program. AFL is guided by former AFL player and Queensland coach Andy Lovell, while Bond netballers train under Queensland title-winning coach Rebecca Stower. Our rugby program boasts Mick Heenan, Queensland Premier Rugby's most successful coach, and All Blacks legend Rico Gear.

STATE-OF-THE-ART FACILITIES

Bond's world-class facilities, including an Olympic-standard Aquatic Centre, High Performance Training Centre, multi-sport fields, and high-tech Esports Hub, cater to elite athletes, community teams, and sports enthusiasts alike. These venues host national teams and provide an ideal environment for growth and excellence.

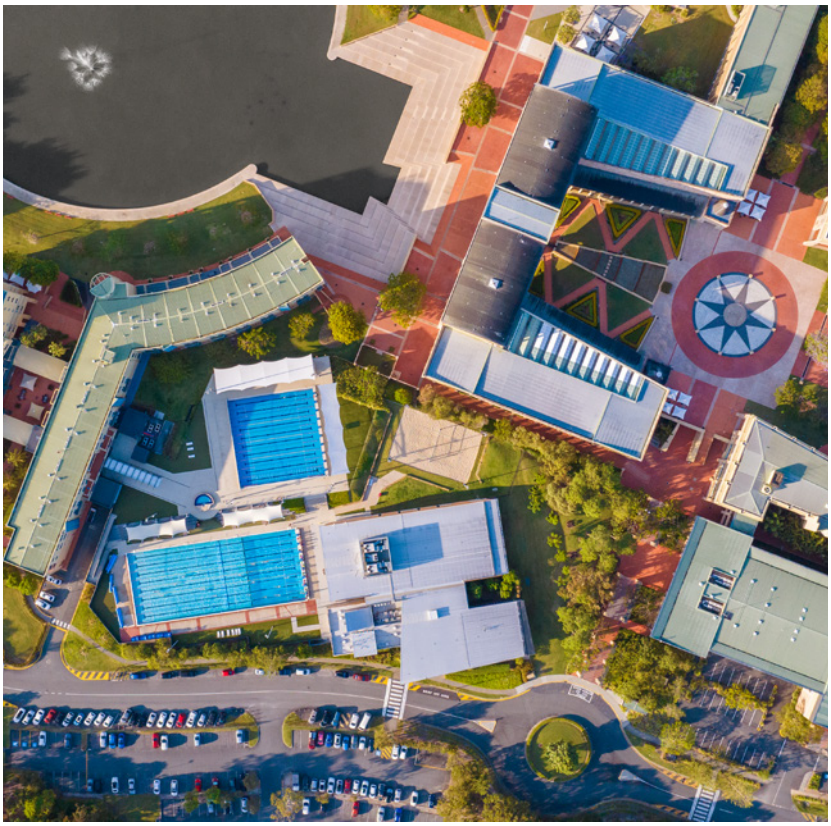

SPORT CLUBS

As a Bond Bull Shark, you'll experience camaraderie and achievement, competing in UniSport Nationals across over 20 sport clubs. Bond fields teams in swimming, rugby, AFL, netball, tennis, equestrian, and esports, all with a focus on the student-athlete experience.

BOND ELITE SPORT PROGRAM

Through the Elite Sport Education Network, part of the Australian Institute of Sport, Bond supports elite athletes with flexible study loads and tailored support, enabling them to thrive in both academics and sport.

Connections Precinct

BUILDING BOND'S NEWEST LEGACY

Bond's new Connections Precinct, a groundbreaking 18,000m² development at our Robina campus, is set for completion in mid-2027. This innovative space will unite the Medicine and Business faculties, fostering cross-disciplinary collaboration in the growing "business of health" sector. Highlights include a new anatomy lab, 33 clinical skills rooms, and a custom-designed home for the Business School. The precinct will also feature a 1,200-seat Great Hall for major events, solar-powered infrastructure, and expanded parking.

Bond Institute of Health & Sport

TRAINING THE NEXT GENERATION OF ALLIED HEALTH AND SPORTS SCIENCE PROFESSIONALS

The Bond Institute of Health & Sport is the home base for students studying exercise and sports science, physiotherapy, occupational therapy and nutrition and dietetic practice, and the Bond University Health & Wellness Clinic. Located just 4km from Bond's main campus, the Institute is immersed in a dynamic industry hub, nestled between Robina Hospital and CBus Super Stadium, and easy walking distance from Robina bus and train station.

YOUR DEGREE

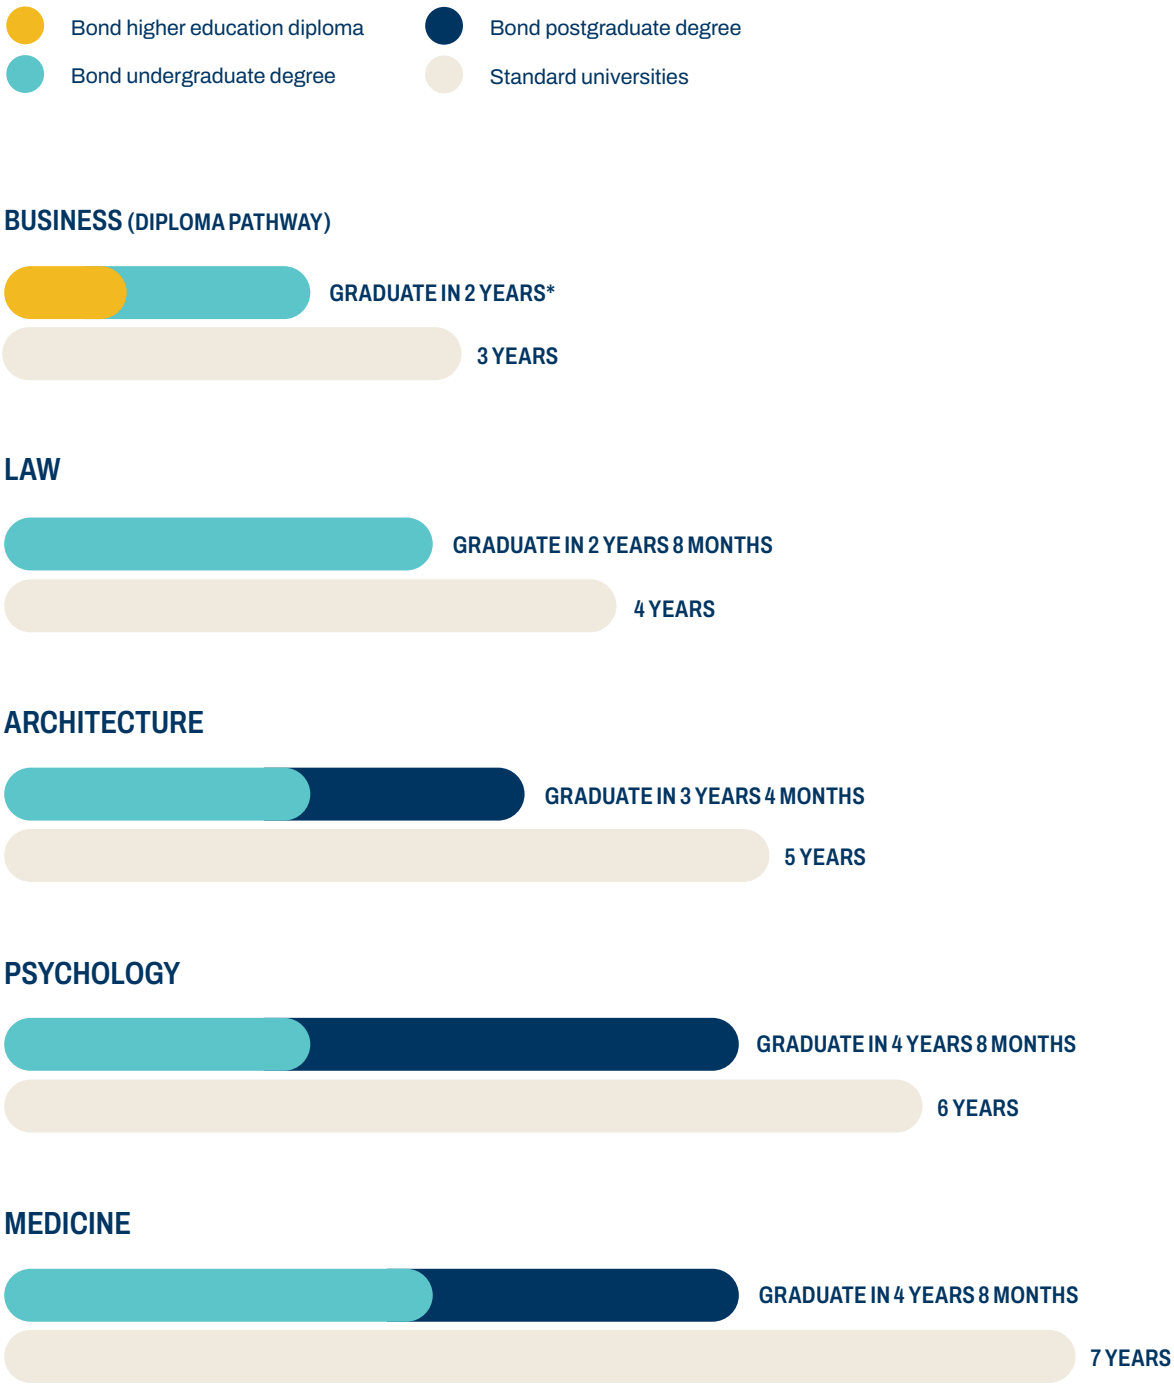

The experiences you have at Bond will set the course for your future career success.

READER

Accelerate your ambition

Bond's three-semesters-per-year timetable means you'll finish your degree sooner and be earning an income up to a year ahead of graduates from other universities.

* All program durations are indicative of a full-time study load, and may differ based on your degree schedule.
Study pathways shown represent a combination of undergraduate and postgraduate studies for specific career pathways and study options.

The Core Curriculum and Beyond Bond program

Unique to Bond, every undergraduate student completes the Core Curriculum and the Beyond Bond professional development program — integral components of every degree designed to help you develop your capabilities, discover your passions, and stand out in a competitive career environment.

CORE CURRICULUM

Bond's Core Curriculum comprises three subjects that all undergraduate students complete. It's designed to develop you as a capable individual, effective collaborator, and global citizen.

- Critical Thinking and Communication teaches you to evaluate arguments, identify reasoning patterns, and build persuasive, evidence-based cases, skills essential in any field where decisions matter.
- Responsibility, Integrity and Civic Discourse explores the relationship between character, ethical action, and diverse perspectives, helping you articulate and justify your values in a global context.
- Collaboration for Global Change equips you to work in interdisciplinary teams to solve real-world problems linked to the UN Sustainable Development Goals, preparing you for the collaborative, innovative workplaces of the future.

