Cape Cod Academy

Incorporated in 1976 and located in the beautiful peninsula region in southeastern Massachusetts, Cape Cod Academy is an independent coeducational K-12 school on a 46-acre beautiful campus.
Home to beaches, forests and lighthouses, Cape Cod has long been a popular destination for elite American families, with Presidential families including the Clintons, the Obamas and the Kennedys spending time there. Cape Cod also holds historical significance in the U.S., and is where the Mayflower - the most famous ship in American history - landed in 1620, establishing the first permanent colony and beginning a new chapter of world history.
Cape Cod Academy offers students a rigorous college preparatory program, with honors and AP courses, a technology curriculum, fine arts, science internships and the Personalized Approach to Learning (PAL) Program. The Atlantic coast and State-Of-The-Art facilities create the best learning experience inside and outside the classroom. Cape Cod Academy is also one of the few elite K-12 schools in New England with all grades open to international students.

- Year founded: 1976
- Location: Osterville, Massachusetts
- Size of campus: 46 acres
- Grade levels served: K-12 (all grades open to international students)
- Student number: 334
- Faculty student ratio: 1:7
- Percentage of faculty with advanced degree: 80%
- Average class size:12
- Number of AP courses offered: 19
- Number of sports teams: 28

School Highlights

1. **CCA's Personalized Approach to learning (PAL) Program identifies each student's unique learning style**
   - Each student has an individualized PAL profile and a customized approach to learning.
   - The PAL profile is based on data generated through student information, surveys and interviews, ensuring students are supported in effective and meaningful ways.
   - PAL is particularly beneficial for gifted students, in helping them to select advanced courses and reach their full potential.
2. **The Learning Center offers academic resources, helpful strategies and supportive coaching to students with questions and challenges in their coursework**
   - One-on-one tutoring options on various courses and subjects.
   - The executive functioning coach helps students with skills such as time management, planning, prioritizing, initiating tasks, self-advocacy and problem-solving.
   - For students with additional academic challenges, the learning specialists can provide a referral to additional on-site tutoring.
3. **The Atlantic coast becomes the best classroom for specialized marine courses and best training facility for sailing teams**
   - Marine science, biology and conservation courses help foster an appreciation and understanding of the natural world.
   - CCA offers boating safety/motorboat operation certificate courses, and the sailing team became the New England Champion in 2013.
4. **Beautiful campus with state-of-the-art facilities**
   - The 46-acre campus is comprised of six interconnected buildings, green outdoor space and the academic complex.
   - Highest quality athletic facilities including an activity center, a basketball court, indoor and outdoor training space/fields, a gymnasium, tennis courts, a baseball field, and an outdoor swimming pool.
   - One of the very few elite schools in New England that provides K-8 international programs.
5. **Well-rounded, rigorous curriculum and a 4-year college counseling program that prepares students for college and career readiness.**
   - 30+ AP and Honors courses are offered.
   - The Winterim Program and Science Internship Program encourage students to explore their areas of interests.
   - College planning starts at freshman year and connects students with enrichment opportunities.
   - Special Programming offers workshops, mock interviews, seminars, arts/athletics info sessions.
