Your Guide

TO POSTGRADUATE DEGREES

Welcome

from Vice-Chancellor, Professor Paul Boyle

At Swansea University, we recognise the commitment and drive it takes to choose to undertake postgraduate study.

We are proud of our global reputation for research excellence, as evidenced by securing our highest ever position in the prestigious QS World University Rankings this year. We are listed within the world's top 300 universities in the world for the second year running and were also ranked 36th in the world and 5th in the UK for our contribution to the UN Sustainable Development Goals in the THE Impact Rankings 2025.

These results reflect our commitment to providing academic excellence and a thriving, supportive research environment where our postgraduate researchers can make a real difference. In the most recent Research Excellence Framework (2021), 91% of our research environment and 86% of our research impact was rated world-leading and internationally excellent.

In these pages you will find examples of how our research community is working collaboratively and internationally to address the greatest challenges facing our people and our planet.

My first academic role was as a lecturer at Swansea University, and I have firsthand experience of the dedicated teaching and support you will receive here to help you on your path to a brilliant career. Our outstanding facilities and teaching expertise are designed to help you progress and excel in your chosen field. I do hope that you decide to join our vibrant research community.

FROM CAMPUS TO BEACH IN MINUTES

At Swansea University, you can head straight from campus to a beautiful five-mile stretch of beach, accessible from both campuses.

Discover Wales

DISCOVER SWANSEA

A land renowned for its sense of adventure, secret escapes, castles, mountains and of course, beaches. We invite you to get stuck in and discover your version of Wales.

Ystradfellte four waterfalls walk – Bannau Brycheiniog

SWANSEA AND THE AREA

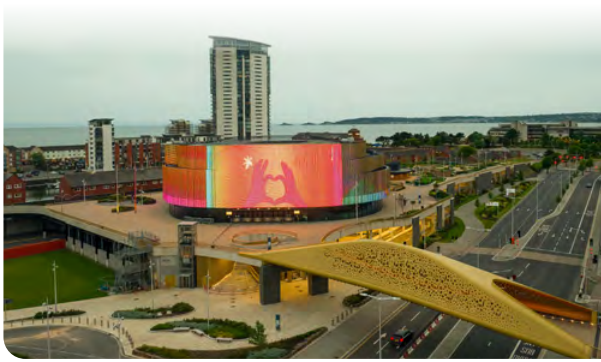

Unwind on the Gower Peninsula, relax on award-winning beaches, or explore unspoilt countryside in the Bannau Brycheiniog National Park. Our region has some of the UK's best locations for coastal path walks, surfing, cycling, water sports, rock climbing and golf. From adventure sports to laid-back strolls on the beach, there's something for everyone.

MUSIC, FESTIVALS AND MAJOR EVENTS

Wales is known as the 'land of song', so you won't be disappointed by the range of live music venues across the city!

Swansea also attracts a number of major annual events, including the IronMan 70.3, recently made a part of their Pro Series, with some of the world's best athletes in attendance, the Swansea Bay Air Show, often attended by the incredible Red Arrows, and the Swansea Bay 10k and Half Marathon races.

ARTS AND THE TALIESIN CENTRE

Swansea is a vibrant centre for art with the Glynn Vivian Art Gallery recognised as the city's premier venue. All national museums and art galleries in Wales are free to enter, so you can soak up some culture at your leisure.

The Taliesin sits at the heart of Singleton Campus, hosting regular shows, comedians and cinema screenings, and is home to the award-winning Egypt Centre, with a collection of 5,000+ Egyptian artefacts.

SHOPPING

Shop vintage and pre-loved in the Uplands, high-street brands in the city, independent boutiques in Mumbles, or explore Wales' largest indoor market if you're on the hunt for hidden gems!

Funding YOUR STUDIES

Swansea University is committed to rewarding its students in recognition of their academic and non-academic excellence, and offer a wide range of scholarships and bursaries to help towards the cost of study.

Income-related bursaries are also available, together with funding towards studying in another country if chosen as part of a degree programme.

For further information, to check your eligibility or make an application, please see the funding page.

UP TO £5,000

POSTGRADUATE INTERNATIONAL EXCELLENCE SCHOLARSHIP

Scholarships are awarded as a discount on tuition fees and worth up to £5,000 for postgraduate courses*

£2,000

SPORTING EXCELLENCE SCHOLARSHIP*

MUSICAL SCHOLARSHIP*

Up to fifteen hours of individual tuition per year in their instrument or voice. An annual bursary of £650 (available to taught master's students only)

Terms and conditions apply – please visit:
swansea.ac.uk/postgraduate/scholarships

*Funding and scholarship opportunities are only available for enrolled Swansea University students.

FEES AND *Funding*

We commit to a significant investment in postgraduate education.

Our master's scholarships are available across all academic faculties and schools, and are advertised throughout the year, offering funding to UK and international students.

TUITION FEES

Tuition fees are determined by your year of study, the type of course you are undertaking and your country of domicile.

You will be asked to pay your fees, or show evidence of sponsorship, before or during enrolment. You can find tuition fee details for each course on our website:

Find out more

Tuition fees are subject to annual increases and the new rates are published on our website as soon as they become available.

If you would like more information on the fees payable for your particular programme, please contact the Student Finance Office on:

contact us **+44 (0)1792 602700**

Please check our Fees and Funding web page before making an application to study at Swansea:

Find out more

FUNDING

There are now more ways than ever to fund your postgraduate studies. As well as the scholarships and bursaries that Swansea University provides, postgraduate funding is available from numerous organisations, including the Student Loans Company, research councils, industry and charities. Many postgraduate students fund their studies through 'portfolio funding', in which they gather funds from a variety of sources. Examples of the types of funding available include:

POSTGRADUATE GOVERNMENT FUNDING

Postgraduate government funding is available to all UK and eligible EU domiciled students (with settled or pre-settled status) studying master's and PhD level courses at a UK university. The method of application and amount you could receive is dependent on your country of domicile. You can find all the latest information on our website:

Find out more

SWANSEA UNIVERSITY MASTER'S SCHOLARSHIPS AND BURSARIES

We advertise a range of master's scholarships and bursaries throughout the academic year. All opportunities are listed on the following website, and are updated regularly:

Find out more

INTERNATIONAL ALUMNI POSTGRADUATE BURSARY SCHEME

International students who have successfully completed an undergraduate or postgraduate taught degree at Swansea University will be considered for a bursary (dependent on subject area) towards postgraduate tuition fees. The scheme is open to eligible candidates applying for a taught or research degree at Swansea University.

FACULTY SCHOLARSHIPS AND BURSARIES

Many of our academic faculties also offer additional scholarships and bursaries for taught and research programmes.