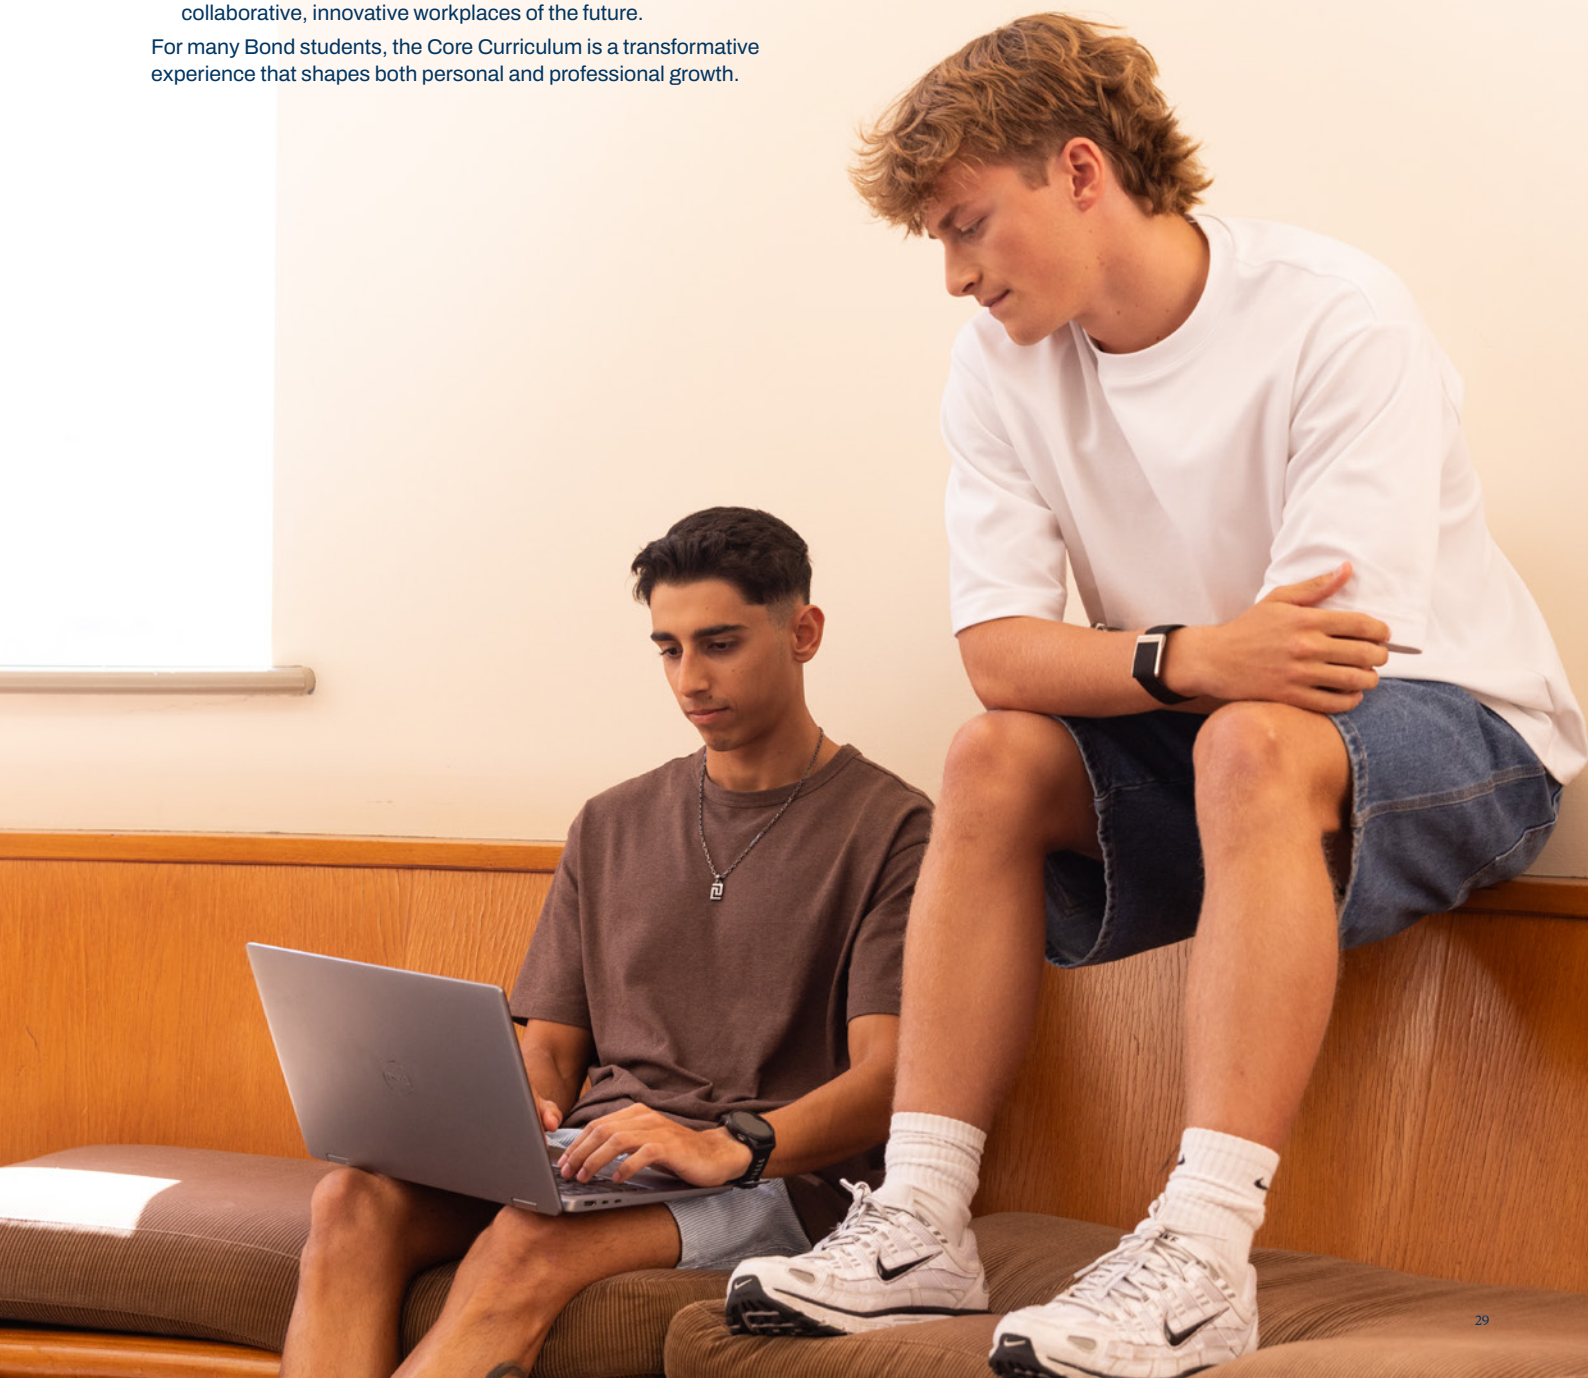

For many Bond students, the Core Curriculum is a transformative experience that shapes both personal and professional growth.

BEYOND BOND

It's never too early to start preparing for your career. Beyond Bond is a personalised professional development program that supports your transition from campus to career.

Engage in academic, professional, and co-curricular activities to build your employability and create a portfolio of experiences. Track your progress through a personalised dashboard and graduate with lifelong access to your record of achievements.

Integrated with your degree, Beyond Bond helps shape your story of experience, capability, and career confidence.

Your degree decoded

ENTRY REQUIREMENTS

Admission to a bachelor's degree is based on high school academic results (ATAR, IB or equivalent) or on the completion of a recognised pathway program.

BACHELOR'S DEGREES

A bachelor's degree is an undergraduate award of 24 subjects which is commonly the entry qualification required for many professions or further study. Most subjects have a value of 10 credit points (cps).

Ultimately, successfully completed subjects will need to total 240cps for a standard bachelor's degree. Exceptions include the Bachelor of Laws and the Medical Program^.

PREREQUISITES

Some Bond University programs require students to have completed specific subjects, known as prerequisites, to be eligible for entry. These may have been completed in high school or a pathway program such as a diploma. Please refer to individual program listings for more information.

DIPLOMAS

Diplomas are non-degree offerings. A diploma can also be completed as a pathway for students who do not meet the academic requirements for direct entry into their chosen bachelor's degree.

MAJORS, MINORS AND DOUBLE MAJORS

A major is a cluster of six subjects selected from one area of specialisation, a minor is four subjects, and a double major is 12 subjects. Depending on your program, a major, minor or double major can provide an opportunity to pursue a complementary interest area.

^ The Medical Program is comprised of two sequential degrees -— the Bachelor of Medical Studies and the Doctor of Medicine. Applications for the Medical Program must be lodged through QTAC.

~ Diploma programs provide an admission pathway for a number of our bachelor's degrees. Please refer to page 92 for more details.
* Entrance scores are only indicative and are subject to change for 2027 entry. Applicants will require a comparable score to be considered for admission into our bachelor's programs. Applicants who do not meet this minimum entry score will instead be considered for admission into a Bond University College pathway program. In addition to our minimum admission requirements, some of our bachelor's programs may require a higher minimum entry score, the successful completion of subject prerequisites, and/or additional selection criteria relevant to that specific program. 'IB' refers to a score granted upon completion of the International Baccalaureate (IB) Diploma program.
** Students with a minimum ATAR of 65 may be considered for admission based on the merit of their portfolio.
° Prerequisites are required for entry into these programs. Please refer to individual program listings for details.
^ The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies and the Doctor of Medicine. Applications for the Medical Program must be lodged through the Queensland Tertiary Admissions Centre (QTAC).

ACTUARIAL SCIENCE & DATA ANALYTICS

Bachelor of Actuarial Science

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
90/32	Jan, May, Sep	6 semesters (2 years)	$18,400

CRICOS course code 083205M

Use your love of crunching numbers to evaluate financial risk and create practical solutions for real-world problems with Bond's Bachelor of Actuarial Science.

The diverse skillset acquired in this program will equip you with the tools to analyse and manage risks of all types and develop techniques for the effective use of quantitative information to influence and improve business decision making.

Accredited by the **Actuaries Institute**, Bond's Bachelor of Actuarial Science will not only prepare you for a job that is in high demand, but also develop a knowledge base drawing from the core fields of mathematics, probability, programming, finance, economics, and data science that can be transferred across numerous industries and disciplines.

As a Bond Business School student, you will have exclusive access to facilities including the Bond FinTech Hub which provides the opportunity to gain a Bloomberg certification, while you can extend your data analytics knowledge with access to the advanced computing environment of the Centre for Data Analytics and its experts in this field.

Maths B is a compulsory entry requirement for this degree.

KEY FEATURES

- Study at one of seven universities in Australia and the only university in Queensland to be accredited by the Actuaries Institute.
- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.
- This program provides Part 1 (Foundation Program) accreditation by the Actuaries Institute.

MAJORS / MINORS

- Accounting
- Data Analytics
- Economics
- Entrepreneurship and Innovation
- Finance
- International Business
- Management
- Marketing Communication
- Marketing
- Tourism and Hotel Management

PROFESSIONAL OUTCOMES

- Actuary
- Business analyst
- Data scientist

Bachelor of Actuarial Science (Honours)

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
See above ^	Jan, Sep	2 semesters (8 months)	$23,150

CRICOS course code 086364E

The amount of data available to corporations is expanding rapidly and requires trained professionals to analyse this data and provide business insights. A Bachelor of Actuarial Science (Honours) will develop your skills for crunching numbers to create practical solutions for real-world problems.

The Bachelor of Actuarial Science (Honours) program is an 80 credit point, two-semester program of independent research and study culminating in the production of a research thesis and presentation of a research seminar. Students undertake a program of coursework and research in which they conceptualise, plan, organise, undertake, and report on an independent research project, whilst being supervised.

KEY FEATURES

- Study at one of seven universities in Australia and the only university in Queensland to be accredited by the Actuaries Institute.
- The Honours program provides an opportunity to complete the university-based component of Part 2 actuarial accreditation.
- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.

^ To be considered for entry, students must achieve an average minimum score of Credit in a relevant undergraduate degree.

Bachelor of Data Analytics	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 116378B	70/25	Jan, May, Sep	6 semesters (2 years)	$18,400

Technological change is constantly transforming business models, making professionals who can gather data, analyse numbers, and use data-driven insights to enhance decision-making highly sought after. Bond's Bachelor of Data Analytics equips students with the analytical skills and modern techniques, including R and Python programming, to drive business decisions across a wide range of industries.

The program's flexible structure allows students to specialise in key areas such as accounting analytics, economic modelling, health system analytics, marketing analytics, psychometrics, quantitative finance, or sport analytics. As a Bond Business School student, you will have exclusive access to state-of-the-art computing facilities at the Centre for Data Analytics, where you'll work alongside experts in the field. Additionally, the program culminates in a capstone group project, allowing students to apply their skills to real-world industry data from sectors such as healthcare, insurance, finance, and more, ensuring they graduate ready to make an impact in their chosen fields.

MAJORS

- Accounting Analytics
- Economic Modelling and Analysis
- Health System Analytics
- Marketing Analytics
- Psychometrics
- Quantitative Finance
- Sport Analytics

PROFESSIONAL OUTCOMES

- Business analyst
- Data scientist
- Statistical consultant

Postgraduate study

Bond Business School also offers a range of postgraduate programs in actuarial science and data analytics.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Actuarial Practice	Jan, May, Sep	6 semesters (2 years)	$17,197	108630F
Master of Actuarial Science	Jan, May, Sep	4 semesters (1 year 4 months)	$17,145	108628M
Master of Actuarial Science (Specialisation)	Jan, May, Sep	6 semesters (2 years)	$17,168	108629K
Master of Data Analytics	Jan, Sep	4 semesters (1 year 4 months)	$16,975	116380H

* Entrance scores provided are indicative only for 2027 admission and are subject to change.

** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**.
Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

ARCHITECTURE

Bachelor of Design in Architecture	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101291	75^/26	Jan, May, Sep	6 semesters (2 years)	$18,400

Architects are responsible for envisioning and creating the world around us, from the smallest of dwellings through to complex megacities. The Bachelor of Design in Architecture provides a broad education in design, planning, construction, technology, and communication in a creative studio-based environment. Students are encouraged to grow their design skills through a hands-on approach to the curriculum and access to state-of-the-art digital tools.

This program provides the foundation for careers in a range of design and creative practice fields, with a specialisation in the discipline of architecture. To practise as an architect in Australia, graduates must complete further study.

KEY FEATURES

- Use state-of-the-art technology including 3D printers, laser cutters, CNC routers, and industrial robots.
- Study in small classes and receive your own desk for the duration of your studies.
- Learn from industry-leading architects through tutorials, critiques, competitions, and the Architecture Lecture Series.
- Immerse yourself in our collaborative studio culture and participate in the annual Design Charrette.
- Gain theoretical and practical experience in design, problem solving, construction, and communication that can be applied to a wide range of careers.

FURTHER STUDY

- Graduate Diploma in Architecture (CRICOS 0101412)
- Master of Architecture (CRICOS 078184J)

PROFESSIONAL OUTCOMES

- Architectural drafting
- Building design
- Interior and spatial design
- Project architecture
- Urban planning
- Virtual environment design
- Web and graphic design

Postgraduate study

To become a registered architect, you are required to complete both an undergraduate and postgraduate qualification as well as requisite work experience. Graduates of the Bachelor of Design in Architecture program may progress to the Master of Architecture (CRICOS 078184J) upon application and review of undergraduate performance. However, entry to the Master of Architecture is not automatic.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Architecture	Jan, Sep	4 semesters (1 year 4 months)	$22,973	078184J
Graduate Diploma in Architecture	Jan, May	2 semesters (8 months)	$22,210	0101412

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
^ Students with a minimum ATAR of 65 may be considered for admission based on the merit of their portfolio.

Shaping a city

THE EVOLVING ARCHITECTURE OF THE GOLD COAST

From the first beach bars to iconic cultural venues, the city's buildings trace its transformation — and Bond University is part of the story.

For much of its history the Gold Coast has been a holiday playground, a place defined by sun, surf and escape. But with a population closing in on one million, it has developed a community and culture that extends beyond transient visitors. That evolution is reflected in the city's architecture which has shifted from tourism-focused designs to buildings that serve residents, culture and civic life, while maintaining the city's sense of openness and fun.

This is an extract from a story by Associate Professor Dr Elizabeth Musgrave of the Abedian School of Architecture.

Finding a home away from home

KRISTINA LANGDON
BACHELOR OF BUSINESS

"Coming from an international school overseas, I wanted to choose a university that felt welcoming and offered opportunities to grow. Bond has exceeded my expectations, not just academically, but socially. Living on campus and meeting friends who share similar goals has made the transition to university so much easier and a lot more fun. These friendships keep me motivated, help me stay on track, and make me feel at home."

Bachelor of Commerce

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063059D	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The global business environment is ever-changing and increasingly complex. The new economy and the way of working needs skilled professionals with the ability to think creatively and critically, problem-solve, communicate professionally, work collaboratively, and make ethical and responsible business decisions.

The Bachelor of Commerce will set you up for an influential professional career where the application of specialist skills in accounting, actuarial science, data analytics, economics, or finance is critical in solving real-world challenges.

Through experiential learning and authentic assessment tasks, you will develop practical, real-world skills to adapt and add value in today's dynamic and competitive business environment. Whatever major you choose, this program's rigorous and relevant curriculum will help you develop practical, real-world skills to adapt and add value in today's dynamic and competitive business environment.

Commerce students have unparalleled access to facilities including the Bond FinTech Hub, which houses 40 Bloomberg terminals, the most of any university in Australia.

KEY FEATURES

- Gain an internationally recognised Bloomberg certification used in the finance and banking sectors.
- Complete an optional business internship as an elective subject.

MAJORS / MINORS

- Accounting
- Actuarial Science
- Data Analytics
- Economics
- Finance

PROFESSIONAL OUTCOMES

- Stockbroker
- Management accountant
- Auditor
- Data analyst
- Finance specialist
- Economist

Bachelor of Enterprise Artificial Intelligence

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 119365E	70 / 25	Jan, May, Sep (2027)	6 semesters (2 years)	$18,400

Do you want to shape the future of business with Artificial Intelligence (AI)? The Bachelor of Enterprise Artificial Intelligence is an innovative degree that blends computer science, business strategy, and applied AI tools. Designed for the next generation of digital leaders and entrepreneurs, this program equips you with the technical capabilities and commercial acumen to design, implement and manage AI-driven business solutions.

From programming and data management to enterprise systems and digital strategy, you'll learn how to apply AI across business functions such as finance, marketing, operations, and strategy. With an emphasis on real-world problem solving, ethical considerations, and innovation, graduates will be prepared to lead organisations through the era of digital transformation.

