Academic Superintendent
학업전담 관리자

Chase Vaughn

Hello and welcome to Nacel Open Door's Private School Program (NOD/PSP)!

My name is Chase Vaughn and I am the Academic Superintendent. I have served our community and schools since 2013.

Education and athletics have been passions of mine since I was young. I started my career in Central New York as a teacher and coach before moving to Beijing, China. Prior to my current position, I served as the principal at an American school within the Nacel International School System. This role allowed me to work with a student body that included 40% Korean students and I got to know and understand the expectations of Korean families quite well. In addition to working as a principal, I have held various teaching and administrative roles throughout my career. I've also had the privilege to be the president of the Beijing Area Sports Exchange athletics league for four years in which we helped build athletic and educational opportunities for students in the Beijing/Tianjin area. I believe that I can apply my skills and experiences to help the students of NOD/PSP.

The position of Academic Superintendent is offered by our program to provide academic assistance and guidance for our students. As the Academic Superintendent, I review applications and transcripts to assist with the course scheduling process to help students be prepared upon arrival. I also work to assist students with their academic needs as they arise. By attending a school within our network, our students have opportunities to achieve higher test scores, take AP courses for college credit, enroll in STEM courses for additional diplomas where offered, and participate in extracurricular activities such as arts, music, or athletics to prepare them for university.

As the Student & Host Family Adivsor, I work with students, host families, and local representatives to ensure everyone is prepared for arrival and having a positive experience throughout the year. Living with a host family is so very important to your educational exchange experience and we want you to know that we are available anytime to support your needs. I've spent many years working with students and families to set goals and develop physically, socially, mentally and emotionally.

Nacel Open Door values our partnerships and work tirelessly to update our partners and parents regularly. I'd like to thank you for taking the time to get to know us, we appreciate your interest in our program, and look forward to seeing you soon!

Chase R. Vaughn
Academic Superintendent