Scholarships and bursaries become available throughout the year and we advertise them on our website. You can be the first to know about the funding opportunities we offer by visiting:

MONEY ADVICE AND SUPPORT

The **Money Advice Team** provide guidance on all areas of student funding, including:

- Grants, loans, bursaries and welfare benefits
- Helping you to manage your money
- Supporting care leavers
- Opportunity Award
- Helping you to draw up a realistic budget
- Debt advice

Money Advice Team

INTERNATIONAL STUDENT SUPPORT FUND

We have also established a small fund to provide emergency assistance for international students who face financial difficulties not anticipated at the start of the course, and not within their control.

Find out more

CHARITIES, FOUNDATIONS AND TRUSTS

A large number of charities, foundations and trusts award funding for postgraduate study. Details can be found in The Grants Register (published by Palgrave Macmillan) and The Directory of Grant Making Trusts (published by the Directory of Social Change), both of which should be available in your university careers service and local library.

EARN WHILE YOU LEARN

There are plenty of part-time jobs to be found in and around Swansea, and the Careers and Employability team has information on a wide range of opportunities for temporary and part-time work, as well as summer and term-time internships.

Find out more

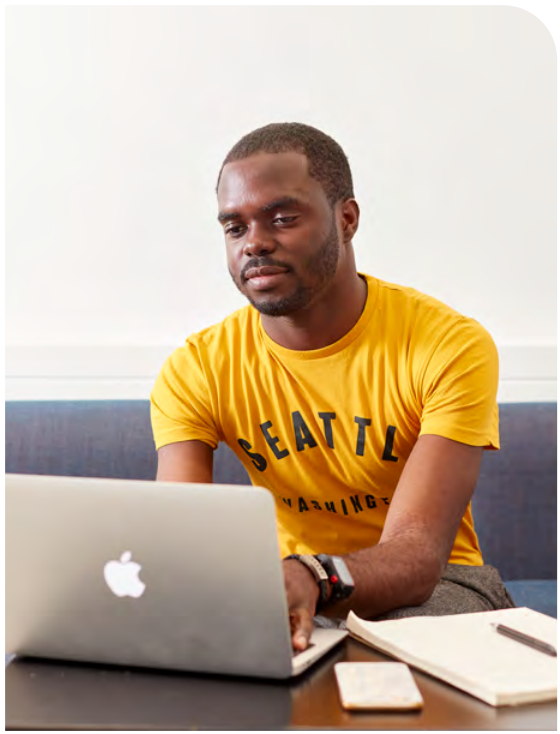

SUPPORT FOR CARE LEAVERS

We administer and deliver the Care Leavers Support Package, a comprehensive range of measures to help care leavers settle in and focus on their studies. Eligible postgraduate students can receive a postgraduate Care Leaver bursary which is a one off payment per course.

SWANSEA UNIVERSITY OPPORTUNITY AWARD

The hardship fund is intended to support students through any unexpected or difficult financial circumstances whilst at university. Each application will be considered and assessed on an individual basis, with the strictest confidentiality by our expert advisors.

CHECK OUT OUR DEDICATED GUIDE FOR WORKING IN THE UK

MEET SIMON AND MATTHEW, TWO MECHANICAL ENGINEERING POSTGRADUATES WHO TURNED THEIR RESEARCH INTO A START-UP

Air View Engineering was created by two Swansea University postgraduate students, with the goal of tackling the climate crisis. Their innovative CO_2 capture technology is the product of three years of innovation and development, designed to be scalable, modular, and rapidly deployable. With consistent support from the Swansea University Enterprise Team and over half a million pounds in grants, they have begun developing their first pilot facility. Resilience is key, but with a good idea, nothing should stop you from achieving your goals. Air View Engineering is proof that knowledge from your postgraduate degree can be applied to real-world problems to make a meaningful impact.

A World-Class

RESEARCH-LED UNIVERSITY

At Swansea, our research changes lives. We are not afraid to tackle large issues, and have made a positive impact globally in areas such as the climate crisis, preserving ancient monuments, and improving health. We have led on the UK's largest ever seagrass restoration project, monitored global drug policies to enact change, used big data to reduce self-harm and suicide, and even developed buildings that generate, store and release their own energy.

Many of our researchers also teach on our courses, so you will benefit from their knowledge and experience as part of your studies. You could even become part of a research team, helping to explore, prevent and solve global issues.

You can learn more about our groundbreaking research and its global impact through our podcast series 'Exploring Global Problems'.

IS A POSTGRADUATE TAUGHT DEGREE RIGHT FOR ME?

Yes, if you want to:

- ✓ Enhance your career prospects
- ✓ Acquire new and specialised skills
- ✓ Prepare for a research degree
- ✓ Develop your subject knowledge of your first degree subject
- ✓ Study an entirely new subject
- ✓ Improve your salary potential

Postgraduate

TAUGHT DEGREES

Postgraduate taught degrees offer an exciting academic challenge beyond undergraduate studies, demanding greater self-directed learning and a deeper understanding of your chosen subject. Our master's programmes blend engaging taught modules with assessed coursework, culminating in a compelling research project or dissertation.

With 120 credits from taught modules and 60 credits from your dissertation, you'll gain comprehensive knowledge and specialised expertise.

Our courses include vital research and methodology skills, along with tailored departmental training to prepare you for advanced academic and professional pursuits.

Specialised training opportunities throughout the year enrich your learning experience. Additionally, you can achieve a Postgraduate Diploma with 120 credits or a Postgraduate Certificate with 60 credits.

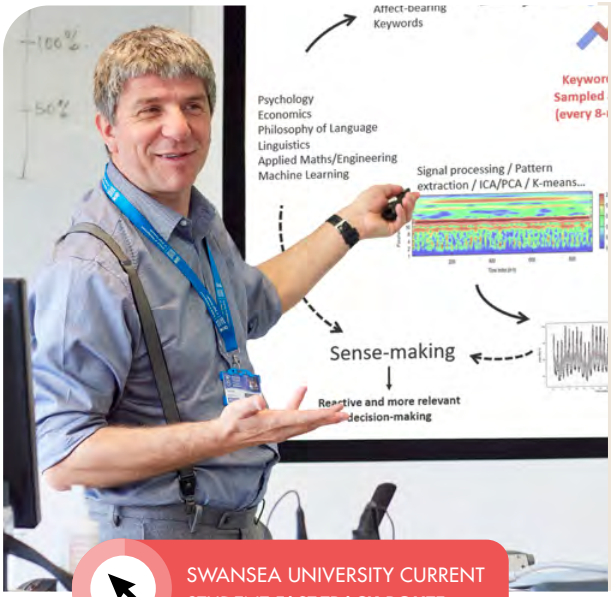

At Swansea University, you can choose from a diverse range of postgraduate degrees, including MA, MSc, and LLM, either continuing your undergraduate focus or exploring new fields. Join us to advance your knowledge, enhance your skills, and open doors to exciting career opportunities.