This unique program bridges the gap between traditional computer science and business degrees, making it ideal for students who want to combine technical foundations with enterprise-level applications of AI.

KEY FEATURES

- Hybrid curriculum combining computer science, data analytics, and business strategy.
- Hands-on learning through applied projects, including a capstone enterprise AI project.
- Strong foundations in programming, databases, algorithms, and AI/ML toolkits.
- Industry-focused subjects in digital transformation, business intelligence, and technology consulting.
- Accelerated two-year structure through Bond's three-semesters-per-year model.
- Delivered in small classes with personalised mentoring from expert academics.

PROFESSIONAL OUTCOMES

- Business analyst with AI capability
- Digital transformation consultant
- AI business solutions architect
- Enterprise systems specialist
- Business intelligence analyst
- Software product manager
- Technology start-up founder (AI/B2B applications)

Bachelor of Entrepreneurial Transformation

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 107658B	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

Innovation is reshaping every industry, and the future belongs to those who can lead it.

Employers are looking for graduates with skillsets that can be applied across multiple sectors. They want graduates who are nimble enough to think on their feet, devise creative solutions, and turn challenges into opportunities.

The Bachelor of Entrepreneurial Transformation offers students an immersive and transdisciplinary learning experience, drawing knowledge from multiple faculties, study disciplines, industry and community, to create graduates who can navigate complexity, drive innovation, and create impact.

The Bachelor of Entrepreneurial Transformation can be combined with either the Bachelor of Laws (CRICOS 093922K) or Bachelor of Global Studies (Sustainability) (CRICOS 078186G).

KEY FEATURES

- Apply skills, knowledge, and language to entrepreneurial mindsets across multiple sectors in the face of rapid and persistent technological change.
- Build your network through two dedicated industry immersions and tailored mentorship from professionals committed to the program's unique transdisciplinary and experiential approach. Complete a major project with real-world impact across two semesters in Global Challenges 1 and 2 (available exclusively to Transformation Degree students).
- Customise your degree to align with your career goals with an optional minor.

MAJORS

- Advertising
- Cyber Security
- Digital Media
- Entrepreneurship and Innovation
- Global Studies
- Health Transformation
- Legal Transformation
- Marketing Communication
- Marketing
- Social Media (Communication)
- Sustainability

PROFESSIONAL OUTCOMES

- Business development consulting
- Business transformation
- Community development
- Digital or social media marketing
- Industry disruption and innovation
- Intrapreneurship
- Program, project or partnerships management
- Public policy advocacy and development
- Start-up entrepreneurship

Bachelor of International Hotel and Tourism Management

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063584E	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

With more than 12 million visitors annually, there is no better place to study hotel and tourism management than the Gold Coast, the tourism capital of Australia.

Bond's Bachelor of International Hotel and Tourism Management will prepare you for professional and managerial roles in the global tourism and hotel industries. You will develop the knowledge and skills required by managers in modern hospitality and tourism businesses with special emphasis on hotel, tourism and event operations, sustainable tourism, tourism industry analysis, revenue management, and human resource management.

Benefit from working in small supportive groups with dedicated teachers who bring international academic and industry experience to the classroom.

In this degree there is an emphasis placed on practical and experiential learning through field trips, industry experience, internships which can be taken concurrently during your studies, and real-life case studies.

KEY FEATURES

- Undertake industry projects and internships with international tourism organisations like Marriott, Accor, Hilton, InterContinental, and Wyndham.
- Receive personal mentorship through the Bond Business Mentoring program, where you will be supported by a network of academic staff, senior students, and alumni.
- Benefit from working in small groups with dedicated teachers who bring a wealth of international experience to the classroom.
- Enjoy unrivalled access to state-of-the-art learning resources including the Bond FinTech Hub, Commercialisation Centre, Centre for Data Analytics, and Transformer.

MAJORS / MINORS

- Entrepreneurship and Innovation
- International Business
- Management
- Marketing
- Marketing Communication

PROFESSIONAL OUTCOMES

- Event management
- Guest experience management
- Revenue management
- Venue and facilities management

Bachelor of Sport Management

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 096558A	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

Whether you're an elite athlete, a casual competitor, or a keen spectator, you can turn your love of sport into a dream career with Bond's sport-focused degrees. This is the perfect chance to position yourself for a role at the 2032 Brisbane Olympic Games!

A Bachelor of Sport Management combines the core business fundamentals of management, marketing, negotiation, and human resources, with sports-specific skills in event management, sponsorship, public relations, governance, and sports law.

Studying sport management at Bond Business School is a dynamic, hands-on experience, working in small, personalised classes with teachers who know the business of sport from the inside. They don't like being confined to the classroom any more than you do and will have you working on events, with local and national sport organisations, with high-performance athletes and professional sporting teams.

You will get the best of both worlds as a Bond Business School student, with access to the Centre for Data Analytics, the Bond Business Mentoring Program and Transformer.

With Bond's accelerated three-semesters-per-year timetable, you can complete the Bachelor of Sport Management in just two years (6 semesters).

KEY FEATURES

- Practical experience on and off campus through internships, work placements and event volunteering. Gain exposure to national and international sporting organisations such as Australian rules football, the rugby codes, the World Surf League, and a variety of Olympic and other sports based on the Gold Coast.
- Learn from experienced academics and industry practitioners from a diverse range of sporting and business backgrounds.

PROFESSIONAL OUTCOMES

- Commercial partnerships
- Sport development
- Sport marketing
- Community sports

Diploma of Business

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 078663E	50	Jan, May, Sep	2 semesters (8 months)	$18,400

The Diploma of Business equips students with a broad foundation for further study in business, or to begin work in the corporate sphere. Skills covered include managing teams, leadership, group communication, conflict resolution, problem solving, individual and group decision making, information management, and ethics.

Throughout the Diploma of Business, you'll learn in supportive classes as you develop these skills. Once complete, the transition from the Diploma of Business to the third semester of a relevant bachelor's degree at Bond is a seamless one, as you will have a strong understanding of the University and be a core part of our community.

KEY FEATURES

- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into the third semester of an approved Bond undergraduate degree.

FURTHER STUDY

Successful completion of the Diploma of Business guarantees you a place in an approved Bond University bachelor's degree with 80 credit points towards your new program. The Diploma of Business can also be used as a pathway into other non-cognate bachelor's degrees with varying credit available.

Postgraduate study

Through the Bond Business School, students can go on to study a range of postgraduate programs in business, management, accounting, finance and more.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Accounting	Jan, May, Sep	4 semesters (1 year 4 months)	$16,890	063115A
Master of Business Administration (MBA)	Jan, Sep	4 semesters (1 year 4 months)	$17,428	108627A

Bean there, done that

Since 2019, Jim Chapman's Nice Coffee Co has lifted Kenyan families out of poverty — an idea born during an assignment at Bond University.

Profits from every kilo of Nice Coffee help support the education of kids from Africa's largest slum, Kibera. Jim has grown the fledgling business into a successful social enterprise.

"We're funding around 14 full-time teachers' salaries through the coffee and around 32 kids from the slum on scholarships to some of Kenya's best high schools," Jim says.

He eventually handed the company over to local partners, ensuring they were set up for success.

The power of social enterprise hit home for Jim when he took part in Bond's Transformer Program, an Australian-first entrepreneurship program that supports students with starting their own business or initiative.

"I can pinpoint the day — we had this guest speaker at Transformer who was a well-known social entrepreneur from West Africa and I remember hearing him talk about how business can deliver social impact."

Jim's latest venture is running safari tours from his family's Ololo Safari Lodge on the edge of Nairobi National Park.

He's now looking for ways to invigorate an industry he says has changed little over the years.

"Down the track, it would be fun to get into the tech scene here, which is big," he says.

"There is actually a lot of talent here in Nairobi, they call it the Silicon Savannah."

Bachelor of Film and Television

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063066E	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Film and Television is a profoundly interactive and project-based degree that blurs the boundaries between education and industry. Designed to balance practical filmmaking experience with creative theory, it encourages students to develop their technical expertise and artistic voice. This comprehensive program focuses on visual storytelling through key areas like producing, screenwriting, directing, cinematography, editing, sound design, production design, and television broadcasting.

Students acquire modern production skills using professional filmmaking equipment and technologies. They develop strong visual aesthetics and storytelling capabilities and gain insight into the business and industrial workings of the global film, television, and screen sectors.

KEY FEATURES

- Learn from academics with extensive professional careers in the film, television, and screen-based industries.
- Hone your skills using modern film and television equipment and facilities from day one of your studies.
- Gain industry experience through internships, work experience, competitions, and more.
- Benefit from opportunities to work on live broadcast events and projects.
- Access cutting-edge virtual production technologies and learn to design interactive VR and AR experiences.

SPECIALISATIONS

- Cinematography
- Directing (Fiction)
- Directing (Non-Fiction)
- Editing (Fiction)
- Production Design
- Screen Studies
- Screenwriting
- Virtual Production

- Virtual production

Bachelor of Digital Transformation	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 107660H	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The greatest evolution of recent decades is the digital landscape. From robotics to AI agents and data mining, there is so much to be mastered within this space. Graduates of Bond's Bachelor of Digital Transformation will be uniquely prepared to face these challenges head-on and enact real change across industries.

This program fosters digitally fluent graduates with technical and non-technical capabilities, readying them to advise on, manage, and lead largescale projects. It combines discipline studies in digital transformation with transdisciplinary studies in design thinking, law, technology, and global citizenship; personalised industry immersions; and tailor-made major projects.

The Bachelor of Digital Transformation can be combined with the Bachelor of Laws (CRICOS 111521G).

KEY FEATURES

- Demonstrate increased personal and organisational digital maturity across more than 50 digital capabilities and explore professional development and certification opportunities.
- Build your network through two dedicated industry immersions and tailored mentorship from professionals committed to the program's unique transdisciplinary and experiential approach.
- Complete a major project with real-world impact across two semesters in Global Challenges 1 and 2 (available exclusively to Transformation Degree students).
- Customise your degree to align with your career goals with an optional minor.

MINORS

- Advertising
- Cyber Security
- Digital Media
- Entrepreneurship and Innovation
- Global Studies
- Health Transformation
- Legal Transformation
- Marketing Communication
- Marketing
- Social Media (Communication)
- Sustainability

PROFESSIONAL OUTCOMES

- AI leadership
- AI process automation
- Business intelligence and transformation
- Consulting
- Cyber security analysis or management
- Digital or social media marketing
- Industry disruption and innovation
- Intrapreneurship
- Start-up entrepreneurship

Manny with Head of Film, Screen and Creative Media, award-winning screenwriter and member of the British Academy of Film and Television Arts (BAFTA), Dr Darren Paul Fisher.

Lights, camera, action

EMMANUEL KAYONDO
BACHELOR OF FILM AND TELEVISION

Emmanuel "Manny" Kayondo was completing Year 12 at Palm Beach Currumbin State High School when he attended Bond's Open Day. From that moment, he says choosing Bond was a "no-brainer".

"I was really inspired by the students I met. I could see the course was extremely hands-on and focused on getting students into the field, not stuck in classrooms," says Manny.

Now in his final year of film and television, Manny is about to enter the workforce with aspirations of becoming a feature film director.

"The film program allows you to experiment with your interests and passions, it's a really safe space for you to learn and grow," he says.

"I'm passionate about screenwriting, as well as commercial and music video directing, but my ultimate ambition is to make films that people will see on screen."

Manny counts the connections he's made with teachers, peers and alumni as a highlight of his time at Bond.

"The connection I have with my peers drives me every day — one of my friends has already developed a career and niche in motorsports videography.

"Studying alongside talented people is a huge motivator for me and I'm grateful to be among them and learn from such different people from different backgrounds. It inspires me to be the best version of myself — iron sharpens iron."

Bachelor of Journalism

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063077B	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Journalism is a digital-first program grounded in the core journalistic values of truth, fairness, and accuracy. This approach empowers students to harness established and emerging technologies to create career opportunities that align with today's modern journalistic landscape.

Throughout the Bachelor of Journalism, you will conceptualise and create original, compelling content across platforms, using digital storytelling to engage with social issues and advocate for change. You'll build a strong portfolio of practical work to equip you for future opportunities, and in the process, build a secondary skillset through your choice of relevant majors or minors.

KEY FEATURES

- Access tailored study opportunities with a choice of 20 specialist majors.
- Report for local, national, and international media outlets.
- Apply for journalism and digital media internships in Australia and abroad.
- Learn practical and relevant skills from experienced industry professionals.
- Enjoy an enhanced learning experience through small classes and accelerated degree options.

Diploma of Arts

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101729	50	Jan, May, Sep	2 semesters (8 months)	$18,400

The Diploma of Arts leads into a wide range of career and further study opportunities in disciplines including communication, creative arts, film and television, global studies, humanities, international relations, journalism and psychological science. This foundational program teaches students the core skills to enhance their career prospects, whether they are fresh out of school or are seeking to upgrade their qualifications.

KEY FEATURES

- Transition directly into the third semester of more than a dozen undergraduate degrees offered by the Faculties of Business, Law and Society & Design.
- Benefit from the extensive support of our Academic Skills Centre, including one-on-one tutoring and workshops.
- Customise your study load, starting with one or two subjects part-time and building to full-time study as your confidence grows.
- Get all the help you need in our small, personalised classes.

FURTHER STUDY

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points towards their new program. Students are advised to check their chosen degree's study structure online to confirm which subjects they can receive credit for.

Diploma of Creative Design	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 105412G	50	Jan, May, Sep	3 semesters (1 year)	$13,800

Bond's Diploma of Creative Design provides students with a grounding in various creative practices and processes that will empower them to take on further study. During your studies, you'll learn the core skills needed to thrive in today's creative careers, across disciplines including communication, creative arts, film and television, global studies, humanities, international relations, and journalism. Diploma of Creative Design graduates may articulate directly into the third semester of an approved Bond University bachelor's degree.

KEY FEATURES

- Complete your diploma in just one year.
- Integrate into the Bond University environment from day one of your studies.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into the third semester of an approved undergraduate degree at Bond.

FURTHER STUDY

Upon successful completion of the Diploma of Creative Design, you can pathway into a related Bond University undergraduate degree with a possible 90 credit points^. Students are advised to check their chosen degree's study structure online to confirm which subjects they can receive credit for.

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**.
Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

CONSTRUCTION, PROPERTY & PLANNING

Bachelor of Construction Management and Quantity Surveying

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 078183K	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Construction Management and Quantity Surveying will prepare you for a dynamic career shaping the built environment. As cities grow and construction projects become increasingly complex, the industry demands professionals who can balance innovation, efficiency, and sustainability.

This is a comprehensive program that explores every stage of the construction process, from planning and design to delivery and management. The curriculum addresses key topics such as construction technology, site and project management, contract administration, building measurement, and risk assessment. You will gain the technical knowledge and practical experience needed to deliver successful projects and lead with confidence in an evolving global industry.

