† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience with one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Personal development activities (all courses)

Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.