STUDENT SATISFACTION POSTGRADUATE TEACHING

91%*

Postgraduate Taught Student Experience Survey 2025*

*91% of postgraduate taught students stated that they were satisfied with the teaching on their course. Data based on 640 responses taken from PGTSES 2025 – an internal survey assessing the satisfaction of Swansea University's postgraduate taught students.

SWANSEA UNIVERSITY CURRENT STUDENT **FAST-TRACK ROUTE**

FAST-TRACK

If you're a current Swansea student in your final year of undergraduate study, you could apply for a master's degree via Fast-track*. Here are a few key benefits of applying through Fast-track:

- You won't have to submit references, academic transcripts or a personal statement
- Your application will be prioritised
- You'll receive a decision within 48 working hours

*eligible courses only. Full list available on the Fast-track webpage.
swansea.ac.uk/postgraduate/apply/fast-track/

CONVERSION COURSES

If you want to change the direction of your studies or career path, you have the option as a postgraduate student to move away from the area you studied at undergraduate level by studying a conversion course. These courses allow graduates of any subject area to study a postgraduate master's course without any previous relevant qualifications.

We have a diverse selection of conversion courses available in finance, science, engineering, health science, medicine, law, business management, and arts and humanities.

POSTGRADUATE TAUGHT DEGREES
COURSE LISTINGS

CAN I STUDY PART-TIME?

Master's, Postgraduate Diplomas and Postgraduate Certificates can normally be studied on a full-time or part-time basis in a wide variety of subject areas. You are encouraged to contact the academic department in question before applying.

Postgraduate

RESEARCH DEGREES

Postgraduate research programmes offer an opportunity to develop an advanced, in-depth knowledge of your subject. Working under the close supervision of academic experts, you'll be supported to become a skilled independent researcher, producing original research that contributes to your wider subject area.

Swansea is home to a world-leading research community, with a strong focus on inclusivity and collaboration to achieve real-world impact. As a postgraduate researcher at Swansea you'll collaborate with world-renowned academics and research groups as well as having the opportunity to work with industry and external partners.

Our Postgraduate Research Office coordinates interdisciplinary postgraduate research activities and support across the University. We work to ensure you have the best possible experience by providing access to funding and development opportunities, providing training and resources to develop your professional and research skills, and supporting student-led events and activities.

We offer a variety of research degrees including PhDs, professional doctorates and Master's by Research.

Find out more

APPLYING FOR A RESEARCH DEGREE

There are two main routes to applying for a postgraduate research programme:

1 PREDESIGNED PROJECTS AND STUDENTSHIPS

A predesigned project will often be part of wider research being undertaken by an academic or research group. These types of projects will usually have a defined title, fixed aims and objectives, and you'll normally be supervised by the academic that designed the project. Swansea University advertises a large number of these opportunities throughout the academic year in all subject areas. All available projects are advertised on our research scholarships webpages or on our self-funded PhDs page, with new opportunities added frequently.

2 SELF-DESIGNED PROJECTS

A self-designed PhD will take a little more effort and thought to get started, but you should ultimately end up with a project theme that truly excites and interests you. After coming up with an initial idea for a project, you will need to identify an appropriate academic supervisor. A good starting point is to find the University department with the areas of strength that are most relevant to your research. You can also search Swansea's directory of expertise to find an academic with research interests close to your own.

IS A RESEARCH DEGREE RIGHT FOR ME?

Yes, if you want to:

- ✓ Pursue a career in academia or research
- ✓ Explore an individual topic in depth
- ✓ Acquire extensive and specialised research skills
- ✓ Enhance your career prospects

RESEARCH DEGREES
COURSE LISTINGS

Your Postgraduate

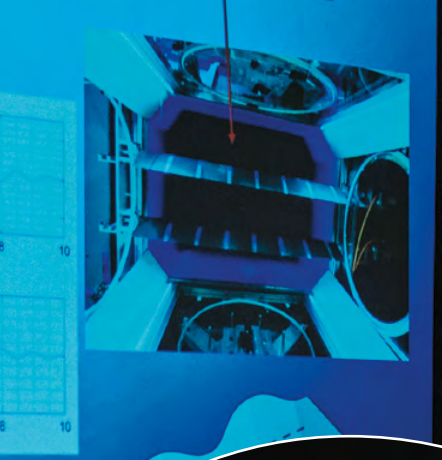

RESEARCH COMMUNITY

Swansea is home to a thriving research community combining world-leading research with a welcoming, inclusive and collaborative ethos. Our Postgraduate Research Office coordinates and supports interdisciplinary postgraduate researcher activities across the University. They work to ensure you have the best possible experience by providing access to funding and development opportunities, providing training and resources to develop your professional and research skills, and support student-led events and activities.

As part of Swansea's commitment to supporting the very best researcher talent, we offer several fully funded PhDs across our flagship programmes: the Swansea University Research Excellence Scholarships (SURES) and Swansea University Strategic Partner Research Scholarships (SUSPRS). We also recognise and celebrate academic attainment through the James Callaghan awards, providing current Swansea research students funding to further their research.

As a world-leading research institution, we are part of several prestigious UKRI-funded doctoral initiatives. We bring together experts and support our doctoral students to become the leading researchers of tomorrow, offering additional development opportunities such as international study or work, and placements with industry partners.