KEY FEATURES

- Fast-track your career in one of Australia's largest professional sectors, with major infrastructure and construction projects underway ahead of the 2032 Brisbane Olympic Games.
- Learn from leading academics and active industry professionals, who can provide valuable networking opportunities and career guidance.
- Gain exclusive access to the ADCO x Bond Mentor Excellence Program, offering top-performing students personalised industry mentoring.
- Graduate with a nationally accredited and internationally recognised professional qualification.
- Apply theoretical knowledge learnt in the classroom to practical settings and real-world case studies.

PROFESSIONAL RECOGNITION

Graduates are internationally recognised by the Royal Institution of Chartered Surveyors (RICS) and the Chartered Institute of Building (CIOB). This program is nationally accredited with the Australian Institute of Quantity Surveyors (AIQS), and meets the educational requirements set by the Queensland Building Construction Commission (QBCC) for the granting of an Open Builders Licence.

FURTHER STUDY

- Master of Building Surveying (CRICOS 071287C)
- Master of Project Management (CRICOS 078813G)
- Master of Valuation and Property Development (CRICOS 085561G)

PROFESSIONAL OUTCOMES

- Building services
- Construction management
- Contract administration
- Estimation
- Property development
- Quantity surveying

Diploma of Built Environment

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 098537A	50	Jan, May, Sep	2 semesters (8 months)	$18,400

The Diploma of Built Environment provides an excellent foundation for a career or further study in the property and building sectors. Integrated with the broader Bond community from day one, diploma students enjoy access to additional support, and upon successful completion of their program, can articulate directly into a related Bond degree. Diploma of Built Environment students may specialise in either property or construction management and quantity surveying.

KEY FEATURES

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into a corresponding Bond undergraduate program^.

FURTHER STUDY

The Diploma of Built Environment is a two-semester program that allows you to complete a qualification in just eight months. Upon successful completion of the diploma, you can pathway into the third semester of a Bond University undergraduate degree with a potential 80 credit points.

Bachelor of Property	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 078181A	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Property will prepare you for a rewarding career in one of the world's largest and most influential industries. With evolving markets, advancing technology, and growing demand for sustainable development, property professionals play a vital role in guiding investment, development and growth.

This program covers the full spectrum of the property sector, building skilled, agile graduates with the right knowledge and attributes to succeed in this rapidly changing industry. The curriculum explores construction practices, feasibility studies, finance, investment, valuation, property markets, sustainable and urban development, with the opportunity to specialise in property valuation. You will develop the practical and analytical skills needed to make informed decisions, and graduate ready to excel across a wide range of professional pathways.

KEY FEATURES

- Bond's property programs are professionally recognised by leading national and international accrediting bodies.
- Learn from seasoned professionals and leading academics who bring the latest trends, knowledge and industry practices into the classroom.
- Build practical skills through field trips, case-based capstone projects, interactive computer labs, and guest lectures delivered by leading industry professionals.
- Be industry-connected from day one, with a curriculum that has a strong focus on employability and networking.
- Graduate sooner with Bond's accelerated degrees and kickstart your property career.

PROFESSIONAL RECOGNITION

The Royal Institution of Chartered Surveyors (RICS) and the Australian Property Institute (API) recognise graduates of Bond's Bachelor of Property as academically qualified. Graduates are then eligible to apply to be professionally recognised by RICS and by the API as Registered Valuers and as Certified Practising Valuers respectively, after a relevant professional practice period. These qualifications enable application for valuer registration by the Valuers' Registration Board of Queensland (VRBQ).

FURTHER STUDY

- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

- Acquisition management
- Asset management
- Certified property valuation
- Development management
- Land valuation
- Portfolio management
- Property consulting
- Property development
- Property finance
- Property research and analysis

Postgraduate study

After your undergraduate study is complete, Bond offers a range of postgraduate study options for you to specialise and further develop your skills and knowledge.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Building Surveying	Jan, May, Sep	4 semesters (1 year 4 months)	$17, 488	071287C
Master of Construction Practice	Jan, May, Sep	4 semesters (1 year 4 months)	$17,435	071288B
Master of Valuation and Property Development	Jan, May, Sep	4 semesters (1 year 4 months)	$17,400	085561G
Graduate Certificate in Environmental Consulting	May	2 semesters (8 months) Available for part-time study only	$23,270 (total program fee)	N/A

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
^ Please get in touch with the Office of Future Students for advice on approved pathways.

HEALTH, BIOMEDICAL & SPORTS SCIENCES

Bachelor of Biomedical Science	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063085B	80 / 28	Jan, May	6 semesters (2 years)	$18,400

Biomedical science is the interface between science and medicine and forms the backbone of advances in medicine and healthcare. Bond's Bachelor of Biomedical Science offers a pathway to further study and ultimately, practice, in these disciplines. Throughout your degree, you will develop an understanding of the human body's fundamental processes and analyse case studies and apply problem-solving techniques in a variety of clinical, research and allied healthcare settings.

With Bond's accelerated timetable, you can complete the Bachelor of Biomedical Science in just two years and progress into your chosen postgraduate health sciences program. This program is based primarily at Bond's main campus, with some subjects taught at the Bond Institute of Health & Sport at Robina.

KEY FEATURES

- Undertake the fastest pathway to a postgraduate qualification in physiotherapy, occupational therapy, nutrition and dietetics, healthcare innovations, or medical research.
- Receive unrivalled access to laboratories and personal support from dedicated staff.
- High achieving graduates may be eligible to apply to enter Year 2 of the Bond Medical Program.
- Learn in a dynamic, interactive environment using virtual reality and augmented reality technologies.

ENTRY REQUIREMENTS

- English
- Either Mathematical Methods or Physics or equivalent

MAJORS / SPECIALISATIONS

- Laboratory / Research
- Pre-Health Professional

FURTHER STUDY

Bachelor of Biomedical Science graduates who meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

Domestic and international students eligible to graduate from the Bond University Bachelor of Biomedical Science (in the Pre-Health Professional major) who meet the GPA requirements will be eligible to be considered for lateral entry into Year 2 of the Bachelor of Medical Studies (CRICOS 0101292) at Bond.

High-achieving students may qualify to complete one of our two Honours programs: the Bachelor of Health Sciences (Honours) (CRICOS 063044M) or Bachelor of Health Sciences (Honours, Intensive) (CRICOS 108815H). Completing one of these Honours programs is a prerequisite for entry into Higher Degree by Research programs.

PROFESSIONAL OUTCOMES

- Clinical research
- Laboratory management
- Medical research
- Pathology
- Research science

Bachelor of Exercise and Sports Science

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 080641D	70 / 25	Jan	6 semesters (2 years)	$18,400

Bond's Bachelor of Exercise and Sports Science looks at the science of human movement and how it relates to high-level sport performance. It dives deep into topics including human anatomy, physiology, exercise prescription and delivery, skill acquisition, biomechanics, and exercise and sport psychology.

Throughout your studies, you will gain 140+ hours of practical placement experience providing athletic testing, performance analysis, exercise prescription and delivery for athletes and non-athletes. Delivered primarily at the Bond Institute of Health & Sport, you'll also enjoy opportunities to observe and work with athletes and sporting teams that use the world-class facilities.

! PLEASE NOTE THIS PROGRAM IS EXPECTED TO UNDERGO CHANGES IN 2027.

ENTRY REQUIREMENTS

- English
- General Mathematics (or higher) or equivalent
- One (1) of Chemistry, Physical Education, Physics or Biology

FURTHER STUDY

Students who complete the Bachelor of Exercise and Sports Science and meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

You may also undertake higher degree qualifications in areas such as strength and conditioning, exercise physiology and biomechanics through research-based postgraduate studies.

PROFESSIONAL OUTCOMES

- Education
- Health policy
- Heath programming
- Practice as an Accredited Exercise Scientist (AES)
- Research
- Sport and fitness

Bachelor of Health Sciences

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063068C	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The ideal foundation for further study in science or allied health, Bond's Bachelor of Health Sciences imparts the fundamentals of applied sciences alongside your choice of electives in fields like sport and exercise science, psychology, nutrition, biomedical science, or healthcare informatics. Develop your technical, scientific, and research skills through hands-on practical work in our state-of-the-art health science and human movement laboratories. Upon graduating, you will be prepared for a variety of opportunities in the healthcare sector, or to complete additional undergraduate or postgraduate studies to satisfy your career aspirations.

FURTHER STUDY

Students who complete the Bachelor of Health Sciences and meet the necessary entry requirements may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

High-achieving students may qualify to complete one of our two Honours programs: the Bachelor of Health Sciences (Honours) (CRICOS 063044M) or Bachelor of Health Sciences (Honours, Intensive) (CRICOS 108815H). Completing one of these two Honours programs is a prerequisite for entry into Higher Degree by Research programs.

PROFESSIONAL OUTCOMES

- Data science
- Health administration
- Healthcare
- Health promotion
- Laboratory management

* Entrance scores provided are indicative only for 2027 admission and are subject to change.

** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Ambition up close

JEMMA BLAIR
BACHELOR OF EXERCISE AND SPORTS SCIENCE
RIEWOLDT FAMILY AFL EXCELLENCE SCHOLAR

Jemma Blair was backpacking around Ho Chi Minh City when she dialled into a Teams call to interview for Bond's Riewoldt Family AFL Excellence Scholarship.

She got the scholarship and a few months later, Jemma moved to the Gold Coast to study exercise and sports science and play for the Bond Bull Sharks AFLW team under the tutelage of head coach Andy Lovell.

"I've always had a love for sport and have played as many different sports as I could throughout my childhood," says Jemma. "In Year 12, I studied sports science, which sparked a deeper passion to understand how the body works. I'm fascinated by what our bodies are capable of and how we can adapt and improve through training."

Before starting at Bond, Jemma heard about the opportunities, personal mentorship and networks available, and says the experience has lived up to its reputation.

"I've made many lifelong friends through my program and by being part of campus life and the AFL team," says Jemma.

"One of the most important relationships I've built has been with my AFL coach, Andy Lovell. He's instilled so much confidence in me, both as a player and as a person. I know he's someone who'll always be there, no matter what."

Through the semesters and seasons of Jemma's time at Bond, Andy has seen her become more confident, skilled, and even more organised.

"She juggles study, work, social life, sporting life, and being away from family, and she manages it all," says Andy. "It's incredible how much she takes on, and she remains calm through it all."

Bachelor of Health Sciences (Honours)

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063044M		Jan, May	3 semesters (1 year)	$13,800

Bond's Bachelor of Health Sciences (Honours) allows you to complement your undergraduate studies with a focused research project of your choice over a 12-month (three-semester) period. In this program, you must conceptualise, plan, organise, undertake, and report on an independent research project while being supervised by an academic staff member. The culmination of the Bachelor of Health Sciences (Honours) is an honours thesis and the presentation of a research seminar. As a graduate of this program, you will possess strong communication, analytical, critical thinking, and project management skills.

Bachelor of Health Sciences (Honours, Intensive)

	Selection rank ATAR / IB*	Starting	Duration	Total program fee**
CRICOS course code 108815H		May	2 semesters (8 months)	$41,400

Similar to the Bachelor of Health Sciences (Honours), this intensive program involves a focused research project in the health sciences, overseen by an academic staff member. It is accelerated into an intensive eight-month (two-semester) period of intensive research training and independent research and study. The culmination of this program is an honours thesis and the presentation of a research seminar. Upon completion of the Bachelor of Health Sciences (Honours, Intensive) you will be eligible to pathway into a research master's or PhD program.

FURTHER STUDY

The Bachelor of Health Sciences (Honours) and Bachelor of Health Sciences (Honours, Intensive) provide pathways to postgraduate study, typically the Master of Science by Research (Health Sciences) (CRICOS 073729K) or the Doctor of Philosophy (CRICOS 063150J).

PROFESSIONAL OUTCOMES

- Academia
- Health promotion
- Research and research assistance

Diploma of Health Sciences

	Selection rank ATAR	Starting	Duration	Fees per semester**
CRICOS course code 093260K	60	Jan, Sep	2 semesters (8 months)	$18,400

The Diploma of Health Sciences, delivered by Bond University College, is the perfect stepping stone to future undergraduate study in a health-related discipline. Select from two pathways — Biomedical Science (Pre-Health) and Exercise and Sports Science — and upon successful completion of your diploma, articulate directly into a relevant bachelor's degree.

Throughout the Diploma of Health Sciences, you'll develop key scientific skills, including an understanding of the anatomical, molecular, and physiological processes of human health and function. You'll also learn the core academic skills needed to succeed in the tertiary environment, such as essay writing, critical thinking, study techniques, time management, and more.

KEY FEATURES

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of small, personalised classes as well as access to our Academic Skills Centre, one-on-one tutoring, and workshops.

FURTHER STUDY

Successful completion of the Diploma of Health Sciences guarantees students a place in Bond's Bachelor of Health Sciences (CRICOS 063068C), Bachelor of Biomedical Science (CRICOS 063085B), or Bachelor of Exercise and Sports Science (CRICOS 080641D) with subjects credited towards their degree. The Diploma of Health Sciences is also a pathway into other bachelor's degrees with varying credit available.

Postgraduate study

Graduates of Bond's undergraduate programs* in health, biomedical and sports sciences can pursue postgraduate study in a range of allied health disciplines, as well as developing their interests and expertise in research or healthcare innovations.

	Starting	Duration	Fees per semester**	CRICOS course code
Master of Nutrition and Dietetic Practice	May	6 semesters (2 years)	$18,160	105326E
Master of Occupational Therapy	May, Sep	6 semesters (2 years)	$22,980	106625H
Doctor of Physiotherapy	May	6 semesters (2 years)	$24,720	111801K

* Provided the specific program prerequisites are completed.

Bond University Health and Wellness Clinic

Based at the Bond Institute of Health and Sport, the Bond University Health and Wellness Clinic is an interdisciplinary teaching clinic offering services in psychology, physiotherapy, nutrition and dietetics, and occupational therapy.

The clinic provides specialised teaching and training for Bond University students and our partners while offering a range of therapeutic and rehabilitative services to the Gold Coast community.

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**.
Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

INTERNATIONAL RELATIONS, POLITICS & ARTS

Bachelor of Arts	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063052M	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Arts is a generalist program that allows you to select a combination of subjects to best suit your interests and aspirations. It offers flexibility in your choice of majors, with the opportunity to either specialise in a particular area of study or to select multiple complementary majors.

Perfect for globally minded students with a passion for understanding people, cultures, and the forces shaping our world, the Bachelor of Arts is a dynamic and adaptable program that will set you up for success.

KEY FEATURES

- Tailor your subjects and major options across international relations, politics, global studies, humanities, and the arts to suit your interests and career goals.
- Learn from leading academics, researchers, and industry professionals who bring real-world experience and global insights to the classroom.
- Enjoy small, discussion-based classes focused on diplomacy, negotiation, strategy, policy, and climate change.
- Connect with international networks and opportunities through the Bond University United Nations Student Association (BUUNSA), Model United Nations conferences, and global forums.
- Develop versatile skills for careers in diplomacy, policy, advocacy, government, NGOs, media, and more.

