WISE Institute of International Education

www.wisexperience.org

About WISE

Washington International Student Experience (WISE) is located in one of the most beautiful regions in America. Seattle is a place where the Pacific Ocean and the Cascade Mountains provide a diversity of activities and scenery that are endless and breathtaking. And a visit to Seattle wouldn't be complete without a trip to the scenic San Juan Islands where beauty and serenity provide an awesome experience to the visual senses.

Lon Gruesbeck
WISE Director

WISE Head Office

International student Adviser

International student Adviser

Western Washington is the home of such recognizable giants as Boeing, Starbucks, Microsoft, Google and Amazon—just to name a few.

WISE is an organization that recruits students who want to study in the United States and prepare for University. WISE is affiliated with a consortium of schools across North America, giving students options to where they can study. These schools provide a unified curriculum with emphasis on preparing for university.

The continuing mission of WISE, and our partner schools across America, is to provide the best possible educational experience for the students who come to study on our campuses. Providing an educational experience that will be part of the preparation for entering university and the real world in which they will live and work.

WISE partner Schools special features

WISE partner schools provide well-maintained, aesthetically-pleasing, environments and in some cases new facilities.

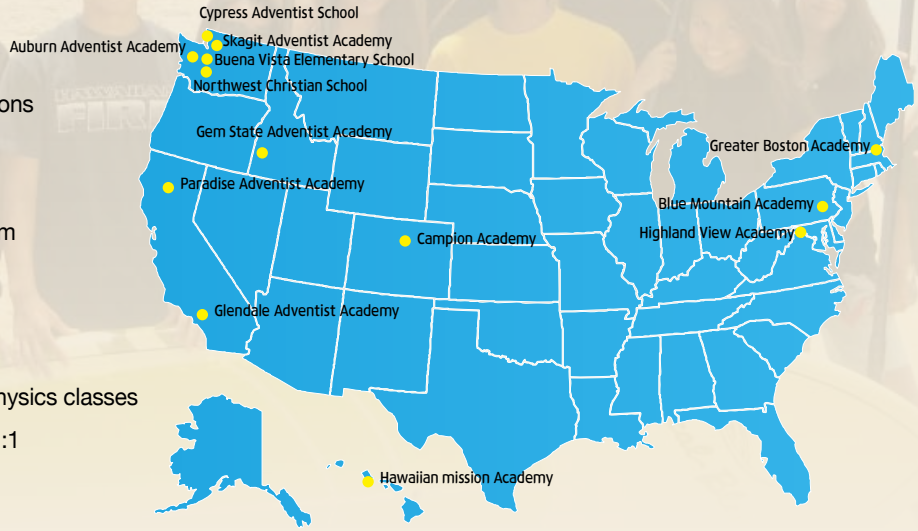

Schools have gymnasiums that provide opportunities for year-round activities.

WISE schools are

- Nationally accredited schools
- Participants in national academic competitions
- Encouraging leadership training in students
- Strong in ESL programs
- Part of a worldwide K-16 educational system

WISE schools provide

- University preparatory classes
- Honors-level math, physics and research physics classes
- A student-teacher ratio of approximately 12:1
- Community service projects
- Technology-enriched programs of learning

Admission procedures

WISE Institute of International Educations has great schools for you to learn.

English while you prepare yourself for your university career.

We have beautiful partner schools with a caring & dedicated staff, and academic schedule to help you succeed in your education experience.

About Wise

International Student

"wonderful lifetime lesson"

– Nahomie Konzi / Auburn Adventist Academy

I am Nahomie Konzi from Democratic Republic of the Congo. Coming from an opposite culture, I thought that the change would have been hard for me in the sense of getting used to the new culture and lifestyle. But Auburn made this transition easier and did not require me too much work. The first one, Auburn is a place where I not only gained academic education but also a lifetime lesson because this school helped me grow as a young woman who can defend herself against any sort of obstacle in life.

"treated as a longtime friend"

– Hyeongjin Lee / Blue Mountain Academy

When I came to Blue Mountain Academy to study a year ago I met a new different world. I felt very special because everybody already knew my name and treated as a longtime friend by caring for me. As I study here some friends pray for me when I am in need. Even all teachers in this school also care and help new student like family. So I am relieved and comfortable being here. And if you are preparing to study abroad, I strongly recommend BMA.

"opportunity to share my culture"

– Kevin Jung / Buena Vista Elementary School

I was in 4th grade when I started attending Buena Vista and living with my host family. I gained two brothers and a sister. I love my host family. This summer, I had an opportunity to share my culture with my classmate who visited Korea. My friend was able to visit with my family and we had a great time sightseeing. I have many memories with my friends and my host family.

Staff

Remember that the more effort you put in to immersing yourself in a new culture, the better your experience will be at AAA. As an English teacher, I am available to help students as needed. I really enjoy working with our international students.
English teacher ***Stacy Tejel***
- Auburn Adventist Academy

Blue Mountain Academy is a global school with students from around the world. Because students are being sent to study at BMA, and because many of our staff also have children, we take special care to provide a safe, comfortable environment that gives parents peace of mind. Parents are also welcome to come and visit our campus and stay in a guest room during their visit.
By Principal ***David Morgan***
-Blue Mountain Academy

Parents

I'm a mom of a Chinese student. My daughter came to BMA in August, 2016. In such a little amount of time, she changed so much. I'm so shocked about that. Actually, before the decision was made (for my daughter to go), I was so worried about her. But when I picked her up at the airport, she was so shiny and confident. She was glowing in the crowd. I was so shocked. I didn't even had that courage to meet with her. Her school is located in Pennsylvania. It is a private christian school. My daughter said there were really a lot activities happening when she was in the school. I can actually feel her joy and excitement. Teachers always take students out from the campus and go to somewhere like a museum or amusement parks. Those are really helpful with her personalities build-up.

Wenfei Yu and her mom.
-Blue Mountain Academy

Wise HomeStay

McCormick Family

"Be open to trying new things. Take ALL opportunities to use English and experience American culture. Make new friends with people who speak a different language than your own."

Hubin Family

Our family has had the privilege of welcoming 4 long-term students into our home and into our hearts.
Having these students in our homes has enriched our family as much as we hope we have enriched their lives.
Our children consider each one of these students their'brother' or 'sister'.
It has been so rewarding to have these kids enjoy our family and have them want to return

Richards Family

We've hosted international students for over 20 years.
Our initial reason for participating was to introduce our children to other cultures and to share our wonderful country with visitors from around the world.
What we've discovered is in the process of introducing American food and experiences to our international students we've also learned a lot about their cultures.
Through these cultural exchanges we have come to realize that people are pretty much the same no matter where they're from.
What we weren't expecting was how much these young students would capture our hearts.
We consider them our 'kids' and our family is much larger now, with 'sons and daughters' located all around the world. Along with the students we've become acquainted with
and made lifelong friendships with some of their parents and family members.
In short, the WISE program enriches the lives of both the students and their host families and we feel privileged to have been a part of it.

WISE Summer & Winter Camp

- American Cultural Experience in Washington, "The Evergreen State"

WISE provides short -term programs for international students to learn English in a formal classroom and visit iconic places of interest on the West Coast of the United States. Many students from China & Korea have participated.

Session 2~3 weeks
Grades 7th ~ 11th