OUR TRAINING THEMES:

- Managing Information and Data
- Presentation and Public Engagement
- Leadership and Working with Others
- Academic Writing
- Research Methods
- Safety, Integrity and Ethics
- Impact and Commercialisation
- Teaching and Demonstrating
- Career Planning and Progress
- Resilience, Problem Solving and Personal Effectiveness

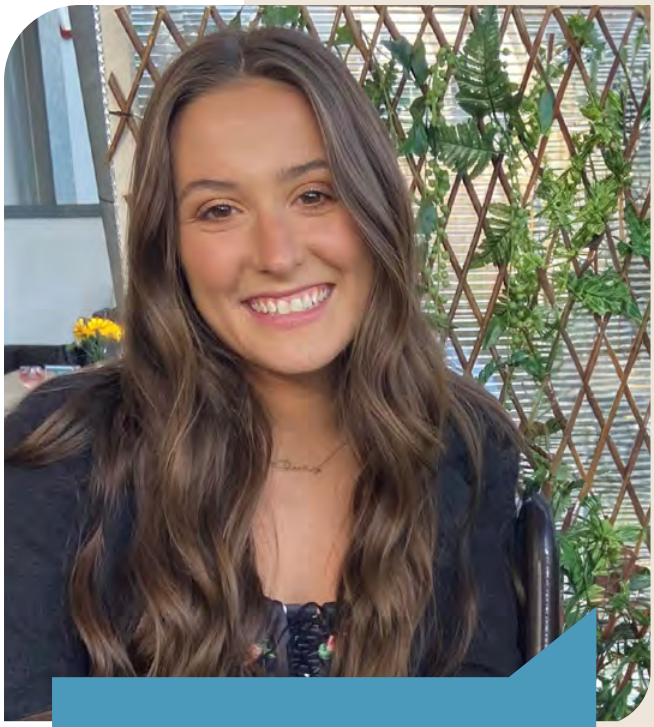

UNDERGRAD TO *Postgrad*

Some of our current students share their experiences of transitioning from undergraduate to postgraduate study:

There's lots of benefits to staying with us in Swansea to study your postgraduate degree:

1. You'll already be familiar with the University, its campuses and surrounding areas.
2. Having already studied with us, you'll know all the best places to live, study, eat or relax!
3. You'll still be able to access the extensive range of services offered by departments such as the Careers and Employability team, Centre for Academic Success and HWB.
4. You may already know several of your postgraduate coursemates, and you may even be able to continue living with former flatmates.
5. Swansea's range of conversion courses allow you to study for your postgraduate degree in a completely new subject area.
6. If you choose to study in the same subject area, you can continue to build on your working relationship with academic lecturers and mentors, further developing your specialist knowledge.
7. As a current Swansea student, you'll complete a much shorter application form for your chosen master's* course via Fast-track.

* Course restrictions apply

BECKY GREENWAY

MA International Journalism student

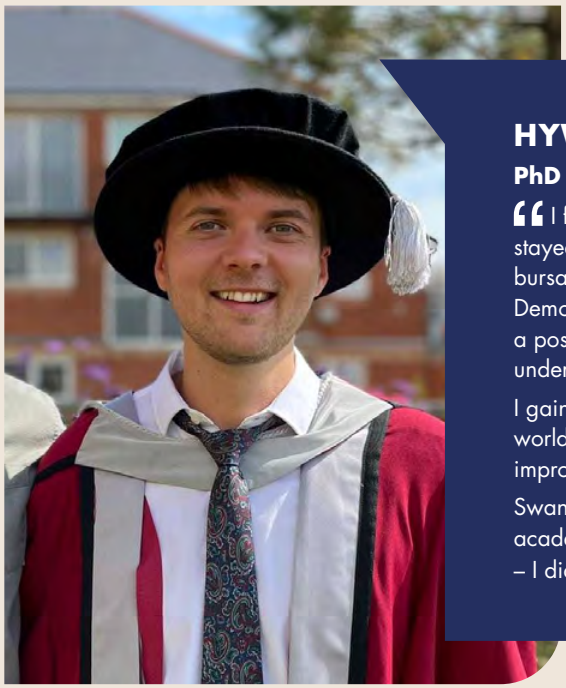

"I chose to complete my master's degree at Swansea University because of the wonderful experience I had during my undergrad here. A key factor in my decision was Swansea's dedication to student employability. The biggest difference between my undergraduate and postgraduate experiences is the higher level of difficulty. However, Swansea provides ample support from lecturers, supervisors, and library staff, ensuring you feel supported. My advice for undergraduates considering staying for their postgraduate studies is to attend a postgraduate open day to learn more about the courses and opportunities available."

HOPE HENRY

Medicine Graduate

"I chose to stay at Swansea for Graduate Entry Medicine because of my excellent experience in my first undergraduate degree here. Swansea offers Graduate Entry Medicine, rather than undergraduate Medicine, which allows you to meet people from all walks of life, who all bring a unique set of skills to the table. Swansea's course also has an excellent reputation, including the spiral curriculum, early clinical exposure and welfare support. There is such a welcoming, friendly atmosphere around the campuses, between staff and students alike. It is diverse and vibrant university, meaning that Swansea can serve as a home from home for anyone and everyone."

HYWEL EVANS

PhD Physics graduate

"I finished my MPhys Physics integrated master's degree and stayed in Swansea for a PhD in an antimatter lab. I secured a bursary to fund my studies and worked as a Postgraduate Demonstrator for teaching experience and additional funds. Being a postgraduate researcher required more time commitment than my undergraduate studies and prepared me for full-time employment.

I gained practical skills and presented at conferences around the world, including Belfast, Dundee, Geneva, and Belgrade, which improved my abilities and success in job interviews.

Swansea University had all the tools I needed to succeed academically and is so close to great parks and beaches – I didn't want to study anywhere else."

ASHISH DWIVEDI *MPhil English Literature*

"Swansea was an easy decision. My supervisor shares my interests in science fiction and digital humanities, and their unwavering support has been invaluable.

The international community here is vibrant, celebrating multiculturalism. Swansea strikes the perfect balance between urban and rural life. I fell in love with the city's cultural flavor, from Mumbles to the Gower. And guess what? The university is close to the beach!

Swansea University boasts over 100 social and academic societies. I'm an active member of the Shoreline Theatre."

ESTHER MAGANO NANTANA

MSc Public Health and Health Promotion

"My favourite things about Swansea are that its a quiet, peaceful and safe city with friendly people."

See Oluwaseun's full profile

"As a master's student at Swansea University, I was keen on not only gaining academic experience, but also professional experience. I was able to get a job within the Faculty of Humanities and Social Sciences as well as in other formal work sectors. Since graduating, the proudest moment for me has been founding the 'Stand To End Rape Initiative', experiencing the joy in the faces of the survivors we have worked with. There is an innate sense of accomplishment when the organisation removes a victim from an abusive situation. It feels great to have been honoured as a Commonwealth Young Person of the Year 2019 and an Obama Foundation Leader in Africa."

LANVELL BLAKE

MSc Public Health and Health Promotion. Class of 2021.

PUBLIC HEALTH CAMPAIGNER.

See Lanvell's full profile

"Public health and health promotion issues are never black and white. Interventions are rooted in a lot of social, political and economical factors. I appreciated that the programme allowed us to see public health through the lens of different countries. Individual students had the opportunity to speak about public health issues in their country and how those issues were being tackled. It also provided a space for reflection on one's own country and for both comparison and contrast to be made."