MAJORS / SPECIALISATIONS

- Advertising
- Advertising Design and Production (double major)
- Cinema Journalism (double major)
- Communication
- Corporate Storytelling
- Criminology
- Cyber Security
- Digital Media
- Film and Television
- Global Studies (Sustainability)
- International Relations
- Journalism (double major option available)
- Media Studies
- Philosophy
- Psychology (double major option available)
- Public Relations
- Social Media

FURTHER STUDY

- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Communication (CRICOS 078660G)
- Master of Laws (CRICOS 084235G)
- Master of Philosophy (CRICOS 072092F)
- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

The Bachelor of Arts program prepares students to succeed across a wide range of professional pathways, from international relations and diplomacy to communications, sustainability and cultural analysis. Graduates can pursue diverse opportunities depending on their chosen major or area of specialisation.

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
~ This program is not available to students on an international student visa.

Bachelor of Global Studies (Sustainability)

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 078186G	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Global Studies (Sustainability) prepares you to lead change in an increasingly interconnected and environmentally conscious world. This unique interdisciplinary degree combines global perspectives with practical skills to help you tackle the complex challenges of globalisation and sustainable development.

You will explore major world issues and megatrends, including climate change, global health and disease, sustainable trade and business, and international governance. The program focuses on developing essential competencies in international relations, diplomacy, and intercultural partnerships and collaboration. Graduates will emerge as active global citizens, equipped to contribute to the creation of resilient, sustainable societies.

KEY FEATURES

- Examine the global forces shaping our future, such as climate change, sustainable development, global health, and transnational business.
- Tailor your degree to your interests by selecting a specialist major that aligns with your career goals.
- Gain practical experience and build professional connections through a for-credit internship or capstone project.
- Learn from academics and professionals with expertise in sustainability, diplomacy, and international relations.
- Graduate with the skills and perspective to drive meaningful change across diverse sectors, including policy, agriculture, trade, and community development.

MAJORS / SPECIALISATIONS

- Cyber Security
- Digital Media
- Global Business
- International Relations

FURTHER STUDY

- Graduate Certificate in Environmental Consulting~
- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Laws (CRICOS 084235G)
- Master of Philosophy (CRICOS 072092F)
- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

- Agricultural management
- Community development
- Conservation
- Defence policy
- Environmental policy and consulting
- Ethical supply chain management
- Global diplomacy
- Government policy
- Human rights advocacy
- International development
- Policy management
- Public service
- Sustainable development

Bachelor of International Relations

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063074E	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

In an increasingly interconnected world, understanding the forces that shape relations between nations is essential to building a stable and sustainable global future. As regional and global interdependence deepens, prosperity and security rely on strong international cooperation and informed leadership.

The Bachelor of International Relations equips you with the knowledge and skills to analyse complex global challenges through the lens of politics, economics, and diplomacy, both in Australia and abroad. You will explore key themes in governance, human security, and cross-cultural relations, and develop the tools to influence policy, foster collaboration and lead meaningful change across government, NGOs, and international organisations.

KEY FEATURES

- Participate in world-class Model United Nations experiences, gaining hands-on skills in diplomacy, negotiation, and leadership.
- Join the International Summitry Program and take part in global conferences and simulations in destinations such as Japan and New York.
- Build global networks and professional experience through international internships, study tours, and partnerships.
- Gain deep insight into politics, economics and diplomacy in both Australian and international contexts.
- Learn from leading academics and industry experts with backgrounds in foreign policy, strategic analysis, and global governance.

MAJORS / SPECIALISATIONS

Students must complete the International Relations major. They can choose two additional majors from the following list:

- Cyber Security
- Diplomacy
- People and Culture
- Regional Studies

FURTHER STUDY

- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Laws (CRICOS 084235G)
- Master of Philosophy (CRICOS 072092F)
- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

- Communications specialist
- Defence
- Diplomacy
- Economic analysis
- Foreign correspondent
- Global trade
- Humanitarian work
- Intelligence analysis
- International aid
- International business and trade
- Political risk analysis
- Policy
- Public relations specialist
- Sustainable tourism

Embracing every opportunity

GRACE PURNELL
BACHELOR OF BUSINESS/BACHELOR OF INTERNATIONAL RELATIONS

“I had always imagined myself at Bond,” reflects Grace Purnell. “I was drawn to its stunning campus, strong sense of community, and the wealth of opportunities it provides. When I finally stepped onto campus, it felt like I belonged.”

Grace is now completing a double degree in business and international relations, an ambition sparked by her high school involvement in Model United Nations and interest in creative expression. “My Model UN experiences sparked a deep passion for global affairs and diplomacy,” she explains. “At the same time, my business major in marketing communications lets me explore my branding and content creation interests.”

Grace’s Bond experience has been defined by connection and leadership. “I love engaging with people from diverse backgrounds — it’s enriched my time here,” says Grace, who also serves as Brand and Content Director for the Bond University Student Association, plays social sport, and will soon travel overseas to represent Bond in a Model United Nations conference and study tour.

“I’ve been fortunate to develop meaningful relationships with mentors, academic staff, and peers,” she says. “Through classes, clubs, and campus events, I’ve built close friendships and professional networks that have truly enriched my university experience. These connections have not only provided guidance and support but have also opened doors to new opportunities, both personally and professionally.”

Looking ahead, Grace aspires to either work in executive marketing or become a diplomat with the United Nations. “Both paths will allow me to make a meaningful impact,” she says.

Grace’s advice for new students? “Step out of your comfort zone and embrace every opportunity to connect. Bond has such a welcoming community — make the most of every moment.”

Bachelor of Policy, Philosophy and Economics

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101956	70 / 25	Jan, May, Sep	6 semesters (2 years)	$18,400

Public policy shapes how societies function, how economies grow, and how communities thrive. The Bachelor of Policy, Philosophy and Economics is designed for those who aspire to drive meaningful change through public governance, public leadership, and ultimately, public influence, within governments, institutions, and global organisations.

This multidisciplinary program blends rigorous analysis with critical and ethical thinking, drawing from the disciplines of economics, law, philosophy, and international relations to tackle the most pressing institutional and geopolitical challenges of the 21st century. By examining how power, policy, and ideas intersect, you will develop the tools to craft practical, evidence-based solutions, navigate complexity with confidence, and make informed decisions that shape the future.

KEY FEATURES

- Gain a strong foundation in economics, philosophy, and policy to analyse and address complex societal and institutional challenges.
- Develop the skills needed for public governance and leadership across government, NGOs, and global organisations.
- Learn from leading academics and practitioners across law, business, and international relations, combining theory with real-world insights.
- Tailor your degree with up to five elective subjects to suit your interests and career goals.
- Graduate with a multidisciplinary skill set that prepares you to shape public discourse and drive meaningful change.

FURTHER STUDY

- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Business Administration (CRICOS 108627A)
- Master of Laws (CRICOS 084235G)
- Master of Project Management (CRICOS 078813G)
- Professional outcomes
- Advocacy
- Civil leadership
- Consultancy
- Economic analysis
- Foreign affairs
- International law and policy
- Not-for-profit work
- Politics
- Public policy
- Public service
- State and Federal government

Diploma of Arts

Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101729	50	Jan, May, Sep	2 semesters	$18,400

The Diploma of Arts provides a strong foundation for students seeking to develop the skills and knowledge needed for careers or further study in disciplines such as international relations, global studies, politics, humanities, communication and journalism. This program equips students with critical thinking, research, and communication skills, preparing them for success whether they are transitioning from school, returning to study, or looking to enhance their qualifications.

KEY FEATURES

- Transition seamlessly into the third semester of more than a dozen undergraduate degrees across the Faculties of Society & Design, Law, and Business.
- Receive personalised support through small classes and access to the Academic Skills Centre, including one-on-one tutoring and workshops.
- Customise your study load, begin part-time and gradually increase to full-time as your confidence and skills develop.
- Build essential skills in research, analysis and communication.

FURTHER STUDY

Successful completion of the Diploma of Arts guarantees entry into most undergraduate degrees at Bond University, with the potential for up to 80 credit points towards your chosen program. Students are advised to check their chosen degree's study structure online to confirm which subjects they can receive credit for.

Bachelor of Climate Change and Sustainable Action	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 114037F	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

As the world faces complex environmental and societal challenges, demand is growing for skilled professionals who can lead sustainability strategies and shape a more resilient future. The Bachelor of Climate Change and Sustainable Action is an innovative, market-leading program designed to equip the next generation of sustainability leaders with the knowledge, skills, and practical experience to advance innovative climate solutions.

Unlike traditional science-based climate programs, this interdisciplinary degree brings together perspectives from communication, media, psychology, health, law, and business to explore how human behaviour, governance, and industry, intersect with environmental issues. You will examine the complex relationship between people and the planet, and develop the skills to promote sustainable action across private, not-for-profit, and government sectors.

KEY FEATURES

- Explore climate change through an interdisciplinary lens to gain a holistic understanding of global sustainability challenges. Undertake fieldwork, research projects, or a capstone experience that applies your knowledge to real-world climate and sustainability issues.
- Develop skills in behavioural change, ethical leadership, and sustainability strategy to influence policy and practice across sectors.
- Build industry connections through internship opportunities.
- Prepare for careers in environmental policy, sustainability management, infrastructure planning, corporate strategy, and more.

MAJORS / SPECIALISATIONS

- Business Context and Environment
- Climate and Environment Law
- Communication
- Communication & Society
- Digital Media
- Global Studies (Sustainability)
- Health and Sustainability
- International Relations
- Journalism
- Project Management
- Sustainable Architectural Design

SUSTAINABLE ACTION CAPSTONE

- Capstone project and/or internship placement

FURTHER STUDY

- Graduate Certificate in Environmental Consulting~
- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Business Administration (CRICOS 108627A)
- Master of Laws (CRICOS 084235G)
- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

- Climate and conservation consultancy
- Climate communications
- Climate policy
- Conservation policy
- Corporate social responsibility
- Environmental consultancy
- Environmental law
- Environmental policy
- Public health and infrastructure planning
- Public policy
- Renewable energy
- Sustainable business strategy
- Sustainability consultancy
- Sustainability management

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
~ This program is not available to students on an international student visa.

LAW

Bachelor of Laws

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 093922K	85 / 30	Jan, May, Sep	8 semesters (2 years 8 months)	$18,400

Bond's Bachelor of Laws program will prepare you for a career in the legal profession, corporate sector, or government sector in Australia. Excellent teaching, small class sizes, and our extensive Integrated Skills and Professionalism Program provide an exciting and comprehensive learning experience that will challenge you academically and prepare you practically for your chosen career in the legal profession.

Our unique Integrated Skills and Professionalism Program focuses on core skills essential to the practice of law. These skills include dispute resolution and collaboration, legal ethics and professionalism, legal research and reasoning, legal writing and drafting, and oral communication and advocacy.

KEY FEATURES

- Learn critical skills in our embedded Integrated Skills and Professionalism Program.
- Select from specialisations and majors including Climate Law and Legal Innovation and Technology.
- Gain practical legal experience through the Bond Legal Clinics Program and the Bond Law Clinic.
- Opportunities to participate in our outstanding mooting program.

MAJORS / SPECIALISATIONS

- Canadian Law and Practice
- Climate Law
- Contemporary Legal Issues
- Corporate and Commercial Law
- International and Comparative Law
- Legal Practice
- Legal Innovation and Technology

FURTHER STUDY

The Bachelor of Laws is an approved degree for the purposes of admission to legal practice in Australia. To become a legal practitioner, you will also need to complete practical legal training (PLT) by completing Bond's Graduate Diploma in Legal Practice (GDLP)***, or a traineeship.

The Bachelor of Laws may also be used to apply for admission internationally. You are advised to confirm the admission requirements of the jurisdiction in which you wish to practise.

PROFESSIONAL OUTCOMES

- Legal practice (lawyer, solicitor, barrister)
- Business leadership
- Government
- In-house legal counsel

Bachelor of Business Law

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063057F	80 / 28	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Business Law combines legal foundations with business fundamentals to form a course of study for those who do not wish to practise law. Law is increasingly regarded as excellent preparation for a range of careers within business and management.

This program will not qualify you to practise law in Australia. If you wish to practise law, you must complete the Bachelor of Laws (CRICOS 093922K).

KEY FEATURES

- Study the essentials of both law and business.
- Select from business majors including Accounting, Economics, Marketing, or Finance.
- Tailor your studies to suit your career aspirations and interests.
- Develop skills in legal reasoning, writing, communication, advocacy, research and dispute resolution.

FURTHER STUDY

If you wish to practise law, you must complete the Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) followed by the Graduate Diploma in Legal Practice (GDLP)***.

PROFESSIONAL OUTCOMES

- Business administration
- Consulting
- Human resources
- Management

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
*** This program is not available to students on an international student visa.

The path to legal change

SHANIYA DOUEIHI
BACHELOR OF LAWS

Shaniya Doueihi's decision to study law was sparked by a deep interest in fairness and positive change. "I've always been drawn to understanding how rules shape society and how they can be used to create justice," Shaniya explains. "Law challenges you to think critically and consider different perspectives, which are skills I value deeply."

Choosing Bond, says Shaniya, was an easy choice. "I wanted a personalised, challenging and supportive learning environment," she says. "The small class sizes, practical focus, and close connection with lecturers really appealed to me. Bond's accelerated program also motivated me because it means I can enter the legal profession sooner."

Alongside her studies, Shaniya has embraced Bond's extracurricular opportunities and leads the Bond University Middle Eastern Student Association as president, facilitating events and activities that celebrate cultural diversity on campus and bring students together.

Shaniya's ambition is to make a meaningful impact through law. "I'm passionate about advocacy and helping people navigate complex legal issues with fairness and empathy," she says. "In the long term, I hope to contribute to positive change within the legal system."

Preparing for practice

Bond is one of Australia's leading law schools, renowned for its practical focus on developing legal skills. From the very first semester, students will develop practical legal skills including legal writing and reasoning, oral communication, advocacy, dispute resolution, negotiation, and legal ethics, all of which are embedded throughout the degree.

Bond has earned a formidable reputation for its mooting excellence around the world, with Bond mooters regularly winning national and international competitions, and taking out top honours as individual best oralists. Bond's strong mooting culture provides students with opportunities to compete globally and develop critical skills in research, communication, and resilience.

The Bond Law Clinic, located on campus, is an incorporated legal practice. By volunteering under the supervision of the principal solicitor and volunteer lawyers, students contribute to a free pro bono legal advice service for the benefit of the community and gain real-life legal experience. Additional opportunities are available in the Bond Legal Clinics Program, in areas including criminal law, environmental law and community law.