DR WAFA ALI

Chemical Engineering PhD. Class of 2020.

POSTDOCTORAL RESEARCH ASSOCIATE AT TEXAS A&M UNIVERSITY.

See Dr Ali's full profile

"My life at Swansea was a great experience, and I planned to make the most of it. Swansea encouraged me to be academically strong and become a better person in life. I learned to deliver presentations and talks and met experts from different backgrounds which boosted my leadership quality."

SEE MORE ALUMNI STORIES

MAKE YOURSELF *at home*

As a postgraduate student joining the Swansea University community, we want to help you find a place you can call home. Postgraduate accommodation is available at: Bay Campus, Singleton Park Campus, and Beck House in the nearby Uplands area. Tenancy lengths will match the duration of your studies. For many postgraduate students, this will be 51 weeks.

BECK HOUSE

We have a number of single, couple, family, and self-contained flats at our designated quiet residence, Beck House, approximately a mile from Singleton Park Campus in the popular area of Uplands. Due to the 51-week tenancies, this accommodation is particularly suited to postgraduate and international students.

BAY CAMPUS

Bay Campus is one of the only university campuses in the UK with direct access to the beach and its own seafront promenade.

The types of accommodation at Bay Campus include twin rooms, en suites, premium en suites, wheelchair accessible rooms and 1 and 2-bed flats. It is open to students on any course, and there are frequent, direct bus services between campuses.

SINGLETON PARK CAMPUS

Swansea University is proud to promote active travel and with our Singleton residences being so close to the park, beach, Swansea Bay Sports Park, Singleton Hospital and Swansea Bay, you can chose to walk or cycle to and from your accommodation.

Singleton provides standard and en suite rooms, self-catered rooms as well as those with a catering allowance.

Explore your accommodation options at Swansea University

*Information provided by Numbeo, June 2025

BENEFITS OF LIVING ON CAMPUS

- Guaranteed accommodation for the duration of your studies.
- Our rooms have free Wi-Fi.
- Friendly on-campus security team, providing 24/7 emergency response, first aid and security patrols.
- 24/7 launderette facilities that you can check availability for online.
- Everything you need all in one place, meaning less time travelling and more time to maximise your university experience.
- Adapted rooms are available for students with special requirements, including wheelchair users. Contact the Wellbeing and Disability Service for further information.
- En suite rooms available.
- Options of quieter, single sex and alcohol free accommodation.

BAY CAMPUS	SINGLETON PARK
Café Bar	Dentist
Faith Space	Faith Space
Food Outlets	Food Outlets
Gym	Health Centre
Great Hall	Launderette
Launderette	Mini Market
Mini Market	Sports Facilities (Swansea Bay Sports Park)

Hire one of our Swansea University Cycles. With docking stations along the city's main cycle route, you can ride at your leisure.

SHHH!

We also have some areas that are quiet and alcohol free.

FINDING THE PERFECT PRIVATE SECTOR HOME

If you'd prefer to live off campus, you'll be pleased to know that there's a good supply of quality private sector student houses and flats in Swansea.

Our online, searchable database, **Studentpad** is invaluable. It allows you to locate other available housing in the area and takes the effort out of house-hunting.

For more information:

Supporting YOU

Dedicated support for you as a postgraduate student

HWB – How can we help?

HWB offers information and guidance on any aspect of student life from enrolment to graduation. The team also provides advice, guidance and referrals for all your support requirements during your time at Swansea University. You can visit our experienced and friendly teams on Singleton Park and Bay Campus.

- Specific skills training programmes for postgraduate taught and research students
- Additional support for mature learners/students with caring responsibilities
- On-campus nursery providing flexible childcare options
- Dedicated postgraduate Students' Union Officers

Find out more

Swansea University Prifysgol Abertawe | Hwb

HEALTH

University dental care offers a full range of NHS and private treatments to students. Dentist and Doctors' surgeries are located on Singleton Park Campus.

DISABILITY OFFICE

Ensuring the same student experience for all. The Swansea University Transcription Centre (SUTC) for example, is a dedicated transcription service which provides accessible learning resources to print for disabled students.

WELLBEING SERVICES

A range of free student services to look after your wellbeing, including: a mental health support service, LGBTQ+ support, meditation, a listening service and bereavement support delivered by our friendly staff.

MONEY ADVICE TEAM

Are always on hand to help you max your cash and keep your finances in check.

Go Global

Swansea University recognises that enhancing its future graduates' employability has never been more important. As more and more businesses recruit from a global talent pool, it is vital that you stand out from the crowd with additional skills.

Employers acknowledge the value of international experience,and students who spend time abroad develop and demonstrate the qualities that employers seek: global and intercultural awareness, maturity, confidence and adaptability to new environments and challenges.

Studying and working abroad:

- Rewards you with an international outlook and experience
- Enables you to gain confidence and become more self-reliant
- Helps you develop independence and initiative

See our website for more details

STUDENT *Experiences*

As a Swansea University student, there are opportunities to gain international experience through our variety of non-credit bearing cultural, volunteering and study programmes during the summer:

Find out more

Additionally, some students may have the opportunity to spend a period overseas as part of an extended master's programme. Details of these options are available on specific course pages.

There are a range of funding opportunities available to support students who choose to go abroad – please refer to our website for the latest information:

Find out more

Ulrike Leonhard

As part of the Extended MA in Translation and Interpreting, Ulrike spent a year abroad studying in Belgium.

"My year abroad in Belgium was a great experience. I made new friends from all over the world and was able to travel throughout the country. The Netherlands, Germany, Luxembourg and France are all within close distance so there are no limits when it comes to exploring! My student experience at both universities could not have been better."

Sunday Obazie

Sunday Obazie spent a semester abroad at The Bush School, Texas A&M University as part of the Extended Masters in International Relations.

"As an International Relations student, travelling to the USA and studying at Texas A&M University was an amazing opportunity. The experience truly broadened my horizons, allowing me to discover how different the culture and the people are compared to the UK and Nigeria, where I am from. Alongside my studies, I was able to experience American culture firsthand, attending football games, exploring local cuisine and making new friends."

WELSH-MEDIUM *Opportunities*

Swansea University provides a number of opportunities for you to study through the medium of Welsh at postgraduate level. If you have been studying through the medium of Welsh at undergraduate level, continuing to study through the language at postgraduate level is a natural step and we actively encourage you to do so.

Your academic work can be submitted and assessed through the medium of Welsh across all subject areas and you will receive support from a Welsh-speaking personal tutor.

ACADEMI HYWEL TEIFI

The University's Academi Hywel Teifi is a centre of excellence and gives Welsh-speaking students, or those keen to learn the language, the opportunity to study courses through the medium of Welsh and can significantly increase graduate employment prospects in the process. Welsh-medium academic support is available to help you develop your academic skills and achieve your goals. Beyond your studies, there are also Welsh opportunities that will help you develop essential skills for the workplace.

SWANSEA UNIVERSITY BRANCH OF THE COLEG CYMRAEG CENEDLAETHOL

Swansea University works in partnership with the Coleg Cymraeg Cenedlaethol and the University's branch is situated within Academi Hywel Teifi. Its main aim is to provide students with assistance and support to study and socialise through the medium of Welsh. The Coleg Cymraeg Cenedlaethol Research Scholarships Scheme supports students studying for a doctorate through the medium of Welsh. Recent Coleg Cymraeg Cenedlaethol funded PhDs at Swansea University include Biomedical Sciences, Chemistry, Geography, Pharmacy, Psychology, Translation and Welsh.

WELSH LEARNERS

Would you like to learn or improve your Welsh whilst studying? There are a range of fun and rewarding courses available – from short beginners' classes up to proficiency level. We also offer courses for Welsh-speakers who want to improve their Welsh skills. You can learn in a virtual classroom, or in person, during the daytime or evening. If you're aged 18-25, it's easier than ever to learn Welsh. For students who are over 25, it's possible to claim a 40% discount when registering for a course.

SWANSEA UNIVERSITY STUDENTS' UNION
UNDEB MYFYRWYR PRIFYSGOL ABERTAWE

As students at Swansea, you are automatically members of the Students' Union! We are run by students, for students. We're a registered charity who are responsible for making your student experience here at Swansea the best it can be.

We are responsible for the societies, sports clubs, events, a series of services, and an Advice and Support centre to ensure you have the best time here. We also hold elections each year where we elect a team of 6 full-time officers to ensure your voice is heard by the University. They represent you in all things Education, Welfare, Societies and Services, Sports, and Welsh Affairs!

We have faculty and school reps too – these are students who work with the uni to handle anything students may face whilst studying. We also run the shops and bars on campus – JC's, Costcutter, and Fulton Outfitters. All the money earned at these venues is reinvested back into the student experience.

*Green Impact is a UNESCO award-winning programme designed to support environmentally and socially sustainable practice within organisations.

SUPPORTING YOU

Our full-time officer team run campaigns throughout the year to raise awareness of important issues, and initiatives to support you! Here are just a few.

Study Aid: Free services to help you get through intense study periods (including a visit from cuddly pups).

Liberation: We want everyone to feel safe, welcome, and included at Swansea. So, we run campaigns throughout the year on topics such as Black History, LGBTQ+ Pride, Disability Awareness, and Trans Rights to educate the wider student community and make our campuses as inclusive as possible!

Movember: During Movemeber we mobilise a community of students who make a difference by fundraising and promoting awareness of mental health and suicide prevention, prostate cancer, and testicular cancer. This is one of our biggest campaigns and is always a whole-university spectacle.

If you want to follow us to see what it's like being a student at Swansea, we're on:

@swanseasu

A visit from cuddly pups

SWANSEA UNIVERSITY STUDENTS' UNION OFFERS:

- Over 150 societies and 50+ sports clubs
- Union Collective; a platform for helping students with funding and resource to take your business ideas off the ground
- An Advice and Support Centre helping with everything from landlords to academic disputes
- An on-campus nursery that's flexible around students' lectures
- A voice for the students at the University, ensuring student views are heard at every level

SPORT FOR ALL

At Swansea University, we are passionate about supporting students to thrive and flourish in every aspect of their lives, and offer sporting opportunities for all, whether you are an aspiring athlete, a sport enthusiast, or just want to get fit and healthy.

SWANSEA UNIVERSITY

JOIN OUR ACTIVE CAMPUS COMMUNITY

Get ACTIVE offers a comprehensive and inclusive programme of physical activities and events designed to get you moving more. As well as a core timetable of physical activity on campus, Get ACTIVE also offers tasters, pop-ups, challenges and coached sessions, covering a wide range of activities from walking and jogging to volleyball, boules or badminton, as well as opportunities to get offsite and make the most of the Welsh outdoors.

swansea.ac.uk/sport

OUR INTRAMURAL LEAGUES

Social leagues give you the chance to compete with your friends right here on campus, making competitive sport social, affordable and accessible. Our leagues are open to all abilities and cover a growing range of sporting activities, from football and basketball to netball and more.

SPORTS CLUBS

Whether you're interested in swimming, sailing, archery or golf, there's something for everyone at Swansea University. Whatever your level, beginner; intermediate; or elite, through our 56+ clubs, we offer fantastic club sport opportunities for all.

HIGH PERFORMANCE PROGRAMME

Our Performance Sports programmes in rugby and swimming offer an elite training and competitive environment for student athletes, each delivered in conjunction with a professional sport club or national governing body. Each sport receives high performance coaching, sports analysis services, athlete lifestyle management, physiotherapy and strength and conditioning support.

SPORTING SCHOLARSHIPS & TASS

We offer sport scholarships to highly talented student athletes, with financial benefits of up to £2,000 per year, and tailored support packages which may include: strength and conditioning training, physiotherapy, psychological aid and nutritional advice, all delivered by qualified practitioners. Other benefits may include free facility membership and a campus parking permit.

GYM MEMBERSHIP

As part of a balanced and healthy lifestyle at Swansea University, students can join the gym and secure several benefits at a reduced price, including the following:

- Access to gym facilities on both Bay and Singleton Park campuses.
- Fitness classes.
- Discounted rates for facility hire for members.

OUR SPORTING FACILITIES

Swansea University offers state-of-the-art health and fitness facilities for students at Swansea Bay Sports Park next to Singleton Park Campus and Bay Campus. Both campuses have an extensive range of equipment, exercise classes and indoor and outdoor activities to help you reach your goals.

The 50m National Pool, available to all, has been used by athletes preparing for Olympic and Paralympic games and is currently home to Swim Wales' high-performance programme. Our football teams have access to a world-class training facility at Fairwood which is the main training ground of Swansea City Football Club. The University is also home to the Shed, a high-end strength and conditioning facility for elite athletes and teams, which the New Zealand All Blacks have used as a Rugby World Cup training base.

Our world-class sporting facilities include:

- 50m Wales National Pool Swansea
- Athletics track and field
- Cycle hire and running routes
- Indoor athletics track
- Multi-purpose sports halls and outdoor games areas
- Playing fields
- Sports pavilion
- Tennis courts
- Water-based Astroturf pitches

EMBEDDING SUSTAINABILITY INTO *University life*

(2025/26)

At Swansea University we are blessed with a wealth of habitats, from beaches to woodland to parks, and we are passionate about sustainable development to benefit our local community, the UK and the wider world.