Bachelor of Jurisprudence

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063078A	80 / 28	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Jurisprudence combines legal subjects of particular interest with study in related disciplines such as international relations, criminology, languages, and communication.

Unlike the Bachelor of Laws (CRICOS 093922K), this program is not designed to qualify you to practise as a lawyer, but rather, to impart fundamental legal skills that will set you up for success.

KEY FEATURES

- Combine legal studies with a related discipline that aligns with your interests.
- Enjoy a personalised learning environment with small classes and unmatched access to academic teaching staff.

FURTHER STUDY

If you wish to practise law, you must complete the Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) followed by the Graduate Diploma in Legal Practice.

PROFESSIONAL OUTCOMES

- Court clerkship
- Legal support
- Policy advice
- Trust administration

Diploma of Legal Studies

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 080298C	65 / 24	Jan, May, Sep	2 semesters (8 months)	$18,400

The Diploma of Legal Studies provides students with a basic grounding in Australia's legal system, the principles of business law, and the contemporary legal issues confronting Australian society.

This program offers a supported preparation and pathway for further undergraduate study in law. You will also learn communication and problem-solving skills, engage in individual and group decision-making, and develop an understanding of ethics, morals, and cultural beliefs.

KEY FEATURES

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.

FURTHER STUDY

Successful completion of the Diploma of Legal Studies provides direct entry into Bond's Bachelor of Laws (CRICOS 093922K) with 80 credit points. The Diploma of Legal Studies also provides a pathway into other undergraduate degrees with varying credit available.

Postgraduate study

An approved practical legal training (PLT) program, Bond's Graduate Diploma in Legal Practice (GDLP) is required for Bachelor of Laws graduates who wish to qualify for admission as a legal practitioner in Australia. This practical program includes a short coursework component and a professional legal placement component.

Bond also offers some postgraduate master's programs for law graduates, or graduates from other undergraduate programs, including the Master of Laws in Enterprise Governance.

	Starting	Duration	Fees per semester**	CRICOS course code
Graduate Diploma in Legal Practice	Jan, May, Sep	2 semesters (8 months)	$22,440 (total program fee)	N/A***
Master of Laws	Jan, May, Sep	2 semesters (8 months)	$45,440 (total program fee)	084235G
Master of Laws in Enterprise Governance	Sep	4 semesters (1 year 4 months) Available for part-time study only	$46,400 (total program fee)	N/A

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit b**ond.edu.au/fees**.
Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.
*** This program is not available to students on an international student visa.

MEDICINE

Medical Program^	Starting	Duration	Fees per semester**
Bachelor of Medical Studies (BMedSt) (CRICOS 0101292)	May, Sep	8 semesters (2 years 8 months)	$33,610
Doctor of Medicine (MD) (CRICOS 111520H)		6 semesters (2 years)	$33,610
		Total 14 semesters (4 years 8 months)	

Designed to meet the needs of today's complex healthcare environment, Bond's Medical Program^ will equip you with the fundamental knowledge, skills and attributes required to practise medicine safely and effectively. You'll graduate with the clinical, interpersonal, teamwork and leadership skills required to deliver high-quality healthcare outcomes, as well as an ingrained commitment to care for yourself, your colleagues, and all community groups.

The Medical Program^ comprises two sequential degrees. You'll first be required to complete the Bachelor of Medical Studies (BMedSt) [CRICOS 0101292], where you will participate in small group learning, simulation activities, community and clinical placements, and a cultural immersion experience.

You'll then complete the Doctor of Medicine (MD) (CRICOS 11520H) to be eligible to practise medicine. You'll engage in evidence-based medicine and integrated placements within clinical sites and will gain extended exposure to areas including child health, medicine, mental health, surgery, and women's health.

Bond's intensive program of four years and eight months is the shortest pathway to a Medical Doctorate in Australia.

PROFESSIONAL ACCREDITATION AND RECOGNITION

The Medical Program^ is accredited by the Australian Medical Council (AMC) and ensures graduates meet or exceed the agreed national guidelines for medical education. Upon successful completion of the Medical Program^, graduates are eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand.

FURTHER STUDY

Graduates of the Medical Program^ will have the appropriate knowledge, attitudes, and skills to work effectively as interns in Australian and New Zealand hospitals and will be ideally positioned to undergo further training in any of the Australasian specialty colleges.

PROFESSIONAL OUTCOMES

- Medical specialisation including general practice
- Surgical specialisation

* Entrance scores provided are indicative only for 2027 admission and are subject to change.

** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

^ The Medical Program comprises two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC. All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

Becoming a doctor

MUSARRAT KHAN
MEDICAL PROGRAM

Musarrat “Mim” Khan felt like Bond was the perfect fit from her first visit. “I first came to Bond on Open Day, then attended Virtual Open Day as well as Health Experience Day,” she recalls. “Exploring the clinical facilities, learning about simulated participants and experiencing the campus atmosphere made me fall in love with the university.”

Mim completed her Bachelor of Biomedical Science in two years thanks to Bond’s accelerated programs. “Graduating early was exciting. I was one of the first in my cohort to finish a degree at just 20,” she says. “The small class sizes and interactive learning made the experience so engaging.”

Mim successfully applied for entry into Bond’s Medical Program through the lateral entry pathway, continuing her journey to becoming a doctor, a dream she’s worked towards since high school. “At the moment I’m particularly interested in specialising in General Practice,” she says. “I love the idea of building long-term relationships with patients and supporting them across all stages of life.”

PROJECT MANAGEMENT & INNOVATION

Bachelor of Project Management	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101294	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Project Management builds the agility, resilience, and technical skills necessary to deliver complex projects across a range of sectors and lead initiatives with confidence. You'll begin with foundational knowledge in areas such as business acumen, project frameworks, and process analysis, then progress into more advanced technical and strategic decision-making skills as the program develops.

Bond was the first university in Queensland to offer a direct pathway from high school to a professionally recognised project management qualification, giving students a head start in building their careers. From project scheduling and costing to resourcing, scope, quality, procurement, communications, risk, and stakeholder management, you will gain the capabilities to see any project through from concept to completion. Supported by experienced industry professionals and educators, this innovative program equips graduates to thrive in diverse sectors including construction, health, IT, infrastructure, and more.

KEY FEATURES

- Study a program endorsed by the Australian Institute of Project Management (AIPM) and structured around the PMBOK® Guide, the global standard for project management.
- Pathway directly from high school to professional certification as a project manager.
- Gain globally transferable skills and the confidence to make an impact across a wide range of industries.
- Develop critical leadership, communication, and problem-solving skills to manage complex projects and teams.
- Choose electives from across the University to align with your career ambitions or interests.

FURTHER STUDY

Graduates can undertake postgraduate study across a wide range of specialised study areas such as construction practice, valuation and property development, communication business, healthcare and commercial enterprises.

PROFESSIONAL OUTCOMES

Project management in industries including:

- Business
- Construction
- Disaster management
- Engineering
- Information technology
- Healthcare
- Manufacturing
- Mining
- Property development

* Entrance scores provided are indicative only for 2027 admission and are subject to change.
** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**.
Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

PSYCHOLOGY, CRIMINOLOGY & SOCIAL SCIENCES

Bachelor of Arts	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063052M	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

The Bachelor of Arts is a generalist program that allows you to select a combination of subjects to best suit your interests and aspirations. It offers flexibility in your choice of majors, with the opportunity to either specialise in a particular area of study or to select multiple complementary majors.

Perfect for inquisitive students with a passion for understanding human behaviour, society, and the dynamics and systems that shape our communities, the Bachelor of Arts is an adaptable program that will equip you with the knowledge and skills to make an impact in a wide range of professional settings.

KEY FEATURES

- Tailor your subjects and major options across psychology, criminology, and related disciplines to suit your interests and career ambitions.
- Learn from leading academics, researchers and industry professionals with real-world experience and expertise in mental health, neurological and social psychology, criminal justice, social policy, and human behaviour.
- Engage in small, interactive classes that focus on practical skills, critical thinking, and evidence-based approaches to social and behavioural challenges.
- Connect with professional networks through internships and placements.
- Develop versatile skills that will set you up for success in your future career.

MAJORS / SPECIALISATIONS

- Advertising
- Advertising Design and Production (double major)
- Cinema Journalism (double major)
- Communication
- Corporate Storytelling
- Criminology
- Cyber Security
- Digital Media
- Film and Television
- Global Studies (Sustainability)
- International Relations
- Journalism (double major option available)
- Media Studies
- Philosophy
- Psychology (double major option available)
- Public Relations
- Social Media

FURTHER STUDY

- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Communication (CRICOS 078660G)
- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)
- Master of Philosophy (CRICOS 072092F)
- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

The Bachelor of Arts program equips students with the knowledge and skills to succeed in human-focused and socially driven careers. Graduates can pursue roles across a wide range of sectors, including mental health, criminal justice, social policy, community services, research and human resources, depending on their chosen major/s.

Bachelor of Criminal Justice and Criminology

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 107663E	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

If you're interested in a career in criminal justice or are curious about the sociological and psychological factors that shape the behaviours of offenders and victims, then Bond's Bachelor of Criminal Justice and Criminology is the degree for you. This program equips you with multidisciplinary knowledge and skills, beginning with foundational criminology and law subjects. You'll then have the opportunity to deepen your expertise through advanced criminology subjects, and pursue further studies in either psychology or law.

Through this program you'll develop the critical thinking, analytical, and problem-solving skills needed to examine crime and justice in its social, cultural and historical context. You will explore topics including justice procedures, cybercrime, criminal law, miscarriages of justice, crime prevention, public safety, child protection and juvenile justice.

KEY FEATURES

- Option to tailor your degree with a specialisation in psychology or law, to align with your career goals.
- Develop critical skills through case studies, research, and evaluation of justice policies and programs.
- Problem-solve contemporary crime issues and innovations in criminal justice procedures.
- Gain real-world experience with field trips, internships, and work placement opportunities in crime and justice organisations.
- Learn from leading practitioners and academics, including former detectives and active researchers who are shaping the field of criminology and justice in Australia.

FURTHER STUDY

- Graduate Certificate in Criminology (CRICOS 083525F)
- Juris Doctor (CRICOS 093923J)
- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)
- Master of Laws (CRICOS 084235G)
- Master of Philosophy (CRICOS 072092F)
- Master of Project Management (CRICOS 078813G)

PROFESSIONAL OUTCOMES

- Anti-corruption
- Corrections
- Court support
- Intelligence
- Intervention planning
- Policing
- Probation and parole
- Public safety and security
- Rehabilitation program management
- Victim advocacy and support
- Youth justice

* Entrance scores provided are indicative only for 2027 admission and are subject to change.

** Fees per semester are based on an average calculation from 2026, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit **bond.edu.au/fees**. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Bachelor of Psychological Science

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 062655C	65 / 24	Jan, May, Sep	6 semesters (2 years)	$18,400

Psychology is the science of human behaviour. It delves into why we think, feel, and act the way that do as individuals, and how we operate collectively as a society. The Bachelor of Psychological Science provides students with a comprehensive introduction to the scientific study of normal psychological processes, including perception, memory, learning, motivation, psychobiology, personality, emotion, developmental psychology, and social relationships, alongside foundational training in abnormal psychology.

Throughout your studies, you will participate in laboratory work and receive training in research methods and data analysis techniques used by psychologists. You will also be introduced to the Australian Psychological Society Code of Ethics, equipping you with the knowledge and skills to apply psychological science responsibly and effectively.

This program will equip you with the scientific grounding and theoretical understanding required for advanced-level studies in psychology, setting you on the fastest pathway towards becoming a registered psychologist.

KEY FEATURES

- Develop a strong foundation in the science of psychology and human behaviour.
- Specialise your studies by choosing electives in areas such as neuropsychology, organisational psychology, and positive well-being.
- Participate in practical research in the Cognitive Research Labs, analysing real-world data and engaging in experimental studies.
- Network with professional psychologists and counsellors at events run by the Bond Psychological Society.
- Learn from internationally recognised psychologists in small, personalised classes, gaining mentorship and insights from leading researchers.

FURTHER STUDY

- Bachelor of Psychological Science (Honours) (CRICOS 063047G)
- Master of Professional Psychology (CRICOS 096695C)
- Master of Psychology (Clinical) (CRICOS 063429E)

PROFESSIONAL RECOGNITION

The Bachelor of Psychological Science is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent of three years of university education on the pathway to becoming a registered psychologist in Australia. Graduates are required to complete six years of education and training to be eligible for registration.

ALTERNATIVE PATHWAY

The Graduate Diploma in Psychology (Bridging) allows students with an undergraduate qualification to fast-track the first three years of their studies on the pathway to becoming a registered psychologist. It is designed for those who possess a degree in a discipline other than psychology, or those who have completed undergraduate studies in psychology but have not met the entry requirements to progress directly into fourth-year studies. This program is not available to international students who intend to apply for a student visa to undertake this program.

PROFESSIONAL OUTCOMES

Graduates who do not wish to pursue further study to qualify for registration as a psychologist will be equipped to undertake careers in:

- Behaviour management
- Career guidance
- Change management
- Child protection
- Counselling
- Criminal justice
- Human resources
- Organisational psychology
- Rehabilitation counselling
- Research
- Sport, exercise, and athlete performance

Diploma of Arts

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101729	50	Jan, May, Sep	2 semesters (8 months)	$18,400

The Diploma of Arts provides a strong foundation for students interested in psychology, criminology, and social sciences, as well as complementary areas such as communication, global studies, and humanities. This program equips you with core analytical, research and critical thinking skills, preparing you for a wide range of career and further study opportunities. It is ideal for students coming straight from school, or those looking to enhance their qualifications and explore their academic interests before committing to a full degree.

KEY FEATURES

- Transition directly into the third semester of more than a dozen undergraduate degrees offered by the Faculty of Society & Design.
- Benefit from the extensive support of our Academic Skills Centre, including one-on-one tutoring and workshops.
- Customise your study load, start with one or two subjects part-time and progress to full-time study as your confidence grows.
- Receive the guidance and attention you need to succeed in our small, personalised classes.

FURTHER STUDY

Successful completion of the Diploma of Arts guarantees entry into most undergraduate degrees at Bond University, with a possible 80 credit points towards your chosen program. Students are advised to check their chosen degree's study structure online to confirm which subjects they can receive credit for.

Game, set, mindset

LIVVY DEVONPORT
BACHELOR OF PSYCHOLOGICAL SCIENCE
BOND ELITE SPORT PROGRAM ATHLETE

For Livvy Devonport, life is about pushing boundaries — whether on the tennis court or in the classroom. “Bond was the only university for me,” she says. “As soon as I walked through campus, I knew the unique vibe fit me and that my goals would be met here, and they’ve exceeded my expectations.”

Now studying a Bachelor of Psychological Science at Bond, Livvy’s passion for psychology began in Year 10 when she took a psychology class. “That first class changed everything,” she explains. “What I love about this degree is it helps me understand myself and the world around me, and it’s essential for the mental side of being a professional tennis player. It allows me to be the best version of myself.”