As a student, there are plenty of opportunities for you to get involved with practical conservation. You can help keep these areas special by joining our regular beach cleans, volunteering sessions and wildlife monitoring. As well as helping the environment, you'll learn new skills and meet new friends along the way.

Find out more about getting involved

"With our waterfront campuses and surrounding parks and habitats, we aim to encourage our students to reduce collective and individual impacts on the environment and reward them for helping us achieve this.

Our sustainability engagement app, SWell, allows students to earn 'Green Points' for taking positive actions. This includes supporting wildlife, choosing a low carbon transport type, taking steps to improve your mental wellbeing, plus lots more. The top points earners every month win a voucher for a sustainable retailer, a reward that we hope will improve our students' everyday sustainability and incentivise others to take action. Since launching the app in 2021, staff and students have recorded 288,095 actions resulting in a saving of 556,423.5kg of CO_2e.

What impact could you make?"

Teifion Maddocks
Swansea University,
Sustainability Manager

#WeAre International

See How to Apply

We have a thriving international community with students from all over the world choosing to study with us. The vibrant mix of nationalities and cultures on campus greatly enriches our learning and teaching environment.

We understand the type of support our international students need to settle into student life in a new country and strive to provide a high-level of advice and service to make sure that this happens.

SCHOLARSHIPS

Swansea University offers a range of scholarships for international students. We are proud to support the Chevening Scholarship Programme. We recognise the ambition and talent of many international students by offering an International Excellence scholarship (up to £5,000) for postgraduate study. For details of all our international scholarship opportunities.

POSTGRADUATE PATHWAYS

thecollegeSUni thecollegeSUni thecollegesuni

Applications are made directly to The College. Apply here

Swansea University Prifysgol Abertawe

The College y Coleg

A postgraduate pathway is known as a Pre-Master's. These are designed to bridge the gap between your academic qualifications and Swansea University's master's level entry requirements.

The College, Swansea University specialises in developing and delivering pre-master's programmes which progress into a number of Swansea University master's. From day one with us, you will be fully integrated into life at Swansea University as our dedicated academic building is found on the Bay Campus.

The postgraduate pathway is designed for students who:

- Require additional English language training
- Come from an academic background different to that of the UK and do not meet university direct-entry requirements
- Have been away from studies for a period of time
- Are looking to fine-tune skills already gained during their undergraduate studies or employment

The language of instruction at The College, Swansea University is English. To attain entry into the postgraduate pathway you must be able to demonstrate you have a suitable level of English proficiency. For further details, contact our team:

Contact us

If you do not meet the English language requirement for direct entry to your chosen pathway, you can receive the required amount of English language tuition to prepare you for successful entry at a later date. English Language training is delivered by the University's English Language Training Services (ELTS) with multiple entry points throughout each year.

For a full list of countries and entry requirements visit:

Find out more about Admissions Entry

PRE-MASTER'S

This is stage one of the postgraduate pathway. It is one, two or three semesters long, depending on your chosen pathway and qualifications (English language and academic) at the point of entry. This programme is available in the areas of: languages, politics and culture, engineering, children and young people, management, accounting and finance, and computer science. The pre-master's programme allows you to adjust to the rigorous research and independent study requirements of a postgraduate degree.

The Pre-Master's programme will:

- Help you develop fundamental knowledge and an understanding of the basic principles relevant to your particular degree
- Help you develop numerical techniques, research methodologies and ICT, presentation and communication skills
- Help you develop your intellectual and practical skills building to a set of transferable skills that will support you in your onward academic studies, careers and decision-making
- Ensure you have attained the prescribed level of interdisciplinary language competence

MASTER'S

The master's degree is stage two of the postgraduate pathway, and is taught by Swansea University.

POSTGRADUATE PATHWAYS ARE AVAILABLE IN THE FOLLOWING SUBJECTS:

- Accounting and Finance
- Children and Young People
- Computer Science
- Engineering
- Languages, Politics and Culture
- Management
- Public Health and Management

MAKING AN *Application*

APPLICATION PROCESS

You can apply via our Learner Gateway portal for for most of our taught and research courses:

Apply Online

When we receive your application, we will:

- Make sure that you meet our entry requirements
- Check that you have the experience and skills necessary to study the subject
- Look for evidence of your achievements, commitment and motivation

You can track your application journey at each stage of the process.

Some courses have a different application process. Please visit our website to find out how to apply for your chosen programme:

Application Process

WHAT QUALIFICATIONS DO YOU NEED?

To study a postgraduate course at Swansea you will normally need an appropriate honours degree or postgraduate qualification. Relevant work experience can be taken into consideration for entry to some of our taught courses. Please see the course listings for detailed entry requirements.

When submitting an application, don't forget to include:

- Copies of your academic transcripts to date
- A copy of your degree certificate (if awarded)
- An approved English Language qualification (if required)
- Your research proposal (for research degree applications)
- Your full CV
- Personal statement

Some courses require candidates to provide additional written work to support an application.

Once we have received your application and supporting documents, we try to make a decision (or issue an invitation for interview) within 5 working days for taught applications and 15 working days for research applications.

YOUR APPLICATION DECISION

Once we have considered your application, you will receive an email advising you to log into your Learner Gateway portal to view one of the following decisions:

- a conditional or unconditional offer of a place
- an invite for interview
- a notification advising you we are unable to offer you a place

Offer letters are always made by the University's Admissions Office, on behalf of the relevant academic department. Our terms and conditions of offer will be attached.

If you have a disability, medical condition, or a specific learning difficulty, you will be invited to contact the University's Disability Office or Wellbeing Service so we can be sure that we are able to give you the support you need throughout your studies.

DATES AND DEADLINES

All departments have closing dates for their courses. We recommend that you submit your applications as early as possible to allow yourself time to make necessary arrangements. Please take note of scholarship deadlines as many of our scholarships and bursaries have closing dates earlier than the application deadline dates. Please visit our website:

Application Deadlines

ENROLMENT

Information about enrolment will be sent to you before you start your studies. Enrolment for taught courses takes place in September and January, and for research degree programmes in April and July. All students are required to comply with the University's enrolment procedures and observe the University's General and Academic Regulations, please see:

Academic Regulations

OUR ADMISSIONS POLICY

The University welcomes applications and enquiries from people regardless of age, ethnic or national origins, race, religion, gender, sexual preference, marital status, family responsibility, physical or sensory disability, and political or religious beliefs and activities, unless those activities are unlawful or contrary to the policies of the University. The University treats all applicants on their individual merits. Full details of our policies can be found at:

Admission Policies

NOTES FOR INTERNATIONAL STUDENTS

We welcome applications from applicants around the world and we are happy to advise you on whether your qualifications are suitable for entry to the course you would like to study. Details of entry requirements for your country can be found at:

Entry Requirements

A full list of acceptable English language tests and qualifications can be found at:

English-language-requirements

We also offer our own high quality English language training and English test for offer holders (SWELT):

English-language-training-services

Taught Master's

APPLICATION TIMELINE

Whether your course starts in September or January, it's good to start thinking about postgraduate study options at least six months before the course starts.

START PLANNING

Are you thinking about continuing with your current subject or studying something completely different? You may also want to think about whether a taught course or a research programme is right for you. It's a good idea to contact your referees and prepare a personal statement before starting your application.

Our postgraduate open day events give you the opportunity to explore all of your options at our beach side campuses.

Find out more:

Postgraduate open days

02

APPLY AND RECEIVE OFFER

You can apply directly to Swansea University for most of our postgraduate courses (with some exceptions). You can also find out if you have been offered a place to study on your chosen course, usually within 9 working days.

You can apply by the end of July (for September entry) and end of October (for January entry) at the latest. Don't leave it too late as you may miss scholarship opportunities.

Apply Online

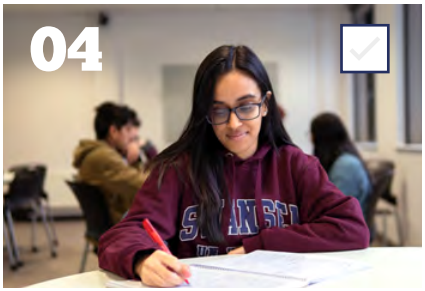

03

ACCEPT OFFER

Let us know within 28 days whether you'd like to accept your offer to ensure you secure a place on your chosen course.

04

APPLY FOR FUNDING

We offer a range of postgraduate scholarships in all subject areas, as well as alternative sources of funding. Applications for student finance usually open in May or June for the forthcoming academic year.

GET READY

You may want to start considering where you want to live whilst studying with us. There's a range of flexible university and private accommodation options available in Swansea.

06 RESULTS

If you're sitting any exams, please send us your results and if you meet the terms of your offer, your place to study at Swansea University will be confirmed. You will also find out if you have been successful with any university scholarship applications you may have made.

07

ENROL

Before you arrive in Swansea, you will receive full instructions about the enrolment process. All postgraduate students can also attend a faculty induction event – a great opportunity to meet new friends!

Applying

FOR A PHD?

You can start your PhD at Swansea University in October, January, April or July. Give yourself 3 to 6 months to plan and research before submitting your application.

At Swansea, we offer two main types of PhD project:

- Those that are predesigned by an academic (more common in science and engineering subjects)
- Those that you design yourself

Predesigned project:

A predesigned project will often be part of wider research being undertaken by an academic or research group. These usually have a defined title, fixed aims and objectives, and you'll normally be supervised by the academic that designed the project. Swansea University advertises a large number of these opportunities throughout the academic year in all subject areas.

FUNDING:

Research scholarships at Swansea University usually provide funding for the duration of your studies.

There are also PhD loans available through Student Finance England and Student Finance Wales.

APPLICATION:

Applying is straightforward – you'll just need to follow the instructions on the project advertisement.

These will usually have a specific application deadline so allow yourself plenty of time to complete any paperwork and gather references if required.

Self-designed project:

A self-designed PhD will take a little more effort and thought to get started, but you should ultimately end up with a project theme that truly excites and interests you.

CONTACT POTENTIAL SUPERVISORS:

After coming up with an initial idea for a project, you will need to identify and contact an appropriate academic supervisor.

A good starting point is to find the University department with the areas of strength that are most relevant to your research. You can use Swansea University's online directory of expertise, speak to your current supervisor, attend a study fair or a postgraduate open day.

FUNDING:

There are various ways to fund your PhD, including loans, available through Student Finance Wales and Student Finance England.

Find out more

APPLICATION:

Once you have identified a potential supervisor for your own research idea, you'll need to contact them prior to submitting a formal application. Academics welcome informal approaches from prospective students and they will also be able to help shape your research proposal. Do your research before you submit and take your time preparing.

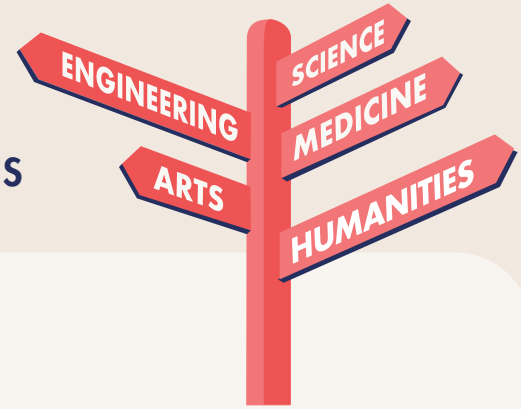

Good luck!

Keeping In Touch

Swansea University's Alumni Network offers lifelong connection and support for its graduates. With over 205,000 members worldwide, it spans various sectors including industry, commerce, sports, and public service. Whether leading multinational corporations or entrepreneurial ventures, alumni contribute globally. This diverse network fosters connections and opportunities both locally and internationally, enriching your professional journey.

FOLLOW US TO FIND OUT MORE: @swanseauni @swanseauniversity

The following message contains some very important information. This prospectus was produced in the summer of 2025. It contains information on the postgraduate programmes that Swansea University intends to run for students who are planning to start university in January 2026 and September 2026. We have made every reasonable steps to provide the services (including the programmes) described in this prospectus at the date of publication.

However, some changes, for example to: programmes, delivery of teaching, study location, international opportunities and destinations, facilities or fees may become necessary due to legitimate staffing, financial, regulatory and academic reasons.

Should industrial action, external factors beyond the control of the University or government legislation and/or guidance interfere with its current ability to provide the services (as at the time of publication), the University will undertake to use all reasonable steps to minimise any disruption to the services. As at the time of publication it is an ever changing landscape which we shall continually/periodically review.

We will endeavour at all times to keep any necessary changes to a minimum and to keep prospective students informed appropriately. Any changes to the information contained in this prospectus will be updated on our website: **swansea.ac.uk/postgraduate**

We encourage students to visit our website to identify any updates to the information outlined in this prospectus, prior to making an application.

Alternative formats, are available upon request, please contact: **creativeproduction@swansea.ac.uk**