Coming from a distance education background to pursue tennis, Livvy values the connections she’s made most. “The friendships and mentorships here have been incredible,” she says.

Beyond study, Livvy is deeply involved in campus life: Bond Elite Sport Program member, Tennis Captain, Vice President of the Bond Psychological Society, and a proud student ambassador. Through Bond’s partnerships, she’s even represented the University at Olympic meetings.

Livvy’s ambition is to become the first person to achieve both professional tennis player status and a psychiatry career. “I’m driven by my passion to learn and grow in all aspects of life,” she says. “I’m confident Bond has me on the right path.”

Bachelor of Psychological Science (Honours)	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 063047G		Jan, May, Sep	2 semesters (8 months)	$19,705

The Bachelor of Psychological Science (Honours) is the second step on the pathway to becoming a registered psychologist in Australia. In this degree, you will build on your existing psychological knowledge and apply it to a specialised research project. Under the guidance of an expert supervisor, you will develop advanced skills in research methods, psychometrics, statistics, and data analytics.

All applied material is based on the scientist-practitioner model, emphasising evidence-based approaches to psychological assessment and intervention. Upon completion, graduates are eligible to apply for provisional registration with the Australian Health Practitioner Regulation Authority (AHPRA) and progress to a master's level program.

KEY FEATURES

- Complete your Honours (equivalent to Fourth Year) in just 8 months.
- Access a dedicated lab space with data analysis software and the Cognitive Research Labs to perform face-to-face research.
- Discover how the science and practice of psychology is influenced by social, historical, professional, and cultural contexts.
- Gain a theoretical understanding of some of the most widely used cognitive and personality assessments, as well as evidence-based approaches to psychological intervention.
- Develop your research and analytical skills as you work on your thesis.

ENTRY REQUIREMENTS

To be eligible for the Bachelor of Psychological Science (Honours) program, applicants must have completed an APAC-accredited three-year sequence of study in psychology (or equivalent) within the past ten years. Admission is based solely on academic merit, requiring a minimum GPA of 2.0 on Bond University's 4-point scale (65%) for second and third-year psychology subjects. Applicants with qualifications from outside Australia must have their qualifications assessed for equivalency by the Australian Psychological Society (APS) and provide evidence of this assessment with their application. Additional entry requirements may also apply; for more information on equivalency assessments, visit the APS website.

FURTHER STUDY

- Master of Professional Psychology (CRICOS 096695C)
- Master of Psychological (Clinical) (CRICOS 063429E)

PROFESSIONAL RECOGNITION

This program is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent of the fourth year of university training required to become a fully registered psychologist in Australia.

After completing the Bachelor of Psychological Science (Honours), graduates will be eligible to apply for provisional registration as a psychologist in preparation for the practicum placements required for the final two years of education and training. Entry to one of the two offered master's programs will be based on academic performance, an interview process, and a successful offer.

PROFESSIONAL OUTCOMES

Graduates who do not wish to pursue further study to qualify for registration as a psychologist will be equipped to undertake careers in:

- Business
- Career guidance
- Community action
- Criminal justice
- Human resources
- Marketing and communications
- Mental health counselling and support
- Policymaking
- Rehabilitation counselling
- Research
- Sport, exercise, and athlete performance

Postgraduate study

	Starting	Duration	Fees per semester**	CRICOS course code
Graduate Certificate in Criminology	Jan, May, Sep	1 semester (4 months)	$15,140 (total program fee)	083525F
Graduate Diploma in Psychology (Bridging)	Jan	3 semesters (1 year)	$48,060 (total program fee)	N/A***
Master of Criminology	Jan, May, Sep	3 semesters (1 year)	$17,680	078659A
Master of Professional Psychology	May	2 semesters (8 months)	$48,000 (total program fee)	096695C
Master of Psychology (Clinical)	May	6 semesters (2 years)	$15,447	063429E

*** This program is not available to students on an international student visa.

Postcards for our ancestors

From Jawoyn Country to Tonga and Bangladesh, our Bond University community is made richer by the diverse community of students, from across Australia and the globe, who call our campus home. Through letters to their ancestors, traditional dress, body art and dance, our students have shared with us a look into their cultural heritage and legacies on the Thinking Steps.

YOUR FUTURE

Whatever your ambition, your journey to realising it starts right now.

Choosing your high school subjects

Consider your strengths and future interests when planning your final years of schooling.

IF YOU ARE INTERESTED IN:	CONSIDER THESE SUBJECTS:
ACTUARIAL SCIENCE AND DATA ANALYTICS For the number crunchers and interpreters. For those who don't want to just find the pattern, but find meaning within it.	• Business • Economics • Digital Solutions • Specialist Mathematics
ARCHITECTURE For the design makers and skyline shapers. For those who want to create the future with their very own hands.	• Earth and Environmental Science • Design • Engineering • General Mathematics • Visual Art • Digital Solutions
BUSINESS, COMMERCE AND ENTREPRENEURSHIP For the self-starters and pioneers. For those who don't just want to get the job, but want to create it.	• Accounting • Business • Economics • English • General Mathematics • Tourism
COMMUNICATION, FILM AND CREATIVE MEDIA For the creative souls, storytellers, and deep thinkers. For the digitally minded, the ones who always have an idea to share.	• English • Business • Design • Digital Solutions • Drama • Film, Television and New Media • Visual Art • Information and Communication Technology
CONSTRUCTION, PROPERTY AND PLANNING For the creators and city makers. For those who want to shape the future of our homes, communities, and cities.	• Building and Construction Skills • Geography • Design • Engineering • General Mathematics • Earth and Environmental Science
HEALTH, BIOMEDICAL AND SPORT SCIENCES For the researchers and scientific thinkers. For those who know there's so much more to discover — you just need to look closer.	• Health • Physical Education • General Mathematics • Biology • Chemistry • Physics
INTERNATIONAL RELATIONS, POLITICS AND ARTS For the globally minded, the citizens of the world. For those who want to create a better, more connected and understanding world.	• History • Geography • Languages • Legal Studies • Philosophy and Reason • English • Economics
LAW For the argument winners and critical thinkers. For those who value the truth and want to see justice in action.	• English • Legal Studies • Business • Economics
MEDICINE For the empathetic and the caring. For those who want to work on the frontline, making a difference in the lives of others.	• Biology • Chemistry • English
PROJECT MANAGEMENT AND INNOVATION For the organised and innovative. For those who want to lead the change, and know there's a better way to do it.	• English • Business • Engineering • General Mathematics • Design
PSYCHOLOGY, CRIMINOLOGY AND SOCIAL SCIENCES For the 'people people'. For those who want to help others, no matter their circumstances, and make meaningful personal and societal change.	• English • Legal Studies • Psychology • Health • Mathematical Methods • Biology

Things to consider when choosing a degree and university

Where you'll attend university, and what you'll study, is one of the biggest decisions you will make in your life. To help you navigate this next chapter with confidence, we're sharing some advice on how to ensure you find the right fit for you.

YOUR INTERESTS

What subjects were your strongest at school? What types of topics and careers fascinate you? When do you feel the most 'you'?

A great first step is to align your study to your passions, interests and ambitions, so spend some time reflecting on what you are interested in and start there when browsing program options.

HOW YOU LEARN BEST

Do you learn best independently, or do you prefer personal guidance and hands-on learning? Your learning environment is a crucial part of university study, and one that can surprise students who are transitioning from high school into a large university. Attend Open Days, explore websites, and ensure you're aware of all of your options, and the differences between them, before making a decision.

YOUR FUTURE CAREER OUTCOMES

When you think of your future career, what comes to mind? If there are certain careers or jobs that you can imagine yourself doing, think about what degree and university is best going to get you there considering the program and opportunities to gain work experience and build your employability.

Get a head start

Experience university in your last years of school. From a one-day on-campus experience to completing an entire university subject, to competing in a national competition, there are so many ways to explore Bond, your way.

STUDENT FOR A SEMESTER PROGRAM

Bond's Student for a Semester program allows high-achieving students to launch their tertiary studies ahead of their peers by undertaking a university subject while still in high school.

As a Student for a Semester, you will enrol in a Bond subject, get your own student ID card, and attend a weekly forum and tutorial. You'll be rewarded with an unforgettable experience, a global network of friends, and the chance to gain credit towards your university studies.

The Student for a Semester program is offered at an exclusive rate of $250 per subject and is open to Year 11 and 12 students from the Gold Coast, Brisbane and Northern New South Wales regions with available subjects covering a range of topics such as architecture, law, marketing, screenwriting, and health.

The program will not only leave you with newfound knowledge about study and life at Bond, but you'll also gain a deeper understanding of the university experience, and a potential credit towards your future university degree at Bond.*

- Be supported by a current student mentor throughout the semester
- Access a career counselling session hosted by Bond's Career Development Centre
- Access all University facilities and support services including the Sports Centre, libraries and Academic Skills Centre

* Direct subject credit will depend upon your chosen degree program and may not be applied toward the Bachelor of Design in Architecture or the Bond Medical Program, due to the structure of these programs. Please check with Bond University prior to enrolment.

LEARN FOR CREDIT SHORT COURSES

Take a deep dive into an area of interest and earn credit towards a university subject with Bond's unique learn for credit courses. Designed for Year 11 and 12 students, learn for credit courses combine on-campus workshops with online modules you can complete at your own pace.

Bond runs a calendar of learn for credit courses offered throughout the year with topics including criminal law and procedure, creative writing, psychology and more.

If you complete five learn for credit courses, you can apply for potential credit towards Bond University subjects and obtain two points towards the Queensland Certificate of Education.

EXPERIENCE DAYS

Experience Days provide an opportunity for you to discover more about your chosen study area — from its facilities to academic staff and everything in between. You'll get to don your lab coat, settle in at a Bloomberg Terminal, or take the reins on a project of your own, all with the guidance of our current students and staff.

YEAR 12 EXTENSION PROGRAM

The Bond Business School's Year 12 Extension Program comprises fast-paced, two-day workshops designed to prepare students for university life and complement the Year 12 curriculum across business and maths streams. It is free of charge and top performing students will be awarded a part-fee scholarship or bursary towards future study.

BOND UNIVERSITY MODEL UNITED NATIONS CONFERENCE (BUHMUN)

The Bond University High School Model United Nations (BUHMUN) is a two-day conference where high school students embrace the role of a modern diplomat or journalist. During this immersive experience, students will represent a country's position in simulated international debates addressing the world's most pressing issues.

NATIONAL HIGH SCHOOL MOOTING COMPETITION

A moot is a mock court proceeding. In a moot, students act as legal counsel representing one of the parties to those proceedings, delivering oral presentations of legal submissions, against opposing counsel, before a moot court judge.

Hosted by the Bond University Faculty of Law, the National High School Mooting Competition is one of the most established of its kind in Australia. The competition provides an opportunity for high school students from across the nation to learn more about the law and begin to develop tangible legal skills.

The National High School Mooting Competition is open to students in Years 10, 11 and 12 at Australian high schools. The preliminary rounds of the competition are held virtually (online), with the semifinals and grand final held on campus on the Gold Coast at Bond.

THE BOND UNIVERSITY FILM & TELEVISION ACADEMY (BUFTA)

The Bond University Film & Television Academy (BUFTA) runs Australia's premier filmmaking competition for high school students. Competitive, fun and fast-paced, BUFTA is open to Year 11 and 12 students. Many BUFTA participants and Bond alumni have gone on to pursue incredible global careers in the industry.

BUFTA provides an opportunity for high school students to showcase their writing, directing, editing and production skills, and the chance to win awards including a scholarship to study the Bachelor of Film and Television at Bond.

The BUFTA Ceremony broadcast is proudly produced, directed, and broadcast live by Bond University's first-year Bachelor of Film and Television students.

Allegra Jaffar

BACHELOR OF LAWS

"I completed the Student for a Semester program when I was in Year 11. It gave me a view into what university life is really like. You're working with actual university students on projects and you're learning from real lecturers, having classes out of school time so it gives you that real insight into what uni could be like for you in the future."

LIBRARY

Financing your degree

Bond University is a fully independent, not-for-profit institution that invests 100 per cent of your tuition fees into providing a five-star educational experience, state-of-the-art facilities, and a truly personalised student framework.

While our tuition fees are not subsidised by the Australian Government, they can be financed through a number of options including government assistance packages.

FEE-HELP

FEE-HELP is an interest-free student loan program funded by the Australian Government for all Australian citizens and others who meet the eligibility requirements. Similar to HECS-HELP, FEE-HELP allows eligible students to defer their tuition fees until after they graduate, when they can then be paid off in regular instalments.

From 1 January, 2020, a combined HELP loan limit replaced the FEE-HELP limit and includes FEE-HELP, VET Student Loans, VET FEE-HELP, and HECS-HELP. Only HECS-HELP borrowing from 1 January, 2020 onwards counts towards a person's HELP limit. Any existing FEE-HELP, VET FEE-HELP or VET Student Loans that counted towards your FEE-HELP limit will count towards the combined HELP limit.

In 2026, the combined HELP loan limit is $129,883 for most students. The limit for students in the Medical Program is $186,544. Repayments are made through the taxation system at a minimum rate of 1 per cent per annum when your annual income reaches $67,000. The rate of repayment increases as annual income increases. You can apply for FEE-HELP online once you have received an offer from Bond University with your Student Identification Number.

studyassist.gov.au

LOYALTY DISCOUNTS

Bond offers a number of loyalty discounts to students who have a direct family member attending an eligible program at Bond or who have completed an eligible program here. These loyalty programs may provide a reduction of up to 10 per cent on tuition fees.

OTHER GOVERNMENT ASSISTANCE

Most Australian students who receive some form of government income support are on either Youth Allowance or AUSTUDY / ABSTUDY. Contact Centrelink for more information on eligibility.

STUDENT OPPORTUNITY FUND

As a Bond student, you will have access to a range of experiences and activities to enhance your learning. The Student Opportunity Fund can help to finance those added extras with assistance available up to $2,000. For more information, visit **bond.edu.au/student-opportunity-fund**

Living costs

In addition to your university tuition fees, there are a number of other costs to consider when planning your budget.

ESTIMATED WEEKLY LIVING COSTS*

When considering the costs associated with your university studies, keep in mind that Bond's accelerated schedule means you'll finish your degree sooner. This signifies a substantial reduction in your total accommodation and living costs, as well as a full year of earnings from being out in the workforce earlier.

	ON-CAMPUS ACCOMMODATION	OFF-CAMPUS ACCOMMODATION	HOMESTAY / BOARDING
RENT	$230-$370	$450-$750	$370

* Prices are approximate and will vary depending on budget and lifestyle.

Accommodation

Bond is located in a residential neighbourhood with a range of on-campus and off-campus accommodation available for our students. There are many accommodation options within easy walking distance of all University facilities.

LIVING ON CAMPUS

On-campus housing offers your choice of air-conditioned single or shared rooms. Residents benefit from one-on-one academic and personal support from the live-in team of Senior Resident Fellows, Student Resident Fellows, and Tutor Fellows.

MEAL PLANS

For students living on campus, it is compulsory to have a dining plan. These flexible prepaid plans can be used to purchase meals on campus at Lakeside Restaurant, Papyrus Café, Pulse Café, Don's Tavern, the Coffee Cart, Bond Express, and the University Club.

APPLYING FOR ON-CAMPUS ACCOMMODATION

Our on-campus rooms are in high demand, so we recommend you complete your application as soon as the accommodation booking period opens.

LEARN MORE AND VIEW ROOM TYPES

OFF-CAMPUS ACCOMMODATION OPTIONS

Rental accommodation: Options surrounding the University include houses or apartments on a single or shared basis with weekly rent varying depending on size, location, and the number of bedrooms. You will also need to budget for a security deposit (rental bond), food, electricity, telephone, internet, and cleaning. Students regularly advertise for flatmates in a variety of units, townhouses, and larger homes located in suburbs adjacent to the campus (Varsity Lakes, Robina) and further afield.

Homestay: A fully supported living experience with a local host family. Bond University's homestay program is professionally managed by the Australian Homestay Network and is recommended for all students under the age of 18 years old.

View homestay options: **homestaynetwork.org**

WE'RE HERE TO HELP

Bond's accommodation team can provide information relating to accommodation within close proximity to campus. For suggestions email **housingsupport@bond.edu.au** or to view off-campus options, please visit **bond.edu.au/off-campus**

Recognising your achievements through scholarships

Bond is proud to offer a generous scholarship program rewarding high-achieving students. Full and part-tuition scholarships are awarded to applicants who have demonstrated outstanding academic ability, community involvement, sporting achievements and strong leadership skills.

HOW TO APPLY

Scholarship applications can be made online via the Scholarship Application Form after you have completed and submitted a Bond University Study Application Form.

Review scholarship application opening and closing dates at **bond.edu.au/scholarships**.

Simply use the same login details as used for your study application and enter 'scholarship' in the keyword field on the Start an Application tab.

Bachelor of Data Analytics student, elite wheelchair rugby athlete and John Eales Rugby Excellence scholar Lilliana Prucha is making her mark on the world stage.

* Students applying for the Medical Program are not eligible for this scholarship.
** To be confirmed by QTAC.

Pathways to Bond University

If you don't meet the entry requirements for your chosen degree, Bond offers a range of pathways through Bond University College. Our pathway programs are delivered on campus by Bond University College, where you will benefit from extra hours of face-to-face teaching in a personal small class, mentored environment. Located on campus, you will have access to all the University's resources and facilities and will be welcomed as a member of the Bond community from the day you arrive.

Successful completion of a Bond University College program gives you the opportunity to gain entry to a Bond University undergraduate degree, with varying credit. The time to completion from a diploma program to a bachelor's program is essentially the same. Once you successfully complete your diploma, you will enter your bachelor's program in Semester 3*, enabling you to still graduate ahead of your peers at standard universities. Learn more at **bond.edu.au/pathways**

* Not applicable to all bachelor level programs.

ADMISSION PATHWAYS

DIPLOMA PREPARATION PROGRAM

CRICOS course code 0101445

Duration: 4 months (1 semester)

Starting: January, May, September

The Diploma Preparation Program has been specifically designed for students to pathway into Bond University Diploma programs.

KEY FEATURES

- Prepare yourself for a Bond University Higher Education Diploma program.
- Gain the academic skills required to succeed in your further studies.
- Transition into your diploma program seamlessly with our dedicated teachers and supportive environment.

HIGHER EDUCATION DIPLOMAS

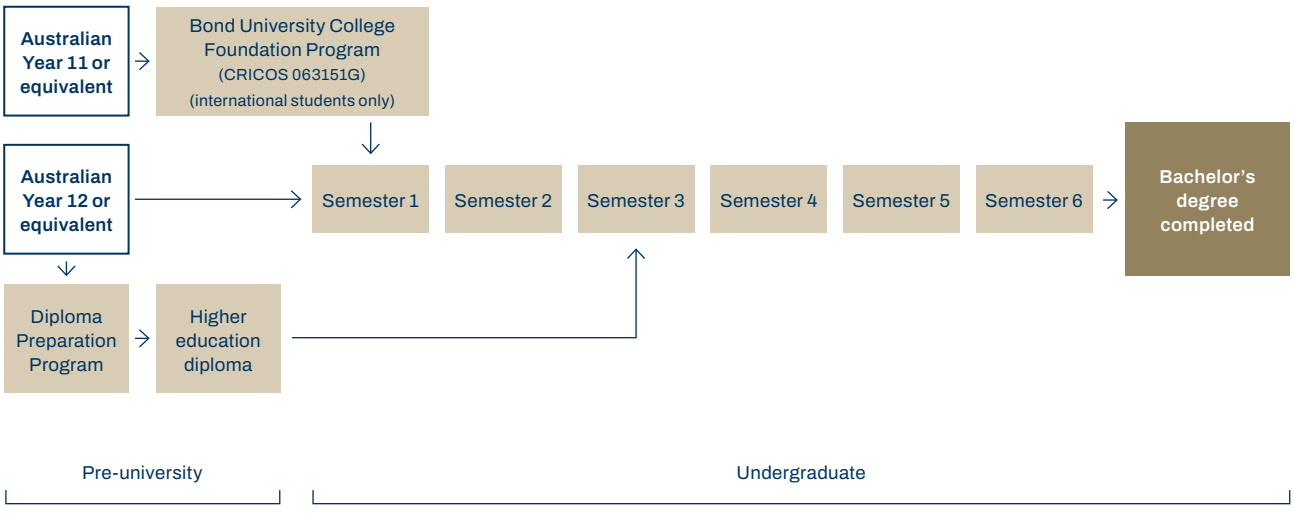

Duration: 8 months (2 semesters)

Starting: January, May, September

Our diploma level studies provide a pathway for students who do not meet the academic or English language requirements for direct entry into their chosen bachelor's degree, or who would prefer to start their university journey in a more supported environment. Successful completion of your diploma qualifies you for entry into a Bond bachelor's degree, with varying credit.

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Creative Design (CRICOS 105412G)
  Duration: 1 year (3 semesters)
- Diploma of Health Sciences (CRICOS 093260K)
- Diploma of Legal Studies (CRICOS 080298C)

PATHWAYS TO BOND UNIVERSITY

The average Bond University undergraduate program can be completed in two years, but this may be longer in some areas of study.

Admission pathways

VOCATIONAL EDUCATION AND TRAINING (VET) STUDY

CAN I USE A VET QUALIFICATION FOR ENTRY?

For 2027 admission, Bond University will continue to accept VET qualifications for entry with the following assigned ranks. Please note that the assigned selection rank is provided as a guide only. You must still meet prerequisites and any additional requirements for the program.

VET QUALIFICATION*	ASSIGNED SELECTION RANK	BOND ENTRY POINT
COMPLETED AQF CERTIFICATE III	40	Diploma Preparation Program
COMPLETED AQF CERTIFICATE IV	74	Diploma and Bachelor's programs
COMPLETED AQF DIPLOMA	78	Bachelor's programs
COMPLETED AQF ADVANCED DIPLOMA	91	Bachelor's programs

Please note ungraded VET qualifications will not be accepted for direct entry into the following programs:

- Bachelor of Actuarial Science (CRICOS 083205M)
- Bachelor of Biomedical Science (CRICOS 063085B)
- Bachelor of Business Law (CRICOS 063057F)
- Bachelor of Jurisprudence (CRICOS 063078A)
- Bachelor of Laws (CRICOS 093922K)
- Bond Medical Program^
- Any combined program that includes a program mentioned above

HAVE YOU COMPLETED AN IN-SCHOOL VET QUALIFICATION?

If you complete a VET qualification in school and successfully complete high school (with or without an ATAR), Bond will assess your VET qualification for admission. You must still meet prerequisites and any additional requirements for the program.

If you have also obtained an ATAR, then Bond University will consider the higher ranked of the two qualifications (ATAR or VET) for admission.

PRIOR HIGHER EDUCATION STUDY

To have prior higher education recognised for admission into Bond University, you must have completed at least one semester of full-time undergraduate study (Australian Qualifications Framework Level 7 or above) at a recognised university.

Your application will be assessed based on the subjects you have completed or attempted to complete at another institution. Your GPA will be assessed, and you will be assigned a selection rank. For more information and the selection rank framework, please visit **bond.edu.au/entry-to-bond/entry-requirements/domestic-entry-requirements**

WORK AND LIFE EXPERIENCE

Another way to gain entry to Bond University is by demonstrating relevant work and life experience. Professional experience and / or qualifications, including employment experience, will be considered on a case-by-case basis.

SKILLS FOR TERTIARY ADMISSIONS TEST (STAT)

Sitting the STAT is intended for applicants without other university entrance qualifications and is administered by QTAC. Your STAT score will be converted to an equivalent university entry score and used in the assessment of your application. For more information, please visit **bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria**

HIGH SCHOOL COMPLETION WITHOUT ATAR

Bond University considers non-ATAR students for admission into the following diploma programs:

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Creative Design (CRICOS 105412G)

The Diploma of Health Sciences and Diploma of Legal Studies are not eligible for an entry pathway as a non-ATAR student.

To be considered for non-ATAR entry, you must have:

- Completed Year 12 and obtained a Queensland Certificate of Education (QCE) or equivalent
- Received a pass mark or higher in a minimum of three General or Applied subjects (with a grade of C or better in Units 3 and 4).

For more information, please visit **bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria**

APPLYING FOR CREDIT

You may be eligible for credit towards a Bond degree by gaining recognition towards your study through your prior learning experience. Use Bond's Credit Calculator to see if your previous study or quantification may provide credit toward your Bond degree.

LEARN MORE ABOUT APPLYING FOR CREDIT

^ The Medical Program comprises two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC. All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

How you will be assessed

How you will be assessed for admission to Bond will depend on your education and work history, as well as your circumstances. Remember, our friendly team is here to help you navigate entry requirements and the application process.

IF YOU ARE COMPLETING HIGH SCHOOL IN 2026

- You can apply direct to Bond, with early offers issued once assessed.
- If you are applying after your final results are released, you will be assessed on your high school academic results and / or rank, including ATAR, IB, NCEA or CIE.
- If you are a non-ATAR student but have received a Senior Statement, we will use your final subject results to calculate an entry rank.

IF YOU ARE NOT A RECENT SCHOOL LEAVER

- You will be assessed on your education history, including post-secondary study, VET qualifications and/or high school academic results.
- A resumé of your work and life experience may be required. In some cases, your work skill level and history can be used to allocate a selection rank.

IF YOU DID NOT COMPLETE SCHOOL OR HAVE NO OTHER QUALIFICATIONS

- There are a number of alternative means of gaining admission besides formal study.
- It may be possible to use a resumé of your work and life experience. In some cases, your work skill level and history can be used to allocate an entry rank.
- You can complete the Skills for Tertiary Admissions Test (STAT).*

LEARN MORE ABOUT ADMISSIONS PATHWAYS

Please contact our Future Students team at **bond.edu.au/future-students-team** to have a conversation about admission.

* The Skills for Tertiary Admissions Test (STAT) will allow you to demonstrate your potential for university study. Refer to the Australian Council for Educational Research (ACER) for more information.

How to apply to Bond

1 CHOOSE YOUR PROGRAM

Deciding on a degree or program is a personal choice. It's about choosing the right program for you — your interests, your future. Remember, our Future Students team is also available to discuss your study options and answer all your questions.

bond.edu.au/search-program

2 START YOUR APPLICATION

Applying to study at Bond is easy. Applications for most Bond programs can be lodged online at any time directly to us. Just make sure you check the entry requirements for your chosen program. You are not required to go through the Queensland Tertiary Admissions Centre (QTAC)*, and there are no fees to apply.

bond.edu.au/application-tips

bond.edu.au/apply

* Applications for the Medical Program^ are only open to domestic students and must be lodged through QTAC at **qtac.edu.au**.

3 SUBMIT YOUR APPLICATION

Once you have completed your application, read and agree to the application declaration and click 'submit'. You will receive an email from Bond University to confirm your application was successfully submitted.

The application review process will normally take two weeks, provided all supporting documentation has been submitted.

Our Future Students team will be in touch with you if they require any further information, so keep an eye on your email inbox. You can track your online application progress through our online application service, or via your personalised webpage.

4 RECEIVE AN OFFER

As a successful applicant, you will receive an email from us offering you to officially become a Bond student. This email includes a formal Letter of Offer from Bond University, information about fees, payment options, and everything else you need to know.

5 ACCEPT YOUR OFFER

You are a few clicks away from confirming your place at Bond! To accept your offer all you need to do is log in to our online application service and follow the instructions. Depending on your circumstances you can either complete the FEE-HELP form online, if you meet the eligibility criteria, or pay the required fees as listed on your offer.

6 ENROL IN YOUR FIRST SEMESTER

Enrolment opening dates are listed on the academic calendar. Once you have met all the conditions of your offer and arranged payment of your tuition fees, as a new student, when enrolment opens you will be able to select your subjects and enrol. Enrolment is a three-step process which happens every semester.

bond.edu.au/enrol

7 GET READY FOR ORIENTATION

Your first introduction to university life! Orientation is the perfect time to make new friends, find your way around campus and complete your enrolment at Bond. The Orientation experience features an exciting program of social activities where you can relax and meet people, and there are lots of information hubs to help you get ready for university life. Orientation information will be sent to you in the lead up to your first semester.

Ambition loves company

BOND'S OWN EXPLAIN WHY AMBITIOUS GOALS CALL FOR A COMMUNITY TO MATCH

Ambition grows in good company, among peers, mentors, and communities who share drive, challenge thinking, and celebrate wins.

Ambition loves company is an idea that's intuitive, and backed by science. From psychology to education, organisational behaviour, and social connection, there's compelling evidence that our goals are shaped by the people around us.

Bond researchers say ambition is contagious. "When we're surrounded by people who are driven, we tend to mirror that drive," says Associate Professor Libby Sander. "It's not just motivation, it's emotional and goal contagion."

Assistant Professor Megan Lee adds that environments fostering autonomy, competence, and connection are key to sustaining ambition. "When people feel supported and capable, they're more likely to pursue meaningful goals and persist through challenges," she says.

Graduate Saxon McGregor agrees. "At Bond, you'll find people who challenge you, back you, and walk beside you. People who show you what's possible and then help you get there," he says. "You feel more confident putting yourself out there, and you build the resilience to bounce back if things don't go to plan."

His advice to future students? "Say yes to everything. Keep doors open, or better yet, bust them open. Step in and experience what that opportunity might be."
